In 'The Law of Vibration' Tony Plummer presents a new theory which he argues is revealing of a fundamental truth about the deep-structure of the universe. The Law is embodied in a very specific pattern of oscillation that accompanies change and evolution. It can be found in fluctuations in stock markets and in economic activity. The research here suggests that the pattern was known about in antiquity because it was buried in a short passage in St Matthew's Gospel in the Bible. It also suggests that it was known about in the early part of the 20th century because it was concealed in the structure of books written by the renowned stock market trader, William D. Gann, and by the mindfulness exponent, George Gurdjieff. Both men chose to preserve their knowledge of the pattern in a hidden form for some unknown future purpose. Now, after 20 years of investigation, Tony Plummer tells the story of how the pattern was originally hidden. Drawing on painstaking research on gematria, the enneagram and financial market analysis, Plummer reveals the existence of a behavioural pattern that may have profound implications for the way that we view the world. Plummer's work is elegantly structured and illustrated throughout. It is an exciting and thought-provoking study for Gann enthusiasts, and also for investors, economists and scientists who have an interest in the laws that underpin systemic coherence and produce collective order.

"We take the greatest pleasure in presenting this latest and best work from the pen of William Walker Atkinson. It embodies the essence of years of thought, study, and experiment on the part of its author whose original research, discoveries, and writings along these lines have given him his worldwide reputation as an authority. It is his Masterpiece. A portion of its material was used in two of the author's previous works, vis., "Mental Magic," and "Mental Fascination," both of which works were published by ourselves. Both of the said works are now practically out of print, and will be withdrawn from sale by us, as they will be superseded by this newer and more complete work. This foundation material has been

edited; added to; changed; improved; and corrected by the author, in accordance with his increased experience and knowledge of the subject. Obsolete matter has been replaced by entirely new material, and the work is now strictly "up-to-date". It is encyclopaedic in extent and character, every phase of the subject being considered by the author and expressed in words charged with his dynamic vitality. It contains matter that well might have been expanded into several volumes"--Foreword.

"Dynamic Thought; Or, The Law of Vibrant Energy" by William Walker Atkinson is a book about the odd union of ancient occult teachings to the most advanced and latest concepts of modern science. The book discusses higher levels of thinking and development, completely separate planes of the mind, and how natural forces and the law of attraction can influence our actions or how anyone acts toward us. This book, like much of his work, is intended for students of philosophical and psychological thought.

The Secret of Success Lulu Press, Inc

William Walker Atkinson was an influential member of the New Thought movement. He was one of the first people to write about the Law of Attraction. Long before Rhonda Byrne discovered 'The Secret' that one's positive thoughts are powerful magnets that attract wealth, health, and happiness, Atkinson already knew it. William Walker Atkinson (December 5, 1862 – November 22, 1932) was an attorney, merchant, publisher, and author, as well as an occultist and an American pioneer of the New Thought movement. He is also known to have been the author of the pseudonymous works attributed to Theron Q. Dumont, Swami Panchadasi and Yogi Ramacharaka and others. Due in part to Atkinson's intense personal secrecy and extensive use of pseudonyms, he is now largely forgotten, despite having obtained mention in past editions of Who's Who in America, Religious Leaders of America, and several similar publications—and having written more than 100 books in the last 30 years of his life. His works have remained in print more or less continuously since 1900. William Walker Atkinson was born in Baltimore, Maryland on December 5, 1862, to William and Emma Atkinson. He began his working life as a grocer at 15 years old, probably helping his father. He married Margret Foster Black of Beverly, New Jersey, in October 1889, and they had two children. The first probably died young. The second later married and had two daughters. Atkinson pursued a business career from 1882 onwards and in 1894 he was admitted as an attorney to the Bar of Pennsylvania. While he gained much material success in his profession as a lawyer, the stress and over-strain eventually took its toll, and during this time he experienced a complete physical and mental breakdown, and financial disaster. He looked for healing and in the late 1880s he found it with New Thought, later attributing the restoration of his health, mental vigor and material prosperity to the application of the principles of New Thought. Some time after his healing, Atkinson began to write articles on the truths he felt he had discovered, which were then known as Mental Science. In 1889, an article by him entitled "A Mental Science Catechism," appeared in Charles Fillmore's new periodical, Modern Thought. By the early 1890s Chicago had become a major centre for New Thought, mainly through the work of Emma Curtis Hopkins, and Atkinson decided to move there. Once in the city, he became an active promoter of the movement as an editor and author. He was responsible for publishing the magazines Suggestion (1900–1901), New Thought (1901–1905) and Advanced Thought (1906–1916). In 1900 Atkinson worked as an associate editor of Suggestion, a New Thought Journal, and wrote his probable first book, Thought-Force in Business and Everyday Life, being a series of lessons in personal magnetism, psychic influence, thought-force, concentration, will-power, and practical mental science. He then met Sydney Flower, a well-known New Thought publisher and businessman, and teamed up with him. In December, 1901 he assumed editorship of Flower's popular New Thought magazine, a post which he held until 1905. During these years he built for himself an enduring place in the hearts of its readers. Article after article flowed from his pen. Meanwhile he also founded his own Psychic Club and the so-called "Atkinson School of Mental Science". Both were located in the same building as Flower's Psychic Research and New Thought Publishing Company. Atkinson was a past president of the International New Thought Alliance. Throughout his subsequent

career, Atkinson wrote and published under his own name and many pseudonyms. It is not known whether he ever acknowledged authorship of these pseudonymous works, but all of the supposedly independent authors whose writings are now credited to Atkinson were linked to one another by virtue of the fact that their works were released by a series of publishing houses with shared addresses and they also wrote for a series of magazines with a shared roster of authors.
