Returned to the Earth of 2037 by the mysterious and powerful Firstborn, Bisesa Dutt is haunted by memories of her five years spent on the strange alternate Earth called Mir, a jigsaw-puzzle world made up of lands and people cut out of different eras of Earth's history. Why did the Firstborn create Mir? Why was Bisesa taken there and then brought back just a day after her disappearance? Bisesa's questions are answered when scientists discover an unnatural anomaly in the sun's core—evidence of alien intervention more than two thousand years ago. Now plans set in motion by inscrutable observers light-years away are coming to fruition in a sunstorm designed to eradicate all life on Earth in a bombardment of radiation. As the apocalypse looms, religious and political differences on Earth threaten to undermine every countereffort. And all the while, the Firstborn are watching. . . . Praise for Sunstorm

From the creator of Product Launch Formula: A new edition of the #1 New York Times best-selling guide that's redefined online marketing and helped countless entrepreneurs make millions. The revised and updated edition of the #1 New York Times bestseller Launch will build your business - fast. Whether you've already got an online business or you're itching to start one, this is a recipe for getting more traction and a fast start. Think about it: What if you could launch like Apple or the big Hollywood studios? What if your prospects eagerly counted down the days until they could buy your product? And you could do it no matter how humble your business or

budget? Since 1996, Jeff Walker has been creating hugely successful online launches. After bootstrapping his first Internet business from his basement, he quickly developed a process for launching new products and businesses with unprecedented success. And once he started teaching his formula to other entrepreneurs, the results were simply breathtaking. Tiny, home-based businesses started doing launches that brought in tens of thousands, hundreds of thousands, and even millions of dollars. Whether you have an existing business or you're starting from scratch, this is how you start fast. This formula is how you engineer massive success. Now the question is this: Do you want to start slow, and fade away from there? Or are you ready for a launch that will change the future of your business and your life?

THE INSTANT #1 NEW YORK TIMES BESTSELLER "Sparkling with mystery, humor and the uncanny, this is a fun read. But beneath its effervescent tone, more complex themes are at play." —San Francisco Chronicle In his wildly entertaining debut novel, Hank Green—cocreator of Crash Course, Vlogbrothers, and SciShow—spins a sweeping, cinematic tale about a young woman who becomes an overnight celebrity before realizing she's part of something bigger, and stranger, than anyone could have possibly imagined. The Carls just appeared. Roaming through New York City at three a.m., twenty-three-year-old April May stumbles across a giant sculpture. Delighted by its appearance and craftsmanship—like a ten-foot-tall Transformer wearing a suit of samurai armor—April and her best friend, Andy, make a video with it, which Andy uploads to YouTube. The next day, April wakes up to a viral video and a new life. News quickly spreads that there are Carls in dozens of cities around the world—from Beijing to Buenos Aires—and April, as their first documentarian, finds herself at the center of an intense international media spotlight. Seizing the opportunity to make her mark on the world, April now has to deal with the consequences her new particular brand of fame has on her relationships, her safety, and her own identity. And all eyes are on April to figure out not just what the Carls are, but what they want from us. Compulsively entertaining and powerfully relevant, *An Absolutely Remarkable Thing* grapples with big themes, including how the social internet is changing fame, rhetoric, and radicalization; how our culture deals with fear and uncertainty; and how vilification and adoration spring for the same dehumanization that follows a life in the public eye. The beginning of an exciting fiction career, *An Absolutely Remarkable Thing* is a bold and insightful novel of now.

WINNER OF THE PEN/JACQUELINE BOGRAD WELD AWARD FOR BIOGRAPHY A NEW YORK TIMES BEST SELLER "This book is a must for everyone interested in illuminating the idea of unexplainable genius." —QUESTLOVE Equal parts biography, musicology, and cultural history, *Dilla Time* chronicles the life and legacy of J Dilla, a musical genius who transformed the sound of popular music for the twenty-first century. He wasn't known to mainstream audiences, even though he worked with renowned acts like D'Angelo and Erykah Badu and influenced the music of superstars like Michael Jackson and Janet Jackson. He died at the age of thirty-two, and in his lifetime he never had a pop hit. Yet since his death, J Dilla has become a demigod: revered by jazz musicians and rap icons from Robert Glasper to Kendrick Lamar; memorialized in symphonies and taught at universities. And at the core of this adulation is innovation: a new kind of musical time-feel that he created on a drum machine, but one that changed the way "traditional" musicians play. In *Dilla Time*, Dan Charnas chronicles the life of James DeWitt Yancey, from his gifted childhood in Detroit, to his rise as a Grammy-nominated hip-hop producer, to the rare blood disease that caused his premature death; and follows the people who kept him and his ideas alive. He also rewinds the histories of American rhythms: from the birth of soul in Dilla's own "Motown," to funk, techno, and disco. Here, music is a story of Black culture in America and of what happens when human and machine times are synthesized into something new. *Dilla Time* is a different kind of book about music, a visual experience with graphics that build those concepts step by step for fans and novices alike, teaching us to "see" and feel rhythm in a unique and enjoyable way. Dilla's beats, startling some people with their seeming "sloppiness," were actually the work of a perfectionist almost spiritually devoted to his music. This is the story of the man and his machines, his family, friends, partners, and celebrity collaborators. Culled from more than 150 interviews about one of the most important and influential musical figures of the past hundred years, *Dilla Time* is a book as delightfully detail-oriented and unique as J Dilla's music itself.

A brave teen recounts her debilitating struggle with obsessive-compulsive disorder—and brings readers through every painful step as she finds her way to the other side—in this powerful and inspiring memoir. Until sophomore year of high school, fifteen-year-old Allison Britz lived a comfortable life in an idyllic town. She was a dedicated student with tons of extracurricular activities, friends, and loving parents at home. But after awakening from a vivid nightmare in which she was diagnosed with brain cancer, she was convinced the dream had been a warning. Allison believed that she must do something to stop the cancer in her dream from becoming a reality. It started with

avoiding sidewalk cracks and quickly grew to counting steps as loudly as possible. Over the following weeks, her brain listed more dangers and fixes. She had to avoid hair dryers, calculators, cell phones, computers, anything green, bananas, oatmeal, and most of her own clothing. Unable to act "normal," the once-popular Allison became an outcast. Her parents questioned her behavior, leading to explosive fights. When notebook paper, pencils, and most schoolbooks were declared dangerous to her health, her GPA imploded, along with her plans for the future. Finally, she allowed herself to ask for help and was diagnosed with obsessive-compulsive disorder. This brave memoir tracks Allison's descent and ultimately hopeful climb out of the depths.

EBOOK: Crafting and Executing Strategy: The Quest for Competitive Advantage: Concepts

#### and Cases Macmillan

Every business faces the existential threat of competitors producing cheaper copies. Even patent filings, market dominance and financial resources can't shield them from copycats. So what can we do--and, what can we learn from companies that have endured and even prospered for centuries despite copycat competition? In a book of narrative history and practical strategy, IMD professor of management and innovation Howard Yu shows that succeeding in today's marketplace is no longer just a matter of mastering copycat tactics, companies also need to leap across knowledge disciplines, and to reimagine how a product is made or a service is delivered. This proven tactic can protect a company from being overtaken by new (and often foreign) copycat competitors. Using riveting case studies of successful leaps and tragic falls, Yu illustrates five principles to success that span a wide range of industries, countries, and eras. Learn about how P&G in the 19th century made the leap from handcrafted soaps and candles to mass production of its signature brand Ivory, leaped into the new fields of consumer psychology and advertising, then leaped again, at the risk of cannibalizing its core product, into synthetic detergents and won with Tide in 1946. Learn about how Novartis and other pharma pioneers stayed ahead by making leaps from chemistry to microbiology to genomics in drug discovery; and how forward-thinking companies, including China's largest social media app--WeChat, Tokyo-based Internet service provider Recruit Holdings, and Illinois-headquartered John Deere are leaping ahead by leveraging the emergence of ubiquitous connectivity, the inexorable rise of intelligent machines, and the rising importance of managerial creativity. Outlasting competition is difficult; doing so over decades or a century is nearly impossible--unless one leaps. Ultimately, Leap is a manifesto for how pioneering companies can endure and prosper in a world of constant change and inevitable copycats.

***The Twelve Monotasks*** Random House

A leading social researcher explains why humans so consistently misunderstand the outside world. How often are women harassed? What percentage of the population are immigrants? How bad is unemployment? These questions are important, but most of us get the answers wrong. Research shows that people often wildly misunderstand the state of the world, regardless of age, sex, or education. And though the internet brings us unprecedented access to information, there's little evidence we're any better informed because of it. We may blame cognitive bias or fake news, but neither tells the complete story. In *Why We're Wrong About Nearly Everything*, Bobby Duffy draws on his research into public perception across more than forty countries, offering a sweeping account of the stubborn problem of human delusion: how society breeds it, why it will never go away, and what our misperceptions say about what we really believe. We won't always know the facts, but they still matter. *Why We're Wrong About Nearly Everything* is mandatory reading for anyone interested making humankind a little bit smarter.

***Go with the Flow*** Kim Olver

High school students embark on a crash course of friendship, female empowerment, and women's health issues in Lily Williams and Karen Schneemann's graphic novel *Go With the Flow*. Good friends help you go with the flow. Best friends help you start a revolution. Sophomores Abby, Brit, Christine, and Sasha are fed up. Hazelton High never has enough tampons. Or pads. Or adults who will listen. Sick of an administration that puts football before female health, the girls confront a world that shrugs—or worse, squirms—at the thought of a menstruation revolution. They band together to make a change. It's no easy task, especially while grappling with everything from crushes to trig to JV track but they have each other's backs. That is, until one of the girls goes rogue, testing the limits of their friendship and pushing the friends to question the power of their own voices. Now they must learn to work together to raise each other up. But how to you stand your ground while raising bloody hell?

***Timing Is Everything*** Truman Talley Books

Reclaim your attention, productivity, and happiness with this “captivating, informative and beautifully written” book by learning how to keep your focus on one familiar task at a time (Nate Berkus). Modern life is full of to-do lists, all-consuming technology and the constant pressure to be doing and striving for more. What if you could train your brain to focus on one thing at a time? What if the secret to better productivity involved doing less, not more? Drawing on research in psychology, neuroscience, and mindfulness, *The Twelve Monotasks* provides a clear and accessible plan for life in the twenty-first century. Practice resisting distractions and building focus by doing the things you already do—like reading, sleeping, eating, and listening—with renewed attention. For example, the next time you go for a walk, don't try to run an errand or squeeze in a phone call, but instead, notice the cool breeze on your face and the plants and birds that may cross your path. Immerse yourself in the activity and let time melt away, even if you're only actually out for 20 minutes. Notice how much clearer your head feels when you return home. This is the magic of monotasking. With monotasking you will: Become more productive Produce higher quality work Reduce stress And increase happiness. Thatcher Wine's *The Twelve Monotasks* will help you do one thing at a time, and do it well, so you can enjoy all of your life!

#1 NEW YORK TIMES BESTSELLER • A memoir of leadership and success: The executive chairman of Disney, Time's 2019 businessperson of the year, shares the ideas and values he embraced during his fifteen years as CEO while reinventing one of the world's most beloved companies and inspiring

the people who bring the magic to life. NAMED ONE OF THE BEST BOOKS OF THE YEAR BY NPR Robert Iger became CEO of The Walt Disney Company in 2005, during a difficult time. Competition was more intense than ever and technology was changing faster than at any time in the company's history. His vision came down to three clear ideas: Recommit to the concept that quality matters, embrace technology instead of fighting it, and think bigger—think global—and turn Disney into a stronger brand in international markets. Today, Disney is the largest, most admired media company in the world, counting Pixar, Marvel, Lucasfilm, and 21st Century Fox among its properties. Its value is nearly five times what it was when Iger took over, and he is recognized as one of the most innovative and successful CEOs of our era. In *The Ride of a Lifetime*, Robert Iger shares the lessons he learned while running Disney and leading its 220,000-plus employees, and he explores the principles that are necessary for true leadership, including: • Optimism. Even in the face of difficulty, an optimistic leader will find the path toward the best possible outcome and focus on that, rather than give in to pessimism and blaming. • Courage. Leaders have to be willing to take risks and place big bets. Fear of failure destroys creativity. • Decisiveness. All decisions, no matter how difficult, can be made on a timely basis. Indecisiveness is both wasteful and destructive to morale. • Fairness. Treat people decently, with empathy, and be accessible to them. This book is about the relentless curiosity that has driven Iger for forty-five years, since the day he started as the lowliest studio grunt at ABC. It's also about thoughtfulness and respect, and a decency-over-dollars approach that has become the bedrock of every project and partnership Iger pursues, from a deep friendship with Steve Jobs in his final years to an abiding love of the Star Wars mythology. “The ideas in this book strike me as universal” Iger writes. “Not just to the aspiring CEOs of the world, but to anyone wanting to feel less fearful, more confidently themselves, as they navigate their professional and even personal lives.”
