Best Books of 2016 BOSTON GLOBE \* THE ATLANTIC From the acclaimed bestselling author of The Information and Chaos comes this enthralling history of time travel—a concept that has preoccupied physicists and storytellers over the course of the last century. James Gleick delivers a mind-bending exploration of time travel—from its origins in literature and science to its influence on our understanding of time itself. Gleick vividly explores physics, technology, philosophy, and art as each relates to time travel and tells the story of the concept's cultural evolutions—from H.G. Wells to Doctor Who, from Proust to Woody Allen. He takes a close look at the porous boundary between science fiction and modern physics, and, finally, delves into what it all means in our own moment in time—the world of the instantaneous, with its all-consuming present and vanishing future.

 Educating for Empathy presents a compelling framework for thinking about the purpose and practice of literacy education in a politically polarized world. Mirra proposes a model of critical civic empathy that encourages secondary ELA teachers to consider how issues of power and inequity play out in the literacy classroom and how to envision literacy practices as a means of civic engagement. The book reviews core elements of ELA instruction—response to literature, classroom discussion, research, and digital literacy—and demonstrates how these activities can be adapted to foster critical thinking and empathetic perspectives among students. Chapters depict teachers and students engaging in this transformative learning, offer concrete strategies for the classroom, and pose questions to guide school communities in collaborative reflection. “If educators were to follow Mirra’s model, we will have come a long way toward educating and

motivating young people to become involved, engaged, and caring citizens.” —Sonia Nieto, professor emerita, University of Massachusetts, Amherst “Grounded in respectful research partnerships with youth and teachers, this is a book that will resonate with and inspire educators in these precarious times.” —Gerald Campano, University of Pennsylvania “If ever there were a time for a book on empathy in education, the moment is now.” —Yolanda Sealey-Ruiz, Teachers College, Columbia University

 The Time Machine is one of the most famous science fiction novels. This eBook edition has been formatted to the highest digital standards and adjusted for readability on all devices. Wells is generally credited with the popularization of the concept of time travel by using a vehicle that allows an operator to travel purposefully and selectively. The term “time machine”, coined by Wells, is now almost universally used to refer to such a vehicle. The story reflects Wells's own socialist political views, his view on life and abundance, and the contemporary angst about industrial relations. The book's protagonist is an English scientist and gentleman inventor living in Richmond, Surrey in Victorian England, and identified by a narrator simply as the Time Traveller. The narrator recounts the Traveller's lecture to his weekly dinner guests that time is simply a fourth dimension, and his demonstration of a tabletop model machine for travelling through it. Herbert George Wells (1866 - 1946), known as H. G. Wells, was a prolific English writer in many genres, including the novel, history, politics, and social commentary, and textbooks and rules for war games.

A special fiftieth anniversary edition of Kurt Vonnegut’s masterpiece, “a desperate, painfully honest attempt to confront the monstrous crimes of the twentieth century” (Time), featuring a new introduction by Kevin Powers, author of the National Book Award finalist *The Yellow Birds* Selected by the Modern Library as one of the 100 best novels of all time *Slaughterhouse-Five*, an American classic, is one of the world’s great antiwar books. Centering on the infamous World War II firebombing of Dresden, the novel is the result of what Kurt Vonnegut described as a twenty-three-year struggle to write a book about what he had witnessed as an American prisoner of war. It combines historical fiction, science fiction, autobiography, and satire in an account of the life of Billy Pilgrim, a barber’s son turned draftee turned optometrist turned alien abductee. As Vonnegut had, Billy experiences the destruction of Dresden as a POW. Unlike Vonnegut, he experiences time travel, or coming “unstuck in time.” An instant bestseller, *Slaughterhouse-Five* made Kurt Vonnegut a cult hero in American literature, a reputation that only strengthened over time, despite his

being banned and censored by some libraries and schools for content and language. But it was precisely those elements of Vonnegut's writing—the political edginess, the genre-bending inventiveness, the frank violence, the transgressive wit—that have inspired generations of readers not just to look differently at the world around them but to find the confidence to say something about it. Authors as wide-ranging as Norman Mailer, John Irving, Michael Crichton, Tim O'Brien, Margaret Atwood, Elizabeth Strout, David Sedaris, Jennifer Egan, and J. K. Rowling have all found inspiration in Vonnegut's words. Jonathan Safran Foer has described Vonnegut as "the kind of writer who made people—young people especially—want to write." George Saunders has declared Vonnegut to be "the great, urgent, passionate American writer of our century, who offers us . . . a model of the kind of compassionate thinking that might yet save us from ourselves." Fifty years after its initial publication at the height of the Vietnam War, Vonnegut's portrayal of political disillusionment, PTSD, and postwar anxiety feels as relevant, darkly humorous, and profoundly affecting as ever, an enduring beacon through our own era's uncertainties. "Poignant and hilarious, threaded with compassion and, behind everything, the cataract of a thundering moral statement."—The Boston Globe

The visionary author's masterpiece pulls us—along with her Black female hero—through time to face the horrors of slavery and explore the impacts of racism, sexism, and white supremacy then and now. Dana, a modern black woman, is celebrating her twenty-sixth birthday with her new husband when she is snatched abruptly from her home in California and transported to the antebellum South. Rufus, the white son of a plantation owner, is drowning, and Dana has been summoned to save him. Dana is drawn back repeatedly through time to the slave quarters, and each time the stay grows longer, more arduous, and more dangerous until it is uncertain whether or not Dana's life will end, long before it has a chance to begin.
