Dying in the Twenty-First Century Penguin

The Memory of All That is Katharine Weber ’ s memoir of her extraordinary family. Her maternal grandmother, Kay Swift, was known both for her own music (she was the first woman to compose the score to a hit Broadway show, *Fine and Dandy*) and for her ten-year romance with George Gershwin. Their love affair began during Swift ’ s marriage to James Paul Warburg, the multitalented banker and economist who advised (and feuded with) FDR. Weber creates an intriguing and intimate group portrait of the renowned Warburg family, from her great-great-uncle, the eccentric art historian Aby Warburg, whose madness inspired modern theories of iconography, to her great-grandfather Paul M. Warburg, the architect of the Federal Reserve System whose unheeded warnings about the stock-market crash of 1929

made him “ the Cassandra of Wall Street. ” As she throws new light on her beloved grandmother ’ s life and many amours, Weber also considers the role the psychoanalyst Gregory Zilboorg played in her family history, along with the ways the Warburg family has been as celebrated for its accomplishments as it has been vilified over the years by countless conspiracy theorists (from Henry Ford to Louis Farrakhan), who labeled Paul Warburg the ringleader of the so-called international Jewish banking conspiracy. Her mother, Andrea Swift Warburg, married Sidney Kaufman, but their unlikely union, Weber believes, was a direct consequence of George Gershwin ’ s looming presence in the Warburg family. A notorious womanizer, Weber ’ s father was a peripatetic filmmaker who made propaganda and training films for the OSS during World War II before producing the first movie with smells, the regrettable flop that was *AromaRama*. He was as much an enigma to his daughter as he was to the FBI, which had him under surveillance for more than forty years, and even noted Katharine ’ s birth in a memo to J. Edgar Hoover. Colorful, evocative, insightful, and very

funny, *The Memory of All That* is an enthralling look at a tremendously influential—and highly eccentric—family, as well as a consideration of how their stories, with their myriad layers of truth and fiction, have both provoked and influenced one of our most prodigiously gifted writers.

system of taxonomy. He wants to identify and classify their relationship, but in the end, he finds that life doesn't always fit into easy-to-manage boxes, and it's this messy complexity that makes life so rich and beautiful.

USE YOUR WORDS

introduces the art of creative nonfiction to women who want to give written expression to their lives as mothers. Written by award-winning teacher and writer, Kate Hopper, this book will help women find the heart of their writing, learn to use motherhood as a lens through which to write the world, and turn their motherhood stories into art. Each chapter of **USE YOUR WORDS** focuses on an element of craft and contains a lecture, a published essay, and writing exercises that will serve as jumping-off points for the readers' own writing. Chapter topics include: the importance of using concrete details, an overview of creative

nonfiction as a genre, character development, voice, humor, tense and writing the "hard stuff," reflection and back-story, structure, revision, and publishing. The content of each lecture is aligned with the essay/poem in that chapter to help readers more easily grasp the elements of craft being discussed. Together the chapters provide a unique opportunity for mother writers to learn and grow as writers. **USE YOUR WORDS** takes the approach that creative writing can be taught, and this underscores each chapter. When students learn to read like writers, to notice how a piece is put together, and to question the choices a writer makes, they begin to think like writers. When they learn to ground their writing in concrete, sensory details and begin to understand how to create believable characters and realistic dialogue, their own writing improves. **USE YOUR WORDS** reflects Kate's style as a teacher,

guiding the reader in a straightforward, nurturing, and passionate voice. As one student noted in a class evaluation: "Kate is a born writer and teacher, and her enthusiasm for essays about motherhood and for teaching the nuts and bolts of writing so that ordinary mothers have the tools to write their stories is a gift to the world. She is raising the value of motherhood in our society as she helps mothers build their confidence and strengthen their game as writers."

Let's Pretend This Never Happened HarperCollins
A revealing memoir of a family and a "wrenching journey into deafness from the standpoint of a mother, a wife, a daughter, a philosopher, and a Jew" (Ilan Stavans, author of *On Borrowed Words: A Memoir of Language*). When her daughters were born deaf, Jennifer Rosner was stunned. Then she discovered a hidden history of deafness in her family, going back generations to the Jewish enclaves of Eastern Europe. Traveling back in time in her mind, she imagined her silent relatives, who showed surprising creativity in

dealing with a world that preferred to ignore them. Here, in a “gentle meditation on sound and silence, love and family” Rosner shares her journey into the modern world of deafness, and the controversial decisions she and her husband made about hearing aids, cochlear implants and sign language (Publishers Weekly). Punctuated by memories of being unheard, Rosner’s imaginative odyssey of dealing with her daughters’ deafness is at its heart a story of whether she—a mother with perfect hearing—can ever truly hear her children.

Challenging assumptions about caregiving for those dying of chronic illness. What is it like to live with—and love—someone whose death, while delayed, is nevertheless foretold?

In *Living in Death’s Shadow*, Emily K. Abel, an expert on the history of death and dying, examines memoirs written between 1965 and 2014 by family members of people who died from chronic disease. In earlier eras, death generally occurred quickly from acute illnesses, but as chronic disease became the major cause of mortality, many people continued to live with terminal diagnoses for months and even years. Illuminating the excruciatingly painful experience of coping with a family member’s extended fatal illness,

Abel analyzes the political, personal, cultural, and medical dimensions of these struggles. The book focuses on three significant developments that transformed the experiences of those dying and their intimates: the passage of Medicare and Medicaid, the growing use of high-tech treatments at the end of life, and the rise of a movement to humanize the care of dying people. It questions the exalted value placed on acceptance of mortality as well as the notion that it is always better to die at home than in an institution. Ultimately, *Living in Death’s Shadow* emphasizes the need to shift attention from the drama of death to the entire course of a serious chronic disease. The chapters follow a common narrative of life-threatening disease: learning the diagnosis; deciding whether to enroll in a clinical trial; acknowledging or struggling against the limits of medicine;

receiving care at home and in a hospital or nursing home; and obtaining palliative and hospice care. *Living in Death’s Shadow* is essential reading for everyone seeking to understand what it means to live with someone suffering from a chronic, fatal condition, including cancer, AIDS, Alzheimer’s, and heart disease.

A USA TODAY BESTSELLER! "A powerful debut that proves the threads that interweave our lives can withstand time and any tide, and bind our hearts forever."—Susanna Kearsley, New York Times bestselling author of *Belleweather* and *The Vanished Days*

A historical novel inspired by true events, Kelli Estes's brilliant and atmospheric debut is a poignant tale of two women determined to do the right thing, highlighting the power of our own stories. The smallest items can hold centuries of secrets...

While exploring her aunt's island estate, Inara Erickson is captivated by an elaborately stitched piece of fabric hidden in the house. The truth behind the silk sleeve dated back to 1886, when Mei Lien, the lone survivor of a cruel purge of the Chinese in Seattle found refuge on Orcas Island and shared her tragic experience by embroidering it. As Inara peels back layer upon layer of the centuries of secrets the sleeve holds, her life becomes interwoven with that of Mei Lien. Through the stories Mei Lien tells in silk, Inara uncovers a tragic truth that will shake her family to its core—and force her to make an impossible choice. Should she bring shame to her family and risk everything by telling the truth, or tell no one and dishonor Mei Lien's memory? A touching and tender book for fans of Marie Benedict, Susanna Kearsley, and Duncan Jepson, *The Girl Who Wrote in Silk* is a dual-time period novel that explores how

a delicate piece of silk interweaves the past and the present, reminding us that today's actions have far reaching implications. The Memory of All That
Simon and Schuster
This "standard text of the defining era of gay literati" tells the cultural history of the interconnected lives of the 20th century's most influential gay writers (*Philadelphia Inquirer*). In the years following World War II a group of gay writers established themselves as major cultural figures in American life. Truman Capote, the *enfant terrible*, whose

finely wrought fiction and nonfiction captured the nation's imagination. Gore Vidal, the wry, withering chronicler of politics, sex, and history. Tennessee Williams, whose powerful plays rocketed him to the top of the American theater. James Baldwin, the harrowingly perceptive novelist and social critic. Christopher Isherwood, the English novelist who became a thoroughly American novelist. And the exuberant Allen Ginsberg, whose poetry defied censorship and exploded minds. Together, their writing introduced America to gay experience and sensibility, and changed our literary culture. But the change was only beginning. A new generation of gay writers followed, taking more risks and writing about their sexuality more openly. Edward Albee brought his prickly iconoclasm to the American theater. Edmund White laid bare his own life in stylized, autobiographical works. Armistead Maupin wove a rich tapestry of the counterculture, queer and straight. Mart Crowley brought gay men's lives out of the closet and onto the stage. And Tony Kushner took them beyond the stage, to the center of American ideas. With authority and humor, Christopher Bram weaves these men's ambitions, affairs, feuds, loves, and appetites into a

single sweeping narrative. Chronicling over fifty years of momentous change—from civil rights to Stonewall to AIDS and beyond. Eminent Outlaws is an inspiring, illuminating tale: one that reveals how the lives of these men are crucial to understanding the social and cultural history of the American twentieth century. Seeing Ezra is the soulful, beautifully written memoir of a mother's fierce love for her autistic son, and a poignant examination of what it means to be "normal." When Kerry Cohen's son Ezra turns one, a babysitter suggests he may be "different," setting her family on a path in which autism dominates their world. As he becomes a toddler and they navigate the often rigid and prescriptive world of therapy, Cohen is unsettled by the evaluations they undergo: At home, Ezra is playfully expressive, sharing profound, touching moments of connection and intimacy with his mother and other family members, but in therapy he is pathologized, prodded to behave in ways that undermine his unique expression of autism. It soon becomes clear that more is at stake than just Ezra's well-being; Cohen and her marriage are suffering as well. Ezra's differentness, and the strain of pursuing varied therapies, takes a toll on the family—Cohen's husband grows depressed and she pursues an affair—all as she tries to help others recognize and

embrace Ezra's uniqueness rather than force him to behave outside his comfort level. It isn't until they abandon the expected, prescriptive notions about love, marriage, and individuality that they are able to come back together as two parents who fiercely love their little boy. Powerful and eye-opening, Seeing Ezra is an inspirational chronicle of a mother's struggle to protect her son from a system that seeks to compartmentalize and "fix" him, and of her journey toward accepting and valuing him for who he is—just as he is. Boy Alone Houghton Mifflin Harcourt This Is Not My Beautiful Life is the story of how Victoria lost her parents to prison and nearly lost her mind. No one ever said motherhood would be easy, but as she struggles to change diapers, install car seats, and find the right drop-off line at pre-school--no easy task--when each one is named for a stage in the lifecycle of a freaking butterfly! She's also forced to ask

herself whether a jumpsuit might actually complement her Mom's platinum-blonde extensions and fend off the cast of shady, stranger-than-fiction characters (like the recovering addict who scored a reality show when he started an escort service for women) who populated her parents' world. This Is Not My Beautiful Life is a hilariously funny and unexpectedly moving memoir of a just-functional family you will never forget. Girl Trouble Createspace Independent Publishing Platform Every year, American universities publish glowing reports stating their commitment to diversity, often showing statistics of female hires as proof of success. Yet, although women make up increasing numbers of graduate students, graduate degree recipients, and even new hires, academic life remains overwhelming a man's world. The reality that the statistics fail to

highlight is that the presence of women, specifically those with children, in the ranks of tenured faculty has not increased in a generation. Further, those women who do achieve tenure track placement tend to report slow advancement, income disparity, and lack of job satisfaction compared to their male colleagues. Amid these disadvantages, what is a Mama, PhD to do? This literary anthology brings together a selection of deeply felt personal narratives by smart, interesting women who explore the continued inequality of the sexes in higher education and suggest changes that could make universities more family-friendly workplaces. The contributors hail from a wide array of disciplines and bring with them a variety of perspectives, including those of single and adoptive parents. They address topics that range from the level of policy to practical day-to-day concerns,

including caring for a child with special needs, breastfeeding on campus, negotiating viable maternity and family leave policies, job-sharing and telecommuting options, and fitting into desk/chair combinations while eight months pregnant. Candid, provocative, and sometimes with a wry sense of humor, the thirty-five essays in this anthology speak to and offer support for any woman attempting to combine work and family, as well as anyone who is interested in improving the university's ability to live up to its reputation to be among the most progressive of American institutions. Now Foundation and author of *Strange Son* A Washington Post Book World Best Book of the Year In this literary tour de force, Karl Taro Greenfield, acclaimed journalist and author of *China Syndrome*, tells the story of his life growing up with his brother, chronicling the hopes, dreams, and realities of life with an autistic sibling. Karl Taro Greenfield knew from an early age that his little brother, Noah, was not like other children. He was unable to communicate verbally or tie his shoes, and despite his angelic demeanor was prone to violent outbursts. No doctor, social worker, or specialist could pinpoint what was wrong with Noah beyond a general diagnosis: autism. The boys' parents dedicated their lives to caring for their younger son—a challenging, often painful experience that their father detailed in a bestselling trilogy of books. *Boy Alone* is Karl Taro Greenfield's unforgettable memoir of growing up in Noah's shadow, revealing the complex mix of rage, confusion, and love that defined the author's childhood—a beautiful, haunting, and wholly original exploration of what it means to be a family, a brother, a person. *A Quilting Life* MIRA
"View the universe of autism--its marvels, chaos, and life-changing

In 33 essays and poems, mothers and fathers raising children on the autism spectrum explore their lives in the context of autism's own special gravity, discovering what's important and what they find centering. Their slice-of-life depictions are a refreshing departure from the usual diagnosis/grief/acceptance arc of many autism accounts. Readers are invited into contributors' lives, where they're sure to find an attitude, a circumstance, an epiphany they can relate to."--Back cover.

A little over a year ago, Darcy Wakefield was a single, 33-year-old, athletic, workaholic English professor, a vegetarian who had never had a serious health problem or injury. Then she was diagnosed with ALS, and her world turned upside down. I Remember Running is Darcy's story of change and loss and challenges during her first year with ALS, as she struggles to make sense of her diagnosis and redefine herself in the face of this terminal illness. With unflagging courage, wit, and eloquence, Darcy

shares what she calls her "fast-forward" life, a life in which she applies for disability, leaves her job, and plans her own funeral as well as meets and moves in with her true love, buys a house, and gives birth to her first child in less time than it takes most of us to accomplish even one of these things. Beautifully written and wholly inspiring, I Remember Running proves that it is possible to live a rich, meaningful life after being diagnosed with a terminal illness. This book will move readers to see the world in a different light.
