Title: Time for the Stars
First published in 1956,
Heinlein ' s Time for the Stars is one of his Scribner ' s juvenile books, and one of the better ones, somewhat similar to Starman Jones. The Grandmaster tells the

story of the first survey ships going out into deep space to look for suitable planets for humanity to colonize due to overpopulation on Earth.

Time for the Stars -
Wikipedia

Time for the Stars is a juvenile science fiction novel by American writer Robert A. Heinlein, published by Scribner's in 1956 as one of the Heinlein juveniles. The basic plot line is derived from a 1911 thought experiment in special relativity, commonly called the twin paradox, proposed by French physicist Paul Langevin
