The best placement for the speaker bar is your bar right below your TV. We don ’ t recommend placing the speaker bar above your TV or somewhere else in the room. For the optimal sound experience, it should be right below your TV set, should not be tilted, and it should align and face vertically with your TV screen.
Speaker Setup Guide - Dolby
The center channel should be as close to ear height as your setup allows and can be placed either above or below the screen. If you cannot place the speaker as close to the bottom or top of the screen as you would like, you can angle the speaker up or down slightly to direct the sound more towards the listener ’ s head.

Once you ’ ve set them to stand apart from each other at least 150 cm, set them to stand 30 cm away from the rear wall. Move the speakers away from the rear wall towards the listener (left and right image below) until you find the ideal position. Also, move the speakers toward the sidewalls and listen to the difference.

A step-by-step guide to the basics of speaker placement
Follow our guide to speaker placement if you want to get the very best from every beat of music you listen to. Tom Davenport. Nov. 16, 2011 1:12 a.m. PT.
