The Republic Lexington Books

This highly regarded volume features a modern translation of all ten books of *The Republic* along with a synoptic table of contents, a prefatory essay, and an appendix on *The Spindle of Necessity* by the translator and editor, Raymond Larson. Also included are an introduction by Eva T. H. Brann, a list of principal dates in the life of Plato, and a bibliography.

Carlisle, Pennsylvania: the Tide of the Civil War Turned Here University of Chicago Press

An expert account of Southern National's operations and vehicles richly illustrated with many colour photographs.

The Fatal Flag McGill-Queen's Press - MQUP

The United States experienced its most harrowing military disaster of World War II not in 1941 at Pearl Harbor but in the period from 1942 to 1943, in Atlantic coastal waters from Newfoundland to the Caribbean. Sinking merchant ships with impunity, German U-boats threatened the lifeline between the United States and Britain, very nearly denying the Allies their springboard onto the European Continent--a loss that would have effectively cost the Allies the war. In *Turning the Tide*, author Ed Offley tells the gripping story of how, during a twelve-week period in the spring of 1943, a handful of battle-hardened American, British, and Canadian sailors turned the tide in the Atlantic. Using extensive archival research and interviews with key survivors, Offley places the reader at the heart of the most decisive maritime battle of World War II.

**Selective Service as the Tide of War Turns** Bounty Books

A much-needed account of the hierarchy of justice that defines China's unique political-legal culture. To many outsiders, China has an image as a realm of Oriental despotism where law is at best window dressing and at worst an instrument of coercion and tyranny. In this highly original contribution to the interdisciplinary field of law and humanities, Haiyan Lee contends that this

image arises from a skewed understanding of China's political-legal culture, particularly the failure to distinguish what she calls high justice and low justice. In the Chinese legal imagination, Lee shows, justice is a vertical concept, with low justice between individuals firmly subordinated to the high justice of the state. China's political-legal culture is marked by a mistrust of law's powers, and as a result, it privileges substantive over procedural justice. Calling on a wide array of narratives—stories of crime and punishment, subterfuge and exposé, guilt and redemption—*A Certain Justice* helps us recognize the fight for justice outside the familiar arenas of liberal democracy and the rule of law.

Littell's Living Age Gollancz

Adolf Hitler is the most notorious political figure of the twentieth century. The story of his life, how he became a dictator, and how he managed to convince so many to follow his cause is a subject of perennial fascination. Balancing narrative and analysis, this biography employs a chronological approach to describe the main features of Hitler's career. Set against the background of developments in Germany and Europe during his lifetime, the text tells the extraordinary story of how an Austrian layabout rose to become Führer of the Third Reich. The chapters incorporate into their narrative the major debates surrounding Hitler's ideas, behaviour and historical significance. Particular attention is paid to his experience as a soldier in 1914 -18 and to the reasons why his original left-wing sympathies transmuted into Nazism. Arguments over the real character of Hitler's dictatorship are analysed and a measured assessment is offered on the disputed issues of how far Hitler initiated the Third Reich's domestic and foreign policies himself and to what extent he was controlled by events. His destructive leadership of wartime Germany is now a subject of close scrutiny among historians and the book's final chapters deal with this theme and offer a set of reflections on Hitler's relationship with the German people and his legacy to the German nation. Michael Lynch provides a balanced guide to this most difficult of figures that will be enlightening for students and general readers alike

Prophet Muhammad (PBBUH) Bloomsbury Publishing USA

Providing an overview to this eventful period of history, this book analyses the three kings of very different qualities and reputations.

Special Monograph Simon and Schuster

Time and Tide begins with the Navy cruiser, Jefferson City, looming out of the dawn, fleeing a night of terror and death, the bodies of crewmen floating in water-filled compartments below decks. She has deserted her sister ships at the Battle of Savo Island - the worst naval defeat in U.S. history. New York Times bestselling author Thomas Fleming personalizes the war in the Pacific in this compelling novel of intrigue, love, and honor set aboard the fictional USS Jefferson City. From the night battles off Guadalcanal to the kamikaze-ridden skies of Okinawa, Time and Tide contrasts the horrors of war with the passions of love in this epic tale of Americans on the cutting edge of history.

AP European History Premium, 2024: 5 Practice Tests + Comprehensive Review + Online Practice Troubador Publishing Ltd

In Windows on Japan, a New Zealander walks across rural Japan and ponders centuries-old perceptions about the country that is still prisoner to an isolationist past. In a deeply insightful commentary, the author surveys cultural, social and political mores, explores the wellspring of racial perception and the problem of the memory of war. Windows on Japan alternates chapters of physical travel with travel through perception about Japan, and challenges the logic of much Western thought about the country that perplexes as much as it pleases. The author walked a route that connects the ports of Niigata and Yokohama and from these windows on the world considers perceptions of people and place. He also assesses the effect of Japan on writers from Jonathan Swift to Oscar Wilde, Shirley MacLaine and Paul Theroux with surprising results. The trading entity that wraps its tentacles around the globe, converses in most languages and understands most customs, is perceptive and urbane and none appears more capable or cosmopolitan. Yet the individuals who inhabit these islands take refuge in their language as a private habitat, resent intrusions, and are captured by a cultural particularism that distances them from others. The author discusses this paradox, as well as environmental and linguistic issues and topics of history and literature. Along the way, he lifts a veil on the life of a snow country geisha, discusses current events with a priest and a reporter, and takes advice on becoming a Japanese. Though he is understood, it is only on return visits to places he has come to love that he wins acceptance. Notes on music delightfully enrich the narrative.

The Three Edwards Penguin UK

That decision, he argues, marked America's first definitive step toward embroilment in Indochina, the start of a long series of moves that would lead the Johnson administration to commit U.S. combat forces a decade and a half later."--Jacket.

The Living Age The History Press

This book lies at the intersection of Civil War history and the history of American literature. Rogers challenges prevailing assumptions about the nature of Southern identity during the American Civil War and describes an important period in the life of William Gilmore Simms, one of nineteenth-century America's most widely read authors.

England, 1455: a kingdom on the brink of civil war. The Red Rose: King Henry of Lancaster's days are numbered. Deemed unfit for rule, even by his own mother, he surely cannot last on the throne for long. Simon Roseblood - London lord, taverner and alderman - is one of few loyal servants left to fight his cause. The White Rose: Ruthless Richard of York has his eye firmly set on the crown - and plenty of powerful allies who will do anything to help him win it. Henchman Amadeus Seigny makes no bones about enforcing his own authority and asserting law and order at York's command. When Roseblood is summoned by Seigny to stand trial for a crime he knows he didn't commit, their paths cross in ways that alter them both for ever. And as the Wars of the Roses looms, an even greater foe is poised to rock the foundations of England, and wreak horror in a hotbed of political unrest.

A Certain Justice Psychology Press

This is the true story of English Brigadier Claude Richards, P.O.W., and a story which adds a missing dimension to the many accounts of this period in Japanese WWII history. It concentrates on the plight of high-ranking officers whose experiences as a group have largely been ignored. Made possible by his copious yet covertly written notes, Claude's legacy also presented an opportunity to write a partial biography of his interesting family at a time when the misfortunes of war kept it apart. Deprived of any letters from his wife for the majority of his imprisonment, Claude still generated vital psychological support from the connection he maintained by writing notional letters to her. His conversational narrative also contains frequent appraisals of his fellow officers, not always complimentary! From the malarious tropics of Formosa to the freezing gales of Manchuria, ageing men endured physical and mental abuse, the torment of starvation and the attrition of disease, but it was a consolation 'to the wretched to have companions in misery' and most survived. A combination of literature, cards, rumour and humour, or the stimulation of latent wanderlust in some cases, helped relieve the ennui and frustration of those wasted years. A personal and human story, The Fatal Flag will appeal to followers of military history.

Hitler Teacher Created Resources

"Did you ever wonder what the outcome of the Battle of Gettysburg and possibly the civil war would have been if General J.E.B. Stuart had arrived at Gettysburg on July 1st rather than late in the day on July 2? What brought General Stuart to Carlisle on July 1st? He was the "eyes and ears" of General Robert E. Lee's Army. Mr. Zizzi will let you take an intimate look into the reasons for "Jeb" Stuart's presence in Carlisle and the profound implications of his absence from Gettysburg during the critical decision moments of July 1, 1863. Local author and artist Tony Zizzi asked himself the very same question and researched the answer in his debut book "Carlisle, Pennsylvania The Tide of the Civil War Turned Here." Mr. Zizzi's meticulous research will also help clarify the validity of the historical marker at the North Lee Farm- The Farthest Northern Advance of the Confederate Army of General Robert E. Lee. This new book is filled with photographs and maps to back up his solution to his question. It is a definite page turner." Kimberly Laidler, Manager History on HighCumberland County Historical Society Carlisle, Pennsylvania

A Southern Writer and the Civil War Psychology Press

Full biography of Prophet Muhammad (may the peace and blessings of Allah be upon him)

The Lamplighter Illumination John Wiley & Sons

Gordon Heath's *A War with a Silver Lining* is a ground-breaking analysis of why the Canadian Protestant churches enthusiastically supported the war effort. Extensive archival research allows Heath to show how the churches' concern for international justice, the development of the nascent nation Canada, the unifying and strengthening of the empire, and the spreading of missions led to passionate and widespread support for the war effort.

Congressional Record Basic Books

Penicillin revolutionized healthcare and turned the modest, self-effacing Alexander Fleming into a world hero. This book tells the story of the man and his discovery set against a background of the transformation of medical research from 19th-century individualism through to teamwork and modern-day international big business.

Reflections on the Balkan Wars Headline

This examination of the history of the 20th century and the place of war in its unfolding presents a radical, unorthodox interpretation of both. With provision for seeing 1945 as the proper starting point for the 20th century and 1968 as the year that marked the end of the Age of Reason, this provocative study portrays the First World War as the first war of the 20th century and the Second World War as the last war of the 19th. It also provides a counterview of the Second World War as merely one part of a series of conflicts that lasted between 1931 and 1975 and the Cold War as the time when real hatreds were suspended. Moving through various insurgency campaigns, Willmott subjects the Gulf campaign of 1991 to skeptical analysis that is certain to be contentious. Challenging the view that the 20th century will be viewed by future historians as ranging from approximately 1914 to 1992, Willmott offers this volume as a counter to modern historiography which, he contends, is obsessed with micro-analysis and has lost vital context and perspective. Arguing that war is not the preserve of the intellect, and that it is neither intrinsically rational nor scientific,

Willmott depicts war as a manmade phenomenon, complete with all the elements of human failure, misjudgment, and incompetence. He concludes with a consideration of modern doctrine and predictions for the future of war.

War with a Silver Lining Springer

The Second World War was the final global conflict of the twentieth century. It involved more combatants, and a wider range of battlefield terrain than any other conflict in history, from the frozen plains of Russia to the baking Libyan desert, and from the atolls of the Pacific to the skies over Britain. In *Turning the Tide*, Nigel Cawthorne has taken a fresh look at the crucial battles which decided the outcome of the Second World War, beginning with the evacuation of Dunkirk in 1940, a feat that boosted the morale of a nation during its darkest hour, and reaching a climactic end with the final bloody reckoning between the Red Army and the Third Reich amongst the ruins of Berlin.

When Men Lost Faith in Reason Rex Bookstore, Inc.

When you use *Excel Basic Skills: English Workbook Year 4*, you will be practising recognising and writing many of the text type you learn at school. Several of the sample texts have been written by students in Year 4 and are good examples of what a Year 4 student can achieve. The *Excel* series of English Workbooks for Years 3-...6 will help primary school students with the reading and writing they do every day at school -% in English and in other subjects. Each chapter is set out as a separate unit of work covering a different type of writing (text type,,) and contains exercises that relate to that particular text type. In this book you will find: eleven chapters, each set out as a unit of work covering a particular text type (such as narratives, letters, speeches and information reports), including a chapter on writing for school projects exercises and activities in each chapter which are directly linked to the text type covered practice in skills such as spelling, grammar, vocabulary, punctuation and comprehension interesting and relevant sample texts, including many written by Year 4 students, with important features highlighted Answers to all questions at the back of the book
