Chapter 4-Tissues-The Living Fabric For this assignment, please read the chapter and answer the questions below. Please type your answers in red or blue color. Please note that points may be deducted if answers are not submitted in these colors. There is a tutorial on the four types of tissue in Blackboard.

Chapter 4 Tissue The Living Fabric Packet Answers

Areolar, Adipose, Reticular. Name the two Dense Connective Tissue types. regular and irregular. Name the three cartilage of the connective tissue. Hyaline, Elastic, and Fibrocartilage. Most consist of cell body and two types of processes called dendrites and axons is called. Neurons.

Chapter 4-Tissues-The Living Fabric Assignment-Answers ...

Four primary tissue types interweave to form the “fabric” of the body. These basic tissues are epithelial (ep i-the le-ul), connec-tive, muscle, and nervous tissue, and each has numerous sub-classes or varieties. If we had to describe the general role of each primary tissue type in a single word, the words would most likely

Tissue The Living Fabric Answer

Chapter 4: Tissue: The Living Fabric Objectives: 1. List the steps involved in preparing animal tissue for microscopic viewing. 2. List several structural and functional characteristics of epithelial tissue. 3. Name, classify, and describe the various types of epithelia; also indicate their chief function(s) and location(s). 4. Define gland.
