Ebony Simon and Schuster

Black & white print. Principles of Management is designed to meet the scope and sequence requirements of the introductory course on management. This is a traditional approach to management using the leading, planning, organizing, and controlling approach. Management is a broad business discipline, and the Principles of Management course covers many management areas such as human resource management and strategic management, as well as behavioral areas such as motivation. No one individual can be an expert in all areas of management, so an additional benefit of this text is that specialists in a variety of areas have authored individual chapters.

Popular Science gives our readers the information and tools to improve their technology and their world. The core belief that Popular Science and our readers share: The future is going to be better, and science and technology are the driving forces that will help make it better.

Birdman John Wiley & Sons

Nothing makes Portland detective Archie Sheridan happier than knowing that Gretchen Lowell—the serial killer whose stunning beauty is belied by the gruesome murders she's committed—is locked away in a psych ward. Archie can finally heal from the near-fatal physical and emotional wounds she's inflicted on him and start moving on with his life. To this end, Archie throws himself into the latest case to come across his desk: A cyclist has discovered a corpse in Mount Tabor Park on the eastern side of Portland. The man was gagged, skinned, and found hanging by his wrists from a tree. It's the work of a killer bold and clever enough to torture his victim for hours on a sunny summer morning in a big public park and yet leave no trace. And then Archie gets a message he can't ignore—Gretchen claims to have inside knowledge about this grisly murder. Archie finally agrees to visit Gretchen, because he can't risk losing his only lead in the case. At least, that's what he tells himself . . . but the ties between Archie and Gretchen have always been stronger, deeper, and more complex than he's willing to admit, even to himself. What game is she playing this time? And even more frightening, what long-hidden secrets from Gretchen's past have been dredged up that someone would kill to protect? At once terrifying and magnetic, "Beauty Killer" Gretchen Lowell returns with a vengeance in Kill You Twice, Chelsea Cain's latest razor-sharp psychological thriller.

**PC Mag** Simon and Schuster

The New York Times bestselling author of The Unhoneymooners returns with a witty and effervescent novel about what happens when two people with everything on the line are thrown together by science—or is it fate? Perfect for fans of The Rosie Project and One Plus One. Single mom Jess Davis is a data and statistics wizard, but no amount of number crunching can convince her to step back into the dating world. Raised by her grandparents—who now help raise her seven-year-old daughter, Juno—Jess has been left behind too often to feel comfortable letting anyone in. After all, her father's never been around, her hard-partying mother disappeared when she was six, and her ex decided he wasn't "father material" before Juno was even born. Jess holds her loved ones close, but working constantly to stay afloat is hard...and lonely. But then Jess hears about GeneticAlly, a buzzy new DNA-based matchmaking company that's predicted to change dating forever. Finding a soulmate through DNA? The reliability of numbers: This Jess understands. At least she thought she did, until her test shows an unheard-of 98% compatibility with another subject in the database: GeneticAlly's founder, Dr. River Pena. This is one number she can't wrap her head around, because she already knows Dr. Pena. The stuck-up, stubborn man is without a doubt not her soulmate. But GeneticAlly has a proposition: Get to know him and we'll

pay you. Jess—who is barely making ends meet—is in no position to turn it down, despite her skepticism about the project and her dislike for River. As the pair are dragged from one event to the next as the "Diamond" pairing that could make GeneticAlly a mint in stock prices, Jess begins to realize that there might be more to the scientist—and the science behind a soulmate—than she thought. Funny, warm, and full of heart, The Soulmate Equation proves that the delicate balance between fate and choice can never be calculated.

Girls and Their Cats showcases 50 strong, independent, and artistic women who take the world in stride with their beloved felines. This stunning book redefines what it means to be a "cat lady" through striking portraits and engaging profiles of each woman and her cat—or cats. Interspersed throughout are amusing lists any cat lady will find relatable, from "How to Catproof Your Home" to "The Chorus of Cat Sounds," as well as an adoption resource guide and a list of rescue organizations in the United States and Canada. • Includes heartwarming stories about each woman and her furry friend, as well as fun facts • Celebrates the powerful bond between a girl and her cat, proving that we need them just as much as they need us • Based on the popular Instagram @girlsandtheircats, which has been featured on BuzzFeed, Refinery29, The Daily Mail, and more For the authors—BriAnne Wills, New York City fashion and beauty photographer, and Elyse Moody, senior editor at Martha Stewart Living—the "crazy cat lady" stereotype is a myth. Girls and Their Cats includes inspirational ladies like Hannah Shaw, founder of the neonatal kitten rescue project Kitten Lady, Christene Barberich, cofounder of Refinery29, and Alyssa Mastromonaco, Crooked Media podcast host and reproductive rights activist. • Great for cat lovers, feminists, fashion enthusiasts, photography buffs, interior designers, and anyone who loves a good animal-human friendship • Features a vibrant cover and a gorgeous faux-suede spine, making it a beautiful coffee table book or deluxe gift • Add it to the shelf with books like Shop Cats of New, The French Cat, Tiny But Mighty, The Lion in Your Living Room, and In the Company of Women: Inspiration and Advice from over 100 Makers, Artists, and Entrepreneurs by Grace Bonney

MacUser Melville House

The full origin story of Gin Blanco's transformation into the fearsome assassin known as the Spider—from the bestselling author of Heart of Venom. How did I end up in a career where I always have blood on my hands? Well, let me tell you a story about an assassin who thought she could do no wrong . . . Ten years ago. A blistering hot August night. I remember like it was yesterday. The night I, Gin Blanco, truly became the Spider. Killing people is what I do best, especially now that I've honed my Ice and Stone magic. But back then, I had yet to learn one very important rule: arrogance will get you, every single time. This particular job seemed simple: murder a crooked building contractor with ties to ruthless Fire elemental Mab Monroe. My mentor, Fletcher Lane, had some misgivings, but I was certain that I had the situation under control . . . right up until I exposed my weaknesses to a merciless opponent who exploited every single one of them. There's a reason assassins aren't supposed to feel anything. Luckily, a knife to the heart can fix that problem, especially when I'm the one wielding it . . . "An amazing ride . . . The Spider made me fall in love with Gin all over again." —All Things Urban Fantasy "Estep did a great job of having a younger, more naive, and a less patient Gin come across the page." —Vampire Book Club "I was tremendously satisfied and as anxious as ever for more from Ashland's greatest (semi-retired) assassin." —Smexy Books

**Unreal Estate** Ten Speed Press

Surveys the online social habits of American teens and analyzes the role technology and social media plays in their lives, examining common misconceptions about such topics as identity, privacy, danger, and bullying.

**Billboard** Chronicle Books

New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country. With award-winning writing and photography covering everything from politics and food to theater and fashion, the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself, while celebrating New York as both a place and an idea.

Dying in the Wool Simon and Schuster

Understanding Media Time Out

The National Bestseller "Focused and persuasive... Bray's book is many things: the first English-language transnational history of antifa, a how-to for would-be activists, and a record of advice from anti-Fascist organizers past and present." —THE NEW YORKER "Insurgent activist movements need spokesmen, intellectuals and apologists, and for the moment Mark Bray is filling in as all three... The book's most enlightening contribution is on the history of anti-fascist efforts over the past century, but its most relevant for today is its justification for stifling speech and clobbering white supremacists."—Carlos Lozada, THE WASHINGTON POST " [Bray's] analysis is methodical, and clearly informed by both his historical training and 15 years of organizing, which included Occupy Wall Street... Antifa: The Anti-Fascist Handbook couldn't have emerged at a more opportune time. Bray's arguments are incisive and cohesive, and his consistent refusal to back down from principle makes the book a crucial intervention in our political moment." —SAN FRANCISCO CHRONICLE In the wake of tragic events in Charlottesville, VA, and Donald Trump's initial refusal to denounce the white nationalists behind it all, the "antifa" opposition movement is suddenly appearing everywhere. But what is it, precisely? And where did it come from? As long as there has been fascism, there has been anti-fascism — also known as "antifa." Born out of resistance to Mussolini and Hitler in Europe during the 1920s and '30s, the antifa movement has suddenly burst into the headlines amidst opposition to the Trump administration and the alt-right. They could be seen in news reports, often clad all in black with balaclavas covering their faces, demonstrating at the presidential inauguration, and on California college campuses protesting far-right speakers,

---

and most recently, on the streets of Charlottesville, VA, protecting, among others, a group of ministers including Cornel West from neo-Nazi violence. (West would later tell reporters, "The anti-fascists saved our lives.") Simply, antifa aims to deny fascists the opportunity to promote their oppressive politics, and to protect tolerant communities from acts of violence promulgated by fascists. Critics say shutting down political adversaries is anti-democratic; antifa adherents argue that the horrors of fascism must never be allowed the slightest chance to triumph again. In a smart and gripping investigation, historian and former Occupy Wall Street organizer Mark Bray provides a detailed survey of the full history of anti-fascism from its origins to the present day — the first transnational history of postwar anti-fascism in English. Based on interviews with anti-fascists from around the world, Antifa details the tactics of the movement and the philosophy behind it, offering insight into the growing but little-understood resistance fighting back against fascism in all its guises.

The Cuckoo's Egg Simon and Schuster

In this white-knuckled true story that is "as exciting as any action novel" (The New York Times Book Review), an astronomer-turned-cyber-detective begins a personal quest to expose a hidden network of spies that threatens national security and leads all the way to the KGB. When Cliff Stoll followed the trail of a 75-cent accounting error at his workplace, the Lawrence Berkeley National Laboratory, it led him to the presence of an unauthorized user on the system. Suddenly, Stoll found himself crossing paths with a hacker named "Hunter" who had managed to break into sensitive United States networks and steal vital information. Stoll made the dangerous decision to begin a one-man hunt of his own: spying on the spy. It was a high-stakes game of deception, broken codes, satellites, and missile bases, one that eventually gained the attention of the CIA. What started as simply observing soon became a game of cat and mouse that ultimately reached all the way to the KGB.

Popular Science Yale University Press

An intimate profile of the legendary Washington Post editor whose life and career encompassed Watergate, the Pentagon Papers, and the Kennedys—as portrayed by Tom Hanks in the Steven Spielberg film *The Post* "A fairly complete and rare portrait of this last of the lion-king newspaper editors." —The New York Times Book Review Ben Bradlee was a fixture on the American scene for nearly half a century—a close friend to John F. Kennedy; the center of D.C. social life; and a crusty, charismatic editor whose decisions at the helm of the Post during Watergate changed the course of history. Granted unprecedented access to Bradlee and his colleagues, friends, and private files, Jeff Himmelman draws on never-before-seen internal Post memos, correspondence, personal photographs, and private interviews to trace the full arc of Bradlee's forty-five-year career—from his early days as a press attaché in postwar Paris through the Pentagon Papers, Richard Nixon's resignation, the Janet Cooke fabrication scandal, and beyond. Along the way, Himmelman also unearths a series of surprises—about Watergate, and about Bradlee's private relationships with Post owner Katharine Graham, reporters Bob Woodward and Carl Bernstein, and President Kennedy and his wife, Jackie. "Don't feel that you have to protect me," Bradlee told Himmelman whenever the reporting started to strike close to home. "Follow your nose." Those instructions, familiar to any Post reporter, have resulted in this thoughtfully constructed and beautifully written account of a magnetic man whose career has come to define the golden age of newspapers in America, when the press battled for its freedom—and won. Praise for *Yours in Truth* "The absolute best nonfiction book of the year . . . a work of journalistic art . . . history straight and true . . . should be required reading at the Columbia School of Journalism." —Chicago Tribune "Surprising and compulsively readable . . . Himmelman's chapters on Watergate are especially masterful, untangling that web in a fresh and comprehensible way." —Minneapolis Star Tribune "A sparkling, revealing, definitely controversial, and very readable book . . . highly amusing, particularly for any connoisseur of juicy modern American politics." —Pittsburgh Post-Gazette "Embedded in *Yours in Truth* there are fundamental insights about journalism and the role of a dynamic press." —The Atlantic

Building Your Own Home For Dummies Minotaur Books
