Vladimir Solovyov, one of nineteenth-century Russia's greatest Christian philosophers, was renowned as the leading defender of Jewish civil rights in tsarist Russia in the 1880s. *The Burning Bush: Writings on Jews and Judaism* presents an annotated translation of Solovyov's complete oeuvre on the Jewish question, elucidating his terminology and identifying his references to

persons, places, and texts, especially from biblical and rabbinic writings. Many texts are provided in English translation by Gregory Yuri Glazov for the first time, including Solovyov's obituary for Joseph Rabinovitch, a pioneer of modern Messianic Judaism, and his letter in the London Times of 1890 advocating for greater Jewish civil rights in Russia, printed alongside a similar petition by Cardinal Manning. Glazov's introduction presents a summary of Solovyov's life, explains how the texts in this collection were chosen, and provides a survey of Russian Jewish history to help the reader understand the context and evaluate the significance of Solovyov's work. In his extensive commentary in Part II, which draws on key memoirs from family and friends, Glazov paints a rich portrait of Solovyov's encounters with Jews and Judaism and of the religious-philosophical ideas that he both brought to and derived from those encounters. The Burning Bush explains why Jews posthumously accorded Solovyov the accolade of a "righteous gentile," and why his ecumenical hopes and struggles to reconcile Judaism and Christianity and persuade secular authorities to respect conscience and religious freedom still bear prophetic vitality.

In a profound work that pivots from the biggest questions about American history and ideals to the most intimate concerns of a father for his son, Ta-Nehisi Coates offers a powerful new framework for understanding our nation ' s history and current crisis. Americans have built an empire on the idea of " race, " a falsehood that damages us all but falls most heavily on the bodies of black women and men—bodies exploited through slavery and segregation, and, today, threatened, locked up, and murdered out of all proportion. What is it like to inhabit a black body and find a way to live within

it? And how can we all honestly reckon with this fraught history and free ourselves from its burden? *Between the World and Me* is Ta-Nehisi Coates ' s attempt to answer these questions in a letter to his adolescent son. Coates shares with his son—and readers—the story of his awakening to the truth about his place in the world through a series of revelatory experiences, from Howard University to Civil War battlefields, from the South Side of Chicago to Paris, from his childhood home to the living rooms of mothers whose children ' s lives were taken as American plunder. Beautifully woven from personal narrative, reimagined history, and fresh, emotionally charged reportage, *Between the World and Me* clearly illuminates the past, bracingly confronts our present, and offers a transcendent vision for a way forward.

This book documents the results of a multi-year project that investigated the goals for writing improvement among 45 students and their instructors in intensive courses of English as a Second Language (ESL) then, a year later, in academic programs at two Canadian universities. The researchers present a detailed framework to describe these goals from the perspectives of the students as well as their instructors. The goals are analyzed for groups of students from particular backgrounds internationally, for changes over time, and in relation to the ESL and academic courses. The authors use activity theory, goal theory, various sociolinguistic concepts, and multiple data sources (interviews, observations, stimulated recalls, questionnaires, and text analyses) to provide a contextually-grounded perspective on learning, teaching, writing, second-language development, and curriculum policy. The book will interest researchers, educators, and administrators of ESL, university, college, and literacy programs around the world.

Secondary Testing Strategies One Cengage Learning

In recent years, the field of cognitive psychology has begun to explore the rootedness of rational thinking in subrational inspiration, insight, or instinct—a kind of prediscursive hunch that leaps ahead and guides rational thought before the reasoning human being is even aware of it. In *The Music of Reason*, Michael Davis shows that this "musical" quality of thinking is something that leading philosophers have long been aware of and explored with great depth and subtlety. Focusing on the work of three thinkers traditionally viewed as among the most poetic of philosophers—Rousseau, Nietzsche, and Plato—Davis reveals the complex and profound ways in which they each plumbed the depths of reason's "prerational" foundations. Davis first examines Rousseau's *Essay on the Origins of Languages: Where Something Is Said About Melody and Musical Imitation* and Nietzsche's *The Birth of Tragedy Out of the Spirit of Music* to demonstrate that revealing the truth, or achieving individual enlightenment, requires poetic techniques such as irony, indirection, and ambiguity. How philosophers say things is as

worthy of our attention as what they say. Turning to Plato's Lesser Hippias, Davis then reconsiders the relation between truth-telling and lying, finding the Platonic dialogue to be an artful synthesis of music and reason. The "ancient quarrel between philosophy and poetry" that Plato placed near the core of this thinking suggests a tension between the rational (scientific) and the nonrational (poetic), or between the true and the beautiful—the one clear and definite, the other allusive and musical. Contemplating language in Rousseau, the Dionysian in Nietzsche, and playfulness in Plato, *The Music of Reason* explores how what we might initially perceive as irrational and so antithetical to reason is, in fact, constitutive of it.
