"Jeff Pearlman has captured the swagger of the '86 Mets. You don't have to be a Mets fan to enjoy this book—it's a great read for all baseball enthusiasts." —Philadelphia Daily News
Award-winning Sports Illustrated baseball writer Jeff Pearlman returns to an innocent time when a city worshipped a man named Mookie and the Yankees were the second-best team in New York. It was 1986, and the New York Mets won 108 regular-season games and the World Series, capturing the hearts (and other assorted body parts) of fans everywhere. But their greatness on the field was nearly eclipsed by how bad they were off it. Led by the indomitable Keith Hernandez and the young dynamic duo of Dwight Gooden and Darryl Strawberry, along with the gallant Scum Bunch, the Amazin ' s left a wide trail of wreckage in their wake—hotel rooms, charter planes, a bar in Houston, and most famously Bill Buckner and the hated Boston Red Sox. With an unforgettable cast of characters—including Doc, Straw, the Kid, Nails, Mex, and manager Davey Johnson—this " affectionate but critical look at this exciting season " (Publishers Weekly) celebrates the last of baseball ' s arrogant, insane, rock-and-roll-and-party-all-night teams, exploring what could have been, what should have been, and what never was.

In Healing after Parent Loss in Childhood and Adolescence: Therapeutic Interventions and Theoretical Considerations, experts explore the varied, often complex, and always tragic circumstances under which young people face losing a parent. Profound grief and feelings of powerlessness may accompany loss of a parent at any age, but distinctly so when such loss is experienced during formative years. Whenever these individuals seek help, therapists must be psychically prepared to enter into arenas of trauma, bereavement, and mourning. The children, teens, and adults presented are diverse in age, culture/ethnicity, and socioeconomic status. A diverse group of contributors showcase a wide range of effective approaches—from traditionally structured short- and long-term psychotherapies and psychoanalysis, to psycho-educational, supportive, and preventive interventions. The writers in this volume do not shy away from tough matters such as urban violence, AIDS, and war; they address concerns practicing clinicians face, such as when to work with children, adolescents, and adults individually, and when and how to involve their surviving parents and families. Included in this book are issues related to the self-care and professional development needs of therapists who take on this difficult but essential work, including peer support and supervision. This volume is likely to spark important re-examinations across all fields of mental health practice. It will equip and empower clinicians of all kinds who undertake work with those who are grieving. Healing after Parent Loss in Childhood and Adolescence promises to be a vital and stimulating read for supervisors, teachers, and trainers of child, adolescent, and family clinicians.
