Part of the generation of architects who were trained to draw both by hand and with digital tools, Nalina Moses recently returned to hand drawing. Finding it to be direct, pleasurable, and intuitive, she wondered whether other architects felt the same way. *Single-Handedly* is the result of this inquiry. An inspiring collection of 220 hand drawings by more than forty emerging architects and well-known practitioners from around the world, this book

explores the reasons they draw by hand and gives testimony to the continued vitality of hand drawing in architecture. The powerful yet intimate drawings carry larger propositions about materials, space, and construction, and each one stands on its own as a work of art.

A New York State investigator matches wits with a devious serial killer in the New York Times bestselling author's true crime thriller. Gary C. Evans was master of disguise and career criminal who had once befriended David "Son of Sam" Berkowitz. In 1989, he started weaving a web of deadly lies in Upstate New York, telling a female friend that the father of her child

had deserted her. In fact, Evans had killed the man—just before striking up a ten-year romance with the woman. Evans first met Investigator James Horton in 1985 when Evans snitched on a childhood friend and crime partner—failing to mention that he'd murdered him. Then, two local jewelry dealers were killed. In 1997, another old friend of Evans, went missing. Was Evans responsible? Horton launched a nationwide manhunt to uncover the truth. For more than a decade, Evans and Horton maintained an odd relationship—part friendship, part manipulation—with Evans serving as a snitch while the tenacious investigator searched for the answers that would put him away. After Horton used

Evans to obtain a confession from a local killer, Evans led Horton in a final game of cat-and-mouse that would culminate in the most shocking death of all . . . Sixteen pages of revealing photos!

"Moonwatch Only is certainly one of the best books ever written about a single watch model."

- William Massena - Timezone.com "It is an indescribable reference work and a true must-have for

every Speedmaster collector." - Forbes	automobile racing teams and engineers,	Co.Pretty Much EverythingAbrams
"This book sets a new standard. Not only for books on the Omega Speedmaster, but for watch books in general. I've never seen anything like it, and believe me when I tell you that I could fill an impressive sized wall with books on watches. Authors of other books or publishers should take a look at Moonwatch Only as well to see how it should be done." - Robert Jan Broer - FratelloWatches	"The OMEGA Speedmaster Professional - the Moonwatch - has done things that no other timepiece has done and it's been worn in places that only a few human beings have been." - Captain Eugene Cernan, 'Last man on the moon'	<i>Modern Chess Openings</i> Schiffer Pub Limited
There are very few timepieces in the world that deserve a definitive and comprehensive book such as this one. The OMEGA Speedmaster Professional Moonwatch is one of them. Initially designed for	embarked on a very different trajectory when NASA chose it to accompany astronauts heading for the Moon in 1965. Its involvement in the space adventure has propelled the Moonwatch to the top of the list of celebrated timepieces. After years of research and observation, the authors present a complete panorama of the Moonwatch in a systematic work that is both technical and attractive, making it the inescapable reference book for this legendary watch. This third edition marking the 60th anniversary of the Speedmaster has been enriched with numerous new features including a 16-page gallery of astronauts and their Speedmaster, QR codes to extend your exploration and a detailed story of a vintage Speedmaster. <u>Waltham Trench Watches of the Great War</u> DIANE Publishing Draplin Design	Here is a unique book. It describes the theories and processes of repairing and adjusting the modern watch in precise and meticulous detail: a thing which has never been done so completely before in the many books on the same subject. As a text book it is a revelation. Taking nothing for granted, except the ability to read and comprehend a simple description of mechanical processes, de Carle takes his reader through every stage and every operation of watch repairing ...and to deal with them thoroughly is quite a programme - it takes 300 pages containing 24 chapters, two appendices and 553 illustrations. The fine draughtsmanship and accurate technical detail of the illustrations set a new standard. Practical Watch Repairing can justifiably claim to be the best

illustrated book on practical horology yet issued, and one of the best of its kind on any subject. The publication of the book marks the beginning of a new epoch in the study of the mechanics of horology.

refracted through the good and bad, right big genres that have and wrong. Throughout, race is a powerful touchstone: just as there have always been Black audiences and white audiences, with more or less overlap depending on the moment, there has been Black music and white music, constantly mixing and separating. Sanneh debunks cherished myths, reappraises beloved heroes, and upends familiar ideas of musical greatness, arguing that sometimes, the best popular music isn't transcendent. Songs express our grudges as well as our hopes, and they are motivated by greed as well as idealism; music is a powerful tool for human connection, but also for human antagonism. This is a book about the music everyone loves, the music everyone hates, and the decades-long argument over which is which. The opposite of a modest proposal, *Major Labels* pays in full. *A Company and Its Community*,
