ok quick question that i
have not been able to find
a topic on. i have a I16 in
my 510, and a matchbox
dizzy. should the timing

be set differently than the stock dizzy with points. and if so what is the recommended timing for an electronic dizzy on the I16. thanks

Timing marks for a 1972 Ford Pinto 2.0 - Fixya

If you are replacing the timing belt or removed the dizzy, position the cam wheel pointers to their marks, crank position to its mark, aux wheel to 1 o'clock and the dizzy rotor to cylinder #4. The timing light can be used either on 1 or 4, but the rotor must be aligned to cylinder #4 when all the timing marks are aligned.

Classic VW Beetle Bug Ghia Bus How to Time Set Volkswagen Engine Timing

How to set the timing on a VW Beetle motor. This feature is not available right now. Please try again later.

How to Time a Chevy Inline 6 | It Still Runs

The sparkplug wires are put in the order 1-3-7-2-6-5-4-8. I've never really done timing before, so should I remove the vacuum advance hose before setting the timing? Once timing is set, Do I need to shift in to Drive and

check the timing again? Is before top dead center mark onto the left side of the Harmonic balance?
