The Inner Experience HMH
Thomas Merton was the most popular proponent of the Christian contemplative

tradition in the twentieth century. Now, for the first time, some of his most lyrical and prayerful writings have been arranged into A Book of Hours, a rich resource for daily prayer and contemplation that imitates the increasingly popular ancient monastic practice of "praying the hours." Editor

Kathleen Deignan mined Merton's voluminous writings, arranging prayers for Dawn, Day, Dusk, and Dark for each of the days of the week. A Book of Hours allows for a slice of monastic contemplation in the midst of hectic modern life, with psalms, prayers, readings, and reflections. [Good News for Anxious Christians](#), expanded ed. Thoughts In Solitude Daniel Horan, O.F.M., popular author of Dating God and other books on Franciscan themes—and expert on the spirituality of Thomas Merton—masterfully presents the untold story of how the most

popular saint in Christian history inspired the most popular spiritual writer of the twentieth century, and how together they can inspire a new generation of Christians. Millions of Christians and non-Christians look to Thomas Merton for spiritual wisdom and guidance, but to whom did Merton look? In The Franciscan Heart of Thomas Merton, Franciscan friar and author Daniel Horan shows how, both before and after he became a Trappist monk, Merton's life was shaped by his love for St. Francis and for the Franciscan spiritual and intellectual tradition. Given recent renewed interest in St. Francis, this timely resource is both informative and

practical, revealing a previously hidden side of Merton that will inspire a new generation of Christians to live richer, deeper, and more justice-minded lives of faith.

How did Thomas Merton become Thomas Merton? Starting out from any one of his earlier major life moments--wealthy orphan boy, big man on campus, fervent Roman Catholic convert, new and obedient monk--we find ourselves asking how by his life's end he had grown from who he was then into a

This book takes
another such
starting point: his
attempt in the
mid-1950s to
move from his
abbey of
Gethsemani, in
Kentucky--a place
that had become,
in his view, noisy

an Italian
monastery,
Camaldoli, which
he idealized as a

ultimate irony:
Camaldoli at that
time, bucolic and

outwardly, was
inwardly riven by

a pre-Vatican II

whereas
Gethsemani, which
he tried so hard to
leave, became,
when he was given

in 1965, his place

walking with
Merton on this
journey, and
reading the letters
he wrote and

as he did, with so

honesty, the deep
questions that we
may well need to

When Thomas Merton entered a Trappist monastery in December 1941, he turned his back on secular life--including a very promising literary career. He sent his journals, a novel-in-progress, and

copies of all his poems to his mentor, Columbia professor Mark Van Doren, for safe keeping, fully expecting to write little, if anything, ever again. It was a relatively short-lived resolution, for Merton almost immediately found himself being assigned writing tasks by his Abbot--one of which was the autobiographical essay that

blossomed into his international best-seller The Seven Storey Mountain. That book made him famous overnight, and for a time he struggled with the notion that the vocation of the monk and the vocation of the writer were incompatible. Monasticism called for complete surrender to the absolute, whereas writing

demanding a tactical withdrawal from experience in order to record it. He eventually came to accept his dual vocation as two sides of the same spiritual coin and used it as a source of creative tension the rest of his life. Merton's thoughts on writing have never been compiled into a single volume until now. Robert Inchausti has

mined the vast Merton literature to discover what he had to say on a whole spectrum of literary topics, including writing as a spiritual calling, the role of the Christian writer in a secular society, the joys and mysteries of poetry, and evaluations of his own literary work. to explore the hot topic of contemplation/meditation in depth and to show how we can practice true contemplation in everyday life. Never before published except as a series of articles (one per chapter) in an academic journal, this book on contemplation was revised by Merton shortly

before his untimely death. The material bridges Merton's early work on Catholic monasticism, mysticism, and contemplation with his later writing on Eastern, especially Buddhist, traditions of meditation and spirituality. This book thus provides a comprehensive

understanding of contemplation that draws on the best of Western and Eastern traditions. Merton was still tinkering with this book when he died; it was the book he struggled with most during his career as a writer. But now the Merton Legacy Trust and experts have determined that the book makes

such a valuable contribution as his major comprehensive presentation of contemplation that they have allowed its publication. Thomas Merton: An Introduction to His Life, Teachings, and Practices Harper Collins An introduction to the spiritual legacy of Thomas

Thoughts In

Solitude
Farrar, Straus and Giroux
The New Man shows Thomas Merton at the height of his powers and has as its theme the question of spiritual identity. What must we do to recover possession of our true selves? By way of an answer, Merton discusses how we have become strangers to

ourselves by our dependence on outward identity and success, while our real need is for a concern with the image of God in ourselves. At a time of retrieval of our religious traditions, Merton's voice is both intelligent and spiritually compelling. Thomas Merton, a Trappist monk, is

perhaps the foremost spiritual thinker of the twentieth century. His diaries, social commentary, and spiritual writings continue to be widely read after his untimely death in 1968. *Conjectures of a Guilty Bystander* New Directions This diary of a monastic life is "a continuation of The Seven Storey Mountain . . . Astonishing" (Commonweal) . . . Chronicling six years of Thomas Merton's life in a Trappist monastery, *The Sign of Jonas* takes us through his day-to-day experiences at the Abbey of Our Lady of Gethsemani, where he lived in silence and prayer for much of his life. Concluding with the account of Merton's ordination as a priest, this diary documents his growing acceptance of his vocation—and the greater meaning he found within his private world of contemplation. "This book is made unmistakably real and almost, at times, unbearably poignant by

the fact that the exuberance of youth so often wells up through it with rapture, impatience, and even bluster."

—The New York Times "A stirring book—the most readable and on the whole, most illuminating of the author's writings."

—Catholic World Houghton Mifflin Harcourt

Yet all of these words are not enough to take us into the real presence of God. This book is an invitation to meet God deeply and

fully through solitude and silence. This expanded edition includes a guide for groups to use for both discussion and practice.

The introduction brings together extracts from Merton's "Asian Journal" (Hinduism and varieties of Buddhism), and other short works on Eastern religions written in the last few years of his life. They all combine to demonstrate

the breadth of vision that is such an integral part of Merton's lasting appeal, his quest for a deeper unity underlying apparent fragmentation . They might be regarded as steps toward the great book on monasticism that Merton might have written but never did. As they stand, they provide Merton's essential definitions of the religions that so

interested him in the last years of his life, and of which he became a skilful Western interpreter.
