Hall

Originally published in 1987, this  
book showcases global examples of  
people and communities who are  
learning to use the world's  
resources without despoiling them  
for future generations. It  
includes chapters on nomadic life  
in Kenya, food supply in a  
Peruvian shantytown and a Buddhist  
monk in Sri Lanka who advises  
about tree planting and  
watersheds. Amidst climate change  
and environmental destruction this  
book looks at the world through  
the eyes of the people who tend it  
and finds hope in their growing  
understanding of their environment  
and in their willingness to live  
within the Earth's resources.
