In late 2016, U.S. Embassy personnel in Havana, Cuba, began to report the development of an unusual set of symptoms and clinical signs. For some of these patients, their case began with the sudden onset of a loud noise, perceived to have directional features, and accompanied by pain in one or both ears or across a broad region of the head, and in some cases, a sensation of head pressure or vibration, dizziness, followed in some cases by tinnitus, visual problems, vertigo, and cognitive difficulties. Other personnel attached to the U.S. Consulate in Guangzhou, China, reported similar symptoms and signs to varying degrees, beginning in the following year. As of June 2020, many of these personnel continue to suffer from these and/or other health problems. Multiple hypotheses and mechanisms have been proposed to explain these clinical cases, but evidence has been lacking, no

hypothesis has been proven, and the circumstances remain unclear. The Department of State asked the National Academies to review the cases, their clinical features and management, epidemiologic investigations, and scientific evidence in support of possible causes, and advise on approaches for the investigation of potential future cases. In An Assessment of Illness in U.S. Government Employees and Their Families at Overseas Embassies, the committee identifies distinctive clinical features, considers possible causes, evaluates plausible mechanisms and rehabilitation efforts, and offers

recommendations for future planning and responses.

relationships that existed in terrorist group planning, and if so, could patterns of preparatory conduct be identified? About one-half of the terrorists resided, planned, and prepared for terrorism relatively close to their eventual target. The terrorist groups existed for 1,205 days from the first planning meeting to the date of the actual/planned terrorist incident. The planning process for specific acts began 2-3 months prior to the terrorist incident.

This study examined selected terrorist groups/incidents in the U.S. from 1980-2002. It provides for the potential to identify patterns of conduct that might lead to intervention prior to the commission of the actual terrorist incidents. Illustrations. Durante estos once capítulos donde he ido desarrollando diferentes partes del libro de Job, el hilo conductor siempre ha sido la grandeza de Dios. Cuando le conferimos majestad a una persona, estamos reconociendo su grandeza. Y en este libro toda la grandeza, majestad y poder tienen que ir dedicadas al único Dios trino y verdadero, creador del cielo y de la tierra, a quien hará bien

Recently voted the greatest fantasy of all time, after *The Lord of the Rings* and *The Hobbit*, Gene Wolfe's *The Book of the New Sun* is an extraordinary epic, set a million years in the future, on an Earth transformed in

mysterious and wondrous ways, in a time when our present culture is no longer even a memory. Severian, the central character, is a torturer, exiled from his guild after falling in love with one of his victims, and journeying to the distant city of Thrax, armed with his ancient executioner's sword, *Terminus Est*. This edition contains the second two volumes of this four volume novel, *The Sword of the Lictor* and *The Citadel of the Autarch*.

*The Hidden Sayings of Jesus* HarperCollins Hailed as early Christian texts as important as the *Dead Sea Scrolls*, yet condemned by the Vatican as Islamic heresies, the *Lead books of Granada*, written on discs of lead and unearthed on a Granadan hillside, weave a mysterious tale of duplicity and daring set in the religious crucible of sixteenth-century

Spain. This book evaluates the cultural status and importance of these polyvalent, ambiguous artefacts which embody many of the dualities and paradoxes inherent in the racial and religious dilemmas of Early Modern Spain. Using the words of key individuals, and set against the background of conflict between Spanish Christians and Moriscos in the late fifteen-hundreds, The

Lead Books of Granada tells a story of resilient resistance and creative ingenuity in the face of impossibly powerful negative forces, a resistance embodied by a small group of courageous, idealistic men who lived a double life in Granada just before the expulsion of the Moriscos.
