Development of these recommendations was endorsed by the Enhanced Recovery after Surgery Society and the European Society for Thoracic Surgery. Recommendations were developed for a total of 45 enhanced recovery items covering topics related to preadmission, admission, intraoperative care and postoperative care.

Clinical Guidelines | European Journal of Cardio-Thoracic ...

Recognizing that some guidelines are so large as to be unwieldy, we will create documents that are easily digestible. Topics in both cardiac and general thoracic surgery will be addressed. In general we will avoid broad topics, favoring instead more focused topics that are meaningful, practical, and controversial.

Thoracic surgery should be identified as a separate service line within the hospital ' s directorate structure. 24/7 emergency cover should be provided by general thoracic surgical consultants with or without mixed-practice cardiothoracic surgical colleagues. This should be appropriate to the service requirements.

Author Guidelines | European Journal of Cardio-Thoracic ...

This guideline covers the assessment and early management of spinal column and spinal cord injury in pre-hospital settings (including ambulance services), emergency departments and major trauma centres. It covers traumatic injuries to the spine but does not cover spinal injury caused by a disease. It

aims to reduce death and disability by ...

Guide for authors - The Annals of Thoracic Surgery - ISSN ...

The American Thoracic Society improves global health by advancing research, patient care, and public health in pulmonary disease, critical illness, and sleep disorders. Founded in 1905 to combat TB, the ATS has grown to tackle asthma, COPD, lung cancer, sepsis, acute respiratory distress, and sleep apnea, among other diseases.
