A. Service Specifications

? Thoracic surgery should be identified as a separate service line within the hospital's directorate structure. ? 24/7 emergency cover should be provided by general thoracic surgical consultants with or without mixed-practice cardiothoracic surgical colleagues. This should be appropriate to the service requirements.

Images in Cardiothoracic Surgery showcase interesting photographs or images (CTs, MRIs, polysomnographic tracings, OR setups, etc) from unusual cases. Clinical Practice Guidelines (CPG) are usually, but not exclusively developed by the STS Workforce on Evidence Based Surgery. CPGs, but not consensus documents or reviews, will have an Executive Summary that includes "levels of evidence" for recommendations after the list of author names in lieu of an abstract.

ESTS - European Society of Thoracic Surgeons - Guideline ...

Recognizing that some guidelines are so large as to be unwieldy, we will create documents that are easily digestible. Topics in both cardiac and general thoracic surgery will be addressed. In general we will avoid broad topics, favoring instead more focused topics that are meaningful, practical, and controversial.
