Psychiatrist Ludwig weaves insights from in-depth interviews with 21 biographers with observations from his own practice to investigate the mechanisms by which people construct identities. He describes how biographers must impose a narrative structure on the mass of often contradictory information in much the same way therapists try to foster understanding and awareness in their patients. He concludes by asserting that people can use the same methods to find meaning in their lives. Annotation copyrighted by Book News, Inc., Portland, OR

Are you able to give your first impressions a second look? In this lighthearted and humorous take on life, Knox McCoy explores questioning and examining long-held ideas that no longer represent how we think. What would it mean to really examine what you think you know about yourself and your beliefs? To not just rely on the cliches you ' ve always recited to yourself but to look deeply into why you think what you think? In All Things Reconsidered, popular podcaster Knox McCoy uses a unique blend of humor, pop culture references, and personal stories to show how a willingness to reconsider ideas can actually help us grow ourselves, our lives, and our beliefs. In this laugh-out-loud defense of changing your mind, Knox dives into a variety of topics including: Are participation trophies truly the worst? Is it really worth it to be a ride-or-die sports fan? Do we believe in God because of the promise of heaven—or the threat of hell? Does prayer work? Is anyone even there? In a world where we ' re divided by political, social, and religious differences, All Things Reconsidered is a hilarious and insightful book of essays that reminds us of the value of reflection

and open-mindedness.

A look at faith through the voices of children from varied religious backgrounds, by the Pulitzer-winning author of The Moral Intelligence of Children. A New York Times Notable Book What do children think about when they consider God, Heaven and Hell, the value of life in the here and now, and the inevitability of death? Child psychiatrist, Pulitzer Prize-winning writer, and Harvard professor Robert Coles spent thirty years interviewing hundreds of children—from South America and Europe to Africa and the Middle East—who are developing concepts of faith even as they struggle to understand its contradictions. Be they Catholic or Protestant, Jewish children from Boston, Pakistani children in London, agnostics, Native Americans, or young Christians in the American South, they offer honest, enlightening and sometimes startling ideas of a spiritual existence. A Hopi girl who knows for a fact that we are resurrected as birds; an African American child who believes God exists as a hurricane to "blow away" drug dealers; a young Christian who needs his faith to cope with the death of his sister, lest she be just "a big heartache to us till the day we die"; and a Tennessee child who rationalizes his belief by admitting that "if there's no God, that's all there is, ashes." The Spiritual Life of Children is "a remarkable book. The generosity of vision that characterizes Dr. Coles's enterprise enables him to create a climate where words of great beauty and truthfulness can be spoken." —The New York Times

Parker J. Palmer--who for forty years has written and spoken about subjects ranging from contemplation to community, the inner life to public life, education to social change--is known as one of the nation's most thoughtful voices, calling us all to ways of being in the world that honor the human heart and promote a humane society. Living the Questions, a celebration of Palmer's long and distinguished career, explores the dynamic interplay between the inner life of spirit and the outer life of work. NATIONAL JEWISH BOOK AWARDS FINALIST • "Part personal quest, part testament, and all thoughtfully, compassionately written."--The Washington Post "Esther Safran Foer is a force of nature: a leader of the Jewish people, the matriarch of America's leading literary family, an eloquent defender of the proposition that memory matters. And now, a riveting memoirist."--Jeffrey Goldberg, editor in chief of The Atlantic NAMED ONE OF THE BEST BOOKS OF THE YEAR BY NPR Esther Safran Foer grew up in a home where the past was too terrible to speak of. The child of parents who were each the sole survivors of their respective families, for Esther the Holocaust loomed in the backdrop of daily life, felt but never discussed. The result was a childhood marked by painful silences and continued tragedy. Even as she built a successful career, married, and raised three children, Esther always felt herself searching. So when Esther's mother casually mentions an astonishing revelation--that her father had a previous wife and daughter, both killed in the Holocaust--Esther resolves to find out who they were, and how her father survived. Armed with only a black-and-white photo and a hand-drawn map, she travels to Ukraine, determined to find the shtetl where her father hid during the war. What she finds reshapes her identity and gives her the opportunity to finally mourn. *I Want You to Know We're Still Here* is the poignant and deeply moving story not only of Esther's journey but of four generations living in the shadow of the Holocaust. They are four generations of survivors, storytellers, and memory keepers, determined not just to keep the past alive but to imbue the present with life and more life.

Economical Bible-Cev Jossey-Bass

This book completely changes our understanding of time, by showing how the future influences our present. It demonstrates that our thoughts, especially our intentions, necessarily influence the creation of our reality long before our actions. This concerns our future and not our present, contrary to the naïve idea that the observer could create their own reality, derived from quantum physics. The result is a true revelation of our creative role in the universe, which implies that our primary nature is spiritual in essence, meaning that pure love exists, not as a product of brain chemistry but as an energy more fundamental than gravitation or light, related to our free will through extra dimensions of space-time. Dr Philippe Guillemant also conducted a real experiment regarding strange coincidences and particularly synchronicities, after having discovered why and how it is possible to provoke them. Equipped with this "practical manual," the reader can also try it out. Written by a physicist, *The Road of Time* nevertheless reads like a novel. "This is now starting to be mainstream physics." The End of the World as We Know It HMH

Britain's most famous mathematician takes us to the edge of knowledge to show us what we cannot know. Is the universe infinite? Do we know what happened before the Big Bang? Where is human consciousness located in the brain? And are there more undiscovered particles out there, beyond the Higgs boson? In the modern world, science is king: weekly headlines proclaim the latest scientific breakthroughs and numerous mathematical problems, once indecipherable, have now been solved. But are there limits to what we can discover about our physical universe? In this very personal journey to the edges of

knowledge, Marcus du Sautoy investigates how leading experts in fields from quantum physics and cosmology, to sensory perception and neuroscience, have articulated the current lie of the land. In doing so, he travels to the very boundaries of understanding, questioning contradictory stories and consulting cutting edge data. Is it possible that we will one day know everything? Or are there fields of research that will always lie beyond the bounds of human comprehension? And if so, how do we cope with living in a universe where there are things that will forever transcend our understanding? In *What We Cannot Know*, Marcus du Sautoy leads us on a thought-provoking expedition to the furthest reaches of modern science. Prepare to be taken to the edge of knowledge to find out if there's anything we truly cannot know.

• People • Entertainment Weekly • Vogue • Los Angeles Times • San Francisco Chronicle • Chicago Tribune • New York • Newsday • Library Journal • Publishers Weekly In a profound work that pivots from the biggest questions about American history and ideals to the most intimate concerns of a father for his son, Ta-Nehisi Coates offers a powerful new framework for understanding our nation's history and current crisis. Americans have built an empire on the idea of "race," a falsehood that damages us all but falls most heavily on the bodies of black women and men—bodies exploited through slavery and segregation, and, today, threatened, locked up, and murdered out of all proportion. What is it like to inhabit a black body and find a way to live within it? And how can we all honestly reckon with this fraught history and free ourselves from its burden? *Between the World and Me* is Ta-Nehisi Coates's attempt to answer these questions in a letter to his adolescent son. Coates shares with his son—and readers—the story of his awakening to the truth about his place in the world through a series of revelatory experiences, from Howard University to Civil War battlefields, from the South Side of Chicago to Paris, from his childhood home to the living rooms of mothers whose children's lives were taken as American plunder. Beautifully woven from personal narrative, reimagined history, and fresh, emotionally charged reportage, *Between the World and Me* clearly illuminates the past, bracingly confronts our present, and offers a transcendent vision for a way forward.

For fans of David Almond's *Skellig* and Patrick Ness's *A Monster Calls*, here is a lyrical, atmospheric, and deeply emotional middle-grade novel with a touch of magical realism. Twins Jamie and Ned do everything together, from watching their favorite show, *Star Trek*, to riding their bikes, to beachcombing after a storm. But Ned is sick with cystic fibrosis, and he may someday leave Jamie behind. One day the boys find a strange animal on the beach: smooth flesh on one end, scales at the other, and short arms and legs with long webbed fingers and toes. Could it be a merman, like in the old stories Granddad tells? Together, the boys name the creature Leonard and decide to hide him in a tub in their garage. But . . . why is Leonard here? Jamie hopes he might bring some miracle that will stop his brother from going where he can no longer follow. But Ned, who grows closer to Leonard every day, doesn't seem to be getting any better. . . .

God has provided a way for all people, not just scholars, to know that the Bible is the Word of God. John Piper has devoted his life to showing us that the glory of God is object of the soul's happiness. Now, his burden in this book is to demonstrate that this same glory is the ground of the mind's certainty. God's peculiar glory shines through his Word. The Spirit of God enlightens the eyes of our hearts. And in one self-authenticating sight, our minds are sure and our hearts are satisfied. Justified certainty and solid joy meet in the peculiar glory of God.
