A one-of-a-kind analysis of ocean cruising! In *Ocean Travel and Cruising: A Cultural Analysis*, noted author Arthur Asa Berger turns his critical eye to the phenomenon of ocean cruising. This academically solid yet reader-friendly book brings a multidisciplinary cultural studies approach to the subject, examining ocean cruising from economic, semiotic, sociological, psychoanalytic, and marketing perspectives, and offering insights not provided by the more traditional sociological approaches to the subject. You'll explore cruise demographics, the relationship between cruising and gender, the sociology of dining on cruise ships, hedonism and pleasure

seeking, the “compulsion to cruise,” consolidation in the industry, the exploitation of workers on cruise ships, and a great deal more. Here's a section-by-section rundown of what's in store for you and your students in this one-of-a-kind new text: “The Economics of Cruising” examines cruise categories, industry consolidation, worker exploitation, and ways that cruise lines make money aside from ticket sales. This section also compares the costs of cruises vs. land-based vacations and fills you in on the typical weekly food and beverage consumption of the Carnival line's complement of ships, which sheds light on how a cruise line can, for a mere \$10, provide a food array that would cost a restaurant or hotel \$33 to \$40. “Signs at Sea—The Semiotics of Cruising” provides you with a quick primer on semiotics and then discusses the cruise ship as a sign system and then breaks the system down to its component parts, discussing dining rooms, cabins/staterooms, dress codes, spatiality, luxury signifiers, the perceived elitism of the cruise experience, the role of photography, and more. “A Sociological Analysis of Cruising” explores cruise demographics and their meaning, time budgeting on cruises, the sociology of dining, new trends in cruising, and the meaning of gender in relation to ocean cruising. A particularly intriguing chapter is “A Psychoanalytic Interpretation of Cruising.” Beginning with a look at the compulsion to cruise, this section explores cruising's relationship with the unconscious, the paradise myth, hedonism and pleasure seeking, the desire for unconditional love, psychological regression, and more. In “Selling Smooth Sailing: Advertising and Marketing Cruises,” you'll examine print advertisements from eight major cruise lines, look at what they have in common and what the differences are between the messages each cruise line hopes to convey via the style and content of their ads and brochures. “Cruising (on) the Internet” looks at the intersection of the information superhighway with the world of cruising. You'll learn about the cruise lines' own Web sites, travel agency sites, Internet sites designed to rate and review cruises and cruise ships, and more. “Notes from a Cruise Journal” shares the author's on-site reflections and impressions of a weeklong cruise from Los Angeles to Puerto Vallarta, Mexico, and back. Written in accessible, jargon-free language that will appeal to students at all levels, *Ocean Travel and Cruising: A Cultural Analysis* is the most recent of a very small selection of scholarly studies of ocean cruising available in English. Make it a part of your cultural studies, leisure studies, sociology, travel/tourism/hospitality, popular culture, or American studies course this semester!

British filmmaker Peter Greenaway says life offers only two subjects: "One is sex and the other is death." Greenaway uses both and romanticizes neither; indeed, his goal is the antithesis of the sanitary and sentimental portrayal of humanity. Although his films have met with outrage from some viewers, cult audiences praise them for insightful messages: that people are detached from violence because they fail to see others' bodies as identical to their own; that predatory capitalism has caused humans to lose sight of our shared physicality and mortality; and that taboos are simply a system allowing people to exercise power over others. This book examines nine of Greenaway's feature films, dedicating a chapter to each: *The Draughtsman's Contract*; *A Zed and Two Noughts*; *The Belly of an Architect*; *Drowning by Numbers*; *The Cook, the Thief, His Wife and Her Lover*; *Prospero's Books*; *The Baby of Macon*; *The Pillow Book*; and *8 ½ Women*. The author examines the characters and plot, studies the structure and elements of the story, explores Greenaway's motives and reactions, and reveals audience reactions, including comments from viewers. A filmography lists films written and directed by Peter Greenaway from 1962 to 2004.

During the past thirty years cruising has become a popular form of holiday for an increasing number of Australians. The first cruise from Australia was operated by the P&O liner *Strathaird*, which departed Sydney on 23 December 1932 for five nights to Brisbane and Norfolk Island. Up to 1939 P & O and Orient Line vessels operated occasional cruises between line voyages from Britain, but these ceased in 1939. It was not until the mid-1950s that cruises began operating again, but these were still on a very occasional basis, again on P & O and Orient Line vessels engaged in the regular trade between Britain and Australia. During the 1960s other shipping companies also began operating occasional cruises, but there were no ships assigned to the cruise trade on a regular basis. Things began to change in the early 1970s, when the advent of the Boeing 747 transformed international travel. Instead of spending four weeks or more at sea, Australians could now fly to Britain and Europe in one day, and this spelled doom for the long-haul passenger liner. Many of these vessel ended up in the scrap yard, but some were refitted to full time cruise ships, and thus began the cruise boom. The first liners to be engaged in full time cruising from Australia were all converted, having been built for other trades. For many

thousands of Australians, these ships introduced them to the delights of cruising, and the number of Australians making a cruise has steadily increased over the past three decades. This book provides details of many of the ships that cruised out of Australian ports from the early 1970s up to 2000, and all the cruise liners to have been seen in local waters since 2001, as well as a look ahead to the liners scheduled to come here later in 2007 and into 2008. It is my hope that turning the pages of this book will bring back many happy memories to cruise travellers, and hopefully inspire those who have not yet ventured out to sea to make the plunge and discover the joy of cruising. The ships are listed in the order in which they entered the local cruise market. As the pages proceed it will be noted that over the years the size of the liners seen in Australia has steadily increased. In the early days cruise liners were usually no more than 25,000 gross tons, but in the summer of 2002 we welcomed the first liner to exceed 100,000 gross tons. In February 2007 the second largest passenger liner ever built, *Queen Mary 2*, will make a visit to our shores. For the summer of 2007-08, the Australian cruise trade will be serviced by three liners exceeding 70,000 gross tons, something that would have been thought impossible even five years ago. This book includes 110 liners that have operated cruises in Australia waters over the past 35 years. The text gives full details, including important dates, types of accommodation, interesting facts and general information, on every ship. There is also a colour picture on every page, none of which have been published previously as they are all taken by the author or his friends in the shipping fraternity.

Peter C. Smith presents us here with the second release in his visually splendid Cruise Ships series. Whilst his first book concerned itself with the large-scale ships currently cruising through our seas (those weighing 40,000 GT and more) this volume focusses on the other end of the market; the ships that weigh in at less than 40,000 GT, but which are often much more stylish and aesthetically pleasing than their larger-scale counterparts. The

elegant interiors and luxurious features on display in today's vast fleet of cruise liners remain unrecorded in all but holiday brochures. This book carries on in the tradition of Peter's last release, giving a complete overview of the best of these ships, the cream of the crop, so to speak.??Each colour profile includes external and interior views of the featured ship. Details of the design, building and service history of each vessel are provided with vital statistics of the ship and its facilities.??This is a book of reference for maritime enthusiasts, would-be holiday cruisers and those who have been passengers. It serves as an impressive visual tribute to the best of the smaller scale fleet currently cruising globally.??As seen in the Bedford Times & Citizen.

A Cultural Analysis Ocean Cruise Guides

In 1835 the map of the Arctic coast of North America was still far from complete, with unmapped gaps of 280km from Return Reef to Point Barrow in Alaska and 550km from Point Turnagain to Boothia Peninsula in the Central Canadian Arctic. The Hudson's Bay Company developed a plan to fill the gaps and two of the Company's officers were chosen to carry it out: the veteran Chief Factor Peter Dease - efficient, competent, steady, and with an excellent rapport with Indians and the "servants," mostly Métis - and Thomas Simpson, young, energetic, ambitious, arrogant, and cousin and secretary to George Simpson, the Company's governor in North America. Over a three-year period from 1837 to 1839, operating from a base-camp at Fort Confidence on Great Bear Lake, the expedition achieved its goal. Despite serious problems with sea ice, Dease and Simpson, in some of the longest small-boat voyages in the history of the Arctic, mapped the remaining gaps in a model operation of efficient, economical, and safe exploration. Thomas Simpson's narrative, the standard source on the expedition, claimed the expedition's success for himself, stating "Dease is a worthy, indolent, illiterate soul, and moves just as I give the impulse." In *From Barrow to Boothia* William Barr shows that Dease's contribution was absolutely crucial to the expedition's success and makes Dease's sober, sensible, and modest account of the expedition available. Dease's journal, reproduced in full, is supplemented by a brief introduction to each section and detailed annotations that clarify and elaborate the text. By including relevant correspondence to and from expedition members, Barr captures the original words of the participants, offering insights into the character of both Dease and Simpson and making clear what really happened on this successful expedition.

Stern's Guide to the Cruise Vacation: 20/21 Edition Anchor

Find order and beauty in the kitchen with this delightfully elegant primer on washing the dishes that elevates and illuminates a seemingly routine chore. Washing the dishes is an ordinary, everyday task--but with examination and care, it can become much more. In this reverent guide to the household chore, Peter Miller shows us how washing dishes can become a joy, a delight, a meditative exercise, and an act of grace and rhythm. We pay so much attention to recipes but little attention to maintenance and cleanup. Washing the dishes is as much a part of making a meal as prepping the vegetables, making the sauces, or seasoning the meats. At times it is quite routine, sometimes raucous, other times complex. It is never convenient. Despite its din and clatter, and despite its reputation, washing the dishes is the coda to the meal. It is a bustling musical of water and soap, of flow and surface, and done well, the fragile shall sit as proudly as the cast-iron. There are some who do the dishes for the clarity and privacy of it, and there are some who relish the quiet isolation of putting things in order where they belong. There are some who feel the time and movement is a kind of digestive. In the evening in particular, there is a silence when it is all done. *How to Wash the Dishes* brings elegance, art, and a bit of mindfulness to the sink. It is the perfect gift for those who love to clean and equally as apt for those we wish would clean a bit more.
