Historical Year Book of the California Retired Teachers Association Oxford University Press

A great deal of contemporary law has a direct connection to the Holocaust. That connection, however, is seldom acknowledged in legal texts and has never been the subject of a full-length scholarly work. This book examines the background of the Holocaust and genocide through the prism of the law; the criminal and civil prosecution of the Nazis and their collaborators for Holocaust-era crimes; and contemporary attempts to criminally prosecute perpetrators for the crime of genocide. It provides the history of the Holocaust as a legal event, and sets out how genocide has become known as the "crime of crimes" under both international law and in popular discourse. It goes on to discuss specific post-Holocaust legal topics, and examines the Holocaust as a catalyst for post-Holocaust international justice. Together, this collection of subjects establishes a new legal discipline, which the author Michael Bazylar labels "Post-Holocaust Law."

Gordon Heath's A War with a Silver Lining is a ground-breaking analysis of why the Canadian

Protestant churches enthusiastically supported the war effort. Extensive archival research allows Heath to show how the churches' concern for international justice, the development of the nascent nation Canada, the unifying and strengthening of the empire, and the spreading of missions led to passionate and widespread support for the war effort.

The complete text of one of the most important speeches in American history, delivered by President Abraham Lincoln during the Civil War. On November 19, 1863, Abraham Lincoln arrived at the battlefield near Gettysburg, Pennsylvania, to remember not only the grim bloodshed that had just occurred there, but also to remember the American ideals that were being put to the ultimate test by the Civil War. A rousing appeal to the nation's better angels, The Gettysburg Address remains an inspiring vision of the United States as a country "conceived in Liberty, and dedicated to the proposition that all men are created equal."

Think back to a time in your life that you made a decision that you now regret. Oh, don't be so coy - everybody has one. Okay, maybe not Mother Teresa. Or, Bruce Springsteen. But, unless you're Mother Teresa or Bruce Springsteen - and we're pretty sure you're not - you have been in that position. What if you could go back in time and change that decision? What if you could make the other choice? Or, even better, choose a third option that you didn't even see at the time? Wouldn't you like to know how things would have turned out if only you had done something different at that critical juncture in your life? DON'T BOTHER. Have you never read any science fiction time travel stories? Don't you know that they always end with either dinosaurs becoming the dominant species on the planet or your grandfather killing Hitler, causing you to be born with a speech impediment and an irrational fear of listening to Born in the USA? Time branches are not something you can borrow books from - they are paths to realities that you couldn't anticipate and don't want to live in, and just try to get a decent corned beef on rye in any of them! In *Random Dingo*, the third Transdimensional Authority novel by Ira Nayman, investigators Noomi Rapier and Crash Chumley look into reports of a drug that allows people to travel between universes without technological assistance. They methodically work their way up the drug ring's chain of command and are just about to arrest its leader when - time travel happens. With the assistance of Time Agency agent Radames Trafshanian, Noomi and Crash must navigate realities they hadn't anticipated and which they wouldn't want to live in. But, can they find a decent corned beef on rye? You'll have to read *Random Dingo* to find out!

Turning the Tide of War Oxford University Press

The power struggle begins . . . The people of Weyland always believed the slavers raids, which destroyed families and homes like a natural disaster, were a misfortune that couldn't be averted or stopped. But it's not true. King Marcus struck a deal: his people in exchange for technology and a powerful alliance with the Vandian civilisation. And now everyone knows. Jacob and Carter Carnehan escaped the slavers - along with the true king of Weyland - and have returned home with both the truth, and a Vandian princess as their hostage. Their purpose was to avoid war . . . instead, the truth prompts a civil war at home - while an invasion force focused on reclaiming the captive princess starts to gather on their borders. Jacob and Carter will be separated once again - and this time they're fighting for something bigger than their lives.

Amir Sjarifoeddin explores the experiences of a central figure in the Indonesian revolution, whose life mirrored the idealism and contradictions of the anti-colonial and post-war world of twentieth century Indonesia. Amir was born at the edge of an empire in a time of change. Imprisoned by the Dutch for anti-colonialism, he was sentenced to death by the Japanese for anti-fascism. He survived to become the prime minister of the new Indonesian republic. Disappointed by the direction the Indonesian elites were taking, Amir turned increasingly to the left. In 1948 he joined the armed uprising against both the Indonesian government and the corruption of the national revolution, and was captured and executed as a traitor. In Amir Sjarifoeddin, Rudolf Mrázek unveils the human dimensions of a figure who is widely mythologized but often poorly understood. Through Sjarifoeddin's life, it is possible to study the moral ambiguity and complexities of the political revolutions of the twentieth century.

AP European History Premium, 2024: 5 Practice Tests + Comprehensive Review + Online Practice New York : Humanities Press

This examination of the history of the 20th century and the place of war in its unfolding presents a radical, unorthodox interpretation of both. With provision for seeing 1945 as the proper starting point for the 20th century and 1968 as the year that marked the end of the Age of Reason, this provocative study portrays the First World War as the first war of the 20th century and the Second World War as the last war of the 19th. It also provides a counterview of the Second World War as merely one part of a series of conflicts that lasted between 1931 and 1975 and the Cold War as the time when real hatreds were suspended. Moving through various insurgency campaigns, Willmott subjects the Gulf campaign of 1991 to skeptical analysis that is certain to be contentious. Challenging the view that the 20th century will be viewed by future historians as ranging from approximately 1914 to 1992, Willmott offers this volume as a counter to modern historiography which, he contends, is obsessed with micro-analysis and has lost vital context and perspective. Arguing that war is not the preserve of the intellect, and that it is neither intrinsically rational nor scientific, Willmott depicts war as a manmade phenomenon, complete with all the elements of human failure, misjudgment, and incompetence. He concludes with a consideration of modern doctrine and predictions for the future of war.

Thirty-seven chapters, written by leading literary critics from across the world, describe the latest thinking about twentieth-century war poetry. The book maps both the uniqueness of each war and the continuities between poets of different wars, while the interconnections between the literatures of war and peacetime, and between combatant and civilian poets, are fully considered. The focus is on Britain and Ireland, but links are drawn with the poetry of the United States and continental Europe. The Oxford Handbook feeds a growing interest in war poetry and offers, in toto, a definitive survey of the terrain. It is intended for a broad audience, made up of specialists and also graduates and undergraduates, and is an essential resource for both scholars of particular poets and for those

interested in wider debates about modern poetry. This scholarly and readable assessment of the field will provide an important point of reference for decades to come.
