Desperate for justice, Nikki throws herself into the case. But she is shaken by what she finds at Annmarie's home: a dead-bolt on her front door and a map in the spare

room, with the locations of murdered women circled in thick, red marker. Did Annmarie know she was next? Then Nikki finds out that the killer has left a clue in Annmarie's bedroom: a photo of Nikki's mother that no one has ever seen. Has the murderer at large been in Nikki's life since she was a child? With House of Sand and Fog, his National Book Award-nominated novel, Andre Dubus III demonstrated his mastery of the complexities of

character and desire. In this earlier novel he captures a roiling time in American history and the coming-of-age of a boy who must decide between desire, ambition, and duty. In the summer of 1967, Leo Suther has one more year of high school to finish and a lot more to learn. He's in love with the beautiful Allie Donovan who introduces him to her father, Chick — a construction foreman and avowed Communist. Soon Leo finds himself in the midst of a consuming love affair and an intense testing of his political values. Chick's passionate views challenge Leo's perspective on the escalating Vietnam conflict and on just where he stands in relation to the new people in his life. Throughout his — and

the nation's — unforgettable "summer of love," Leo is learning the language of the blues, which seem to speak to the mourning he feels for his dead mother, his occasionally distant father, and the youth which is fast giving way to manhood.

She didn't see the patch of black ice until it was too late. The car started to spin, and as it veered off into the deep ditch and the mounds of snow beside the road, she saw him. The little boy frozen in the ice. When the remains of two bodies are found in an open grave along a desolate highway in Stillwater, Minnesota, Special Agent Nikki Hunt knows exactly who they are. The bright blue jacket

lying on the frozen earth belongs to Kellan Rhodes, the missing boy she's desperately been trying to find for the last two days. The other body is his mother Dana, who had been Nikki's lead suspect. Dana was desperately trying to regain custody of Kellan, and Nikki finds boot prints at the scene that belong to someone else. When another child is reported missing, local journalist Caitlin Newport claims the cases are linked: Zach Reeves was taken away from his own mother in a custody battle, just like Kellan was. Caitlin once helped Nikki find out

<p>the truth about her own parents' murders, but her desire for a story nearly cost Nikki her life. In *Reading Darwin in Arabic*, Marwa Elshakry questions current ideas about Islam, science, and

secularism by exploring the ways in which Darwin was read in Arabic from the late 1860s to the mid-twentieth century. Borrowing from translation and reading studies and weaving together the history of science with intellectual history, she explores Darwin's global appeal from the perspective of several generations of Arabic readers and shows how Darwin's writings helped alter the social and epistemological landscape of the Arab learned classes. Providing a close textual, political, and institutional analysis of the tremendous interest in Darwin's ideas and other works on evolution, Elshakry shows how, in an age of massive regional and international political upheaval, these readings were suffused with the anxieties of empire and civilizational decline. The politics of evolution infiltrated Arabic discussions of pedagogy, progress, and the very sense of history. They also led to a literary

and conceptual transformation of notions of science and religion themselves. Darwin thus became a vehicle for discussing scriptural exegesis, the conditions of belief, and cosmological views more broadly. The book also acquaints readers with Muslim and Christian intellectuals, bureaucrats, and theologians, and concludes by exploring Darwin's waning influence on public and intellectual life in the Arab world after World War I. Reading Darwin in Arabic is an engaging and powerfully argued reconceptualization of the intellectual and political history of the Middle East.

Face of the Gods AuthorHouse

A landmark work from the author of Orientalism that explores the long-overlooked connections between the Western imperial endeavor and the culture that both reflected and reinforced it. In the nineteenth and early twentieth centuries, as the Western powers built empires that stretched from Australia to the West Indies, Western artists created masterpieces ranging from Mansfield Park to Heart of Darkness and Aida. Yet most cultural critics continue to see these phenomena as separate. Edward Said looks at these works alongside those of such writers as

W. B. Yeats, Chinua Achebe, and Salman Rushdie to show how subject peoples produced their own vigorous cultures of opposition and resistance. Vast in scope and stunning in its erudition, *Culture and Imperialism* reopens the dialogue between literature and the life of its time.

Jonathan Franzen 's gift for wedding depth and vividness of character with breadth of social vision has never been more dazzlingly evident than in *Crossroads*. It's December 23,

1971, and the Hildebrandt family is at a crossroads. The patriarch, Russ, the associate pastor of a suburban Chicago church, is poised to break free of a marriage he finds joyless—unless his brilliant and unstable wife, Marion, breaks free of it first. Their eldest child, Clem, is coming home from college afire with moral absolutism, having taken an action that will shatter his father. Clem's sister, Becky, long the social queen of her high school class, has veered into the era's counterculture, while their younger brother Perry, fed up with selling pot to support his drug habit, has firmly resolved to be a better person. Each of the Hildebrandts seeks a freedom that each of the others threaten to complicate. By turns comic and harrowing, a tour-de-force of interwoven perspectives and

sustained suspense, Crossroads is the first volume of a trilogy, A Key to All Mythologies, that will span three generations and trace the inner life of our culture through the present day. Set in a historical moment of moral crisis and reaching back to the early twentieth century, Crossroads is a sweeping investigation of human mythologies as the Hildebrandt family navigates the political, intellectual, and social crosscurrents of the past fifty years.

This study of ancient Roman shipping and trade across continents reveals the Roman Empire ' s far-reaching impact in the ancient world. In ancient times, large fleets of Roman merchant ships set sail from Egypt on voyages across the Indian Ocean. They sailed from Roman ports on the Red Sea to distant kingdoms on the east coast of Africa and southern Arabia. Many continued their voyages across the ocean to trade with the rich kingdoms of ancient India. Along these routes, the Roman Empire traded bullion for valuable goods, including exotic African

products, Arabian incense, and eastern spices. This book examines Roman commerce with Indian kingdoms from the Indus region to the Tamil lands. It investigates contacts between the Roman Empire and powerful African kingdoms, including the Nilotic regime that ruled Meroe and the rising Axumite Realm. Further chapters explore Roman dealings with the Arab kingdoms of southern Arabia, including the Saba-Himyarites and the Hadramaut Regime, which sent caravans along the incense trail to the ancient rock-carved city of Petra. The first book to bring these subjects together in a single comprehensive study, *The Roman Empire and the Indian Ocean* reveals Rome's impact on the ancient world and explains how international trade funded the legions that maintained imperial rule. *The Martian Chronicles* Little, Brown
