The creator of YouTube 's ColdFusion explores the development of technology from

Industrial Revolution to Artificial Intelligence to figure out what 's next. As each new stage of technology builds on the last, advancements start to progress at an exponential rate. In order to know where we 're headed, it 's essential to know how we got here. What hidden stories lie behind the

technology we use today? What drove the men and women who invented it? What were those special moments that changed the world forever? Dagogo Altraide explores these questions in a history of human innovation that reveals how new technologies influence each other, how our modern world came to be, and what future innovations might look like. From the electric world of Tesla and the steam engine revolution to the first computers, the invention of the internet, and the rise of artificial intelligence, *New Thinking* tells the stories of the men

and women who changed our world with the power of new thought.

Docker My eBook

Ludwig van Beethoven wrote numerous piano pieces to teach to his pupils.

Still, today, his works are an integral part of piano lessons.

My first Beethoven is perfect for pianists of every age to become acquainted with these works.

This volume contains Beethoven's most popular and easiest piano pieces –

from the frequently played Sonatinas in G and F major to Für Elise and the famous Moonlight Sonata. Ideal for music lessons and music-making at home! Great works for little masters!
