DIY Tips from a Pro. You're not lighting a parking lot. Ideally the lamps should be placed 10 to 15 feet apart, creating pools of light that gently point the way.

Positioning Poorly aimed lamps can be harsh on the eyes, especially around stairways and hillsides. Don't forget that eye level shifts when people sit down. *Pathways to Light | Your Healing Journey...*

Additional Tips For Enjoying

Your Path Lighting. One form of a path light doesn't sit on the walking path at all but rather up in the trees, or some higher platform. These are called downlights and can create a pleasant moonlight effect. You can use path lights to draw guests' attention to your favorite parts of your property,...

Ashbery Path Light - Outdoor Lighting

When a mysterious man begins whispering in her dreams, tempting her to reconsider all that she believes, she must face both her fears and her desires.

Merrilyn may be a light in the darkness, but she'll have to trust Loian to light their path as they travel through foreign lands and face new enemies in their search for the missing men.

The path to the Light - Occult Mysteries

Pupil: the Gatekeeper. Light passes from the cornea to the pupil, the dark circle in the center of the iris, which is the colored portion of the eye. The pupil regulates the amount of light that will enter the inner eye based on environmental conditions: It dilates, growing bigger to receive more light under dim lighting conditions,...

To Light the Path (Light of Loian Book 2) - Kindle edition ...

The Path of Light is Reversible. The path of light can undergo many changes as light goes from its source to your eye. To analyze the path it is useful to know that the path is reversible. If you trace the path from water to air to glass, you can reverse the direction and follow the same path from glass to air to water.
