India has a long-standing tradition of dispute resolution through arbitration, with arbitral-type regulations going back to the eighteenth century. Today, amendments to the 1996 Indian Arbitration Act, a steady evolution of case law and new arbitral institutions position India ' s vibrant system once more at the forefront of international commercial dispute resolution. In this handbook, over forty members of the international

arbitration community in India and beyond offer authoritative perspectives and insights into topics on arbitration that matter in India. International arbitration practitioners, Indian practitioners, and scholars have combined efforts to produce a practical and informative guide on the subject. Among numerous notable features, the contributors provide detailed analysis and description of such aspects of arbitration as the following, with a focus on the Indian context: Indian application of the 1958 New York Convention; law governing the merits of the dispute and awards; investor-state dispute settlement; drafting arbitration clauses for India-centric agreements; managing costs and time; rise of virtual arbitration and technology; effect of public policy in light of extensive Indian jurisprudence; and arbitration of claims relating to environmental damage. Practical features include checklists for drafting arbitration clauses and a comparative chart of major commercial arbitration rules applicable to India. Also included is a comparative analysis of arbitral regimes in India, Singapore and England; chapters on the India Model Bilateral Investment Treaty and ISDS reforms; a special section on the enforcement of foreign awards; a section on the drafting of the award guided by leading arbitrators and stakeholders and a review of the new 2021 ICC Rules. For foreign counsel and arbitrators with arbitrations in India, this complete and up-to-date analysis provides guidelines for practitioners, corporate counsel, and judges on considerations to be borne in mind with respect to arbitration with an Indian nexus and whilst seeking enforcement and execution of an arbitral award in India. It will prove an effective tool for students and others in understanding and navigating the particularities and peculiarities of India ' s system of

domestic and international commercial arbitration.

As China experiences tremendous economic and social transformation in the reform years, language use in China has also undergone remarkable changes in the past couple decades: the national obsession with learning the global English, which becomes both a resource for modernization and a source of contention; the expanding use of local languages and dialects in mass media, where standard Mandarin is promoted and legally prescribed as the principal language; the emergence of the Internet language that has become a creative source for constructing a distinct youth identity; the Cantonese writing movement that challenges the hegemony of the Chinese writing system, which is traditionally based on northern Mandarin, to name a few. Central Javanese temples were not built anywhere and anyhow. On the contrary: their positions within the landscape and their architectural designs were determined by socio-cultural, religious and economic factors. This book explores the correlations between temple distribution, natural surroundings and architectural design to understand how Central Javanese people structured the space around them, and how the religious landscape thus created, developed. Besides questions related to territory and landscape, Degroot's book analyzes the structure of the built space and its possible relations with conceptualized space, showing the influence of imported Indian concepts, as well as their limits. Going off the beaten track, this book explores the hundreds of small sites that scatter the landscape of Central Java. It is also one of very few studies to apply the methods of spatial archaeology to Central Javanese temples and the first in almost a century to present a descriptive inventory of the remains of this region.

Dread Talk examines the effects of Rastafarian language on Creole in other parts of the Caribbean, its influence in Jamaican poetry, and its effects on standard Jamaican English. This revised edition includes a new introduction that outlines the changes that have occurred since the book first appeared and a new chapter, "Dread Talk in the Diaspora," that discusses Rastafarian as used in the urban centers of North America and Europe. Pollard provides a wealth of examples of Rastafarian language-use and definitions, explaining how the evolution of these forms derives from the philosophical position of the Rasta speakers: "The socio-political image which the Rastaman has had of himself in a society where lightness of skin, economic status, and social privileges have traditionally gone together must be included in any consideration of Rastafarian words" for the man making the words is a man looking up from under, a man pressed down economically and socially by the establishment."

THE MAD AD YEARS, India ' s first advertising fiction, with top advertising agencies in India as the backdrop, brings into light and uncovers scandals and exploitations in the real world of advertising through the eyes of the protagonist Prashant Gupta, who has worked in some of the largest agencies in the country for nearly forty-five years. The story encircles his journey from being a 22-year-old simple graduate from a traditional joint family in Calcutta who in 1976 accidentally gets a job of a Management Trainee in India ' s most glamorous and second largest agency, to rubbing shoulders with business tycoons and famous industrialists, to witnessing dramatic and salacious incidents and being directly and indirectly involved in many instances that changed Indian advertising forever, and to becoming the owner of a hundred-crore agency, later in his life. Tangy, wild and bittersweet — THE MAD AD YEARS is not just a book but an irresistible concoction of ink on paper that makes you visualise the characters and incidents as if they are moving and happening right in front of you — it is a lot like the bizarrely beautiful coffee-cherry tea Cascara — it ceaselessly makes you crave for more — as your flip through the book, you will keep letting your soul feed on the

intoxicating urge to explore how the story unfolds.

Both books in one collection Black Tiger While Raja Asoka (Ash) Bhosle fights tiger poachers, Dr. Sally Carter struggles against cultural prejudice. Can the Legend of the Black Tiger be the bond that brings them closer together, or will it be an impossible belief that rips them apart. The closer Sally comes to understanding what the legend means, the more frequent the nightmares become. Is she losing her sanity, or is there more to Sally than she herself knows? The answers lie buried in her past. South Asia is home to a large number of languages and dialects.

Although linguists working on this region have made significant contributions to our understanding of language, society, and language in society on a global scale, there is as yet no recognized international forum for the exchange of ideas amongst linguists working on South Asia. The Annual Review of South Asian Languages and Linguistics is designed to be just that forum. It brings together empirical and theoretical research and serves as a testing ground for the articulation of new ideas and approaches which may be grounded in a study of South Asian languages but which have universal applicability.
