Brian Costello weaves real examples with practitioner-friendly insights to guide readers on an incredible journey. Whether you're just starting your journey or already a master teacher...prepare to be inspired!"

- Dr. Brad Gustafson, National Distinguished Principal and Best-Selling Author

Journey's Lesson National Council of Teachers of English (Ncte)

The best teachers are leaders, and the best leaders are teachers. Teaching by Heart summarizes the author's key insights gained from more than forty years of teaching and managing. It illustrates how teachers can both lift people up and let them down. It proposes that the best teachers are also leaders, and the best leaders are also teachers. In examining how to lead and teach, renowned Harvard Business School professor Thomas J. DeLong takes the reader inside his own head and heart. He notes that, as teachers, we often focus more on our inadequacies and missteps than on our strengths and unique talents. He explains why this is so by dissecting and analyzing his own experiences--using himself as a case study. The book's goal is to help readers learn about the intricacies of teaching and managing, and to impart lessons about how teachers can create a unique teaching atmosphere. To do this, the author analyzes the process of creating a curriculum, preparing for an eighty-minute class, managing the fifteen minutes before class

begins, and evaluating the nature of the teaching experience after the session concludes. Along the way, he connects specific classroom behaviors with leadership issues--in organizations, in teams, and in personal relationships. He also asks--and answers--some provocative questions, such as: What happens on multiple levels when I teach or lead--with me, students, or professionals? What am I thinking and feeling as I process what students are thinking and feeling? How are my internal conversations affecting how I teach and lead? How do I manage my biases, including having "favorite" students? To what extent can I use teaching methods in the arena of management? Throughout Teaching by Heart, DeLong discusses why empathy and authenticity matter. When teachers embrace this mindset, students have the opportunity to have a unique learning experience. Teachers and managers will learn how to create moments of transformation for students. Whether you're a university professor, a student, a business leader, or just someone fascinated by teaching, this book will instruct, entertain, and--hopefully--inspire.

Learning to Teach Physical Education in the Secondary School

Teachers College Press

The Miraculous Journey of Edward Tulane Teachers College Press

This volume provides inspiration to teachers who want to reconnect with their highest aspirations and hopes; a practical guide to teaching as a moral practice; an antidote to teaching as a linear, connect-the-dots enterprise; and a study guide for readers that will be available on-line."--BOOK JACKET.

Identity and Teacher Professional Development Springer Nature

Audisee® eBooks with Audio combine professional narration and sentence highlighting for an engaging read aloud experience! Have you ever wondered what mysteries the ocean holds? Prepare to explore the ocean from sunlit

shallows to the deepest, darkest depths. Along the way, you'll meet many incredible creatures that are brand new to science. Dive to a coral reef and spot a new species of pygmy octopus. Travel deeper and discover fragile, nearly transparent jellies as they drift past. Then head down into a world of eternal night. You'll encounter animals that make their own light and zombie worms that feast on the bones of dead whales. Your adventure is based on the real journeys of scientists involved in the Census of Marine Life. From 2000 to 2010, more than two thousand researchers from eighty-two countries carried out the most extensive investigation of ocean life ever attempted. Author Rebecca L. Johnson takes readers to research sites around the globe, showing how ocean scientists do their work. Stunning photographs throughout bring readers face-to-face with some of the most mesmerizing creatures on Earth.

The Journey is Everything Teachers College Press

Turn any student into a bookworm with a few easy and practical strategies Donalyn Miller says she has yet to meet a child she can't turn into a reader. No matter how far behind Miller's students might be when they reach her 6th grade classroom, they end up reading an average of 40 to 50 books a year.

Miller's unconventional approach dispenses with drills and worksheets that make reading a chore. Instead, she helps students navigate the world of literature and gives them time to read books they pick out themselves. Her love of books and teaching is both infectious and inspiring. In the book, you'll find: Hands-on strategies for managing and improving your own school library Tactics for helping students walk on their own two feet and continue the reading habit after they've finished with your class Data from student surveys and end-of-year feedback that proves how well the Miller Method works The Book Whisperer includes a dynamite list of recommended "kid lit" that helps parents and teachers find the books that students really like to read.

Why We Teach Univ of North Carolina Press

The Imperfect and Unfinished Math Teacher [Grades K-12] Corwin Press

"For those of you pondering the question of whether to teach or not, this book will help you figure out whether teaching is for you. For those of you already in the classroom, it can inspire you to remember why you chose to teach in the first place." —From the Foreword by Sonia Nieto, Professor Emerita, University of Massachusetts, Amherst and author of *Why We Teach* and *What Keeps Teachers Going?* "To Teach provides a wealth of tips, lessons, approaches, and ways to think about thinking. But it also provides a sense of the calling to teach. That is why we need today books like this one, to remind us of why teaching matters." —From the Afterword by Mike Rose, UCLA Graduate School of Education and Information Studies To Teach is the now-classic story of one teacher's odyssey into the ethical and intellectual heart of teaching. For almost two decades, it has inspired teachers across the country to follow their own path, face their own challenges, and become the teachers they long to be. Since the second edition, there have been dramatic shifts to the educational landscape: the rise and fall of NCLB, major federal intervention in education, the Seattle and Louisville Supreme Court decisions, the unprecedented involvement of philanthropic organizations and big city mayors in school reform, the financial crisis, and much more. This new Third Edition is essential reading amidst today's public policy debates and school reform initiatives that stress the importance of "good teaching." To help bring this popular story to a new generation of teachers, Teachers College Press is publishing an exciting companion volume: *To Teach: The Journey, in Comics*. In this graphic novel, Ayers and talented young artist Ryan Alexander-Tanner bring the celebrated memoir to life. The Third Edition of To Teach, paired with

the new graphic novel, offers a unique teaching and learning experience that broadens and deepens our understanding of what teaching can be. Together, these resources will capture the imaginations of pre- and in-service teachers who are ready to follow their own Yellow Brick Roads. The Third Edition of To Teach offers today's teachers: Inspiration to help them reconnect with their highest aspirations and hopes. A practical guide to teaching as a moral practice. An antidote to teaching as a linear, connect-the-dots enterprise. A study guide that is available on-line at tcpress.com. William Ayers is a school reform activist and Distinguished Professor and Senior University Scholar at the University of Illinois at Chicago. Praise for the Second Edition! "An imaginative, elegant, and inspiring book... essential reading for anyone who believes that teachers can change lives." —Michèle Foster, Claremont Graduate University "To Teach is one of the few books about teaching that does not disappoint." —From the Foreword by Gloria Ladson-Billings, University of Wisconsin–Madison "William Ayers creates a wise and beautiful account of what teaching is and might be.... He leaves us with fresh awareness of what the teaching project signifies. He provokes us, each in our own fashion, to move further in our own quests." —Maxine Greene, Teachers College, Columbia University "No one since John Holt has written so thoughtfully about the things that actually happen in the classroom. Ayers has been there and he knows, and he shares what he has learned with tremendous sensitivity. The book, I'm sure, will be required reading in every school in the nation." —Jonathan Kozol "Bill Ayers speaks as teacher, parent, and student: as compassionate observer and passionate advocate of his three sons and of all of our children. What is unique is the way in which the personal and professional merge seamlessly.... Ayers is a wonderful story teller." —Herbert Kohl "Ayers's riveting description of his unfolding journey as a teacher will be a helpful guide to teachers at all stages of their careers."

Teaching by Heart Millbrook Press

The winner of the prestigious Caldecott Honor, and described by the New York Times as 'a masterwork', Aaron Becker's stunning, wordless picture book debut about self-determination and unexpected friendship follows a little girl who draws a magic door on her bedroom wall. Through it she escapes into a world where wonder, adventure and danger abound. Red marker pen in hand, she creates a boat, a balloon and a flying carpet which carry her on a spectacular journey ... who knows where? When she is captured by a sinister emperor, only an act of tremendous courage and kindness can set her free. Can it also guide her home and to happiness? In this exquisitely illustrated book, an ordinary child is launched on an extraordinary, magical journey towards her greatest and most rewarding adventure of all...

To Teach Simon and Schuster

Looks at the early life of Martin Luther King, Jr., as seen through the eyes of his older sister.

The Book Whisperer Candlewick Press

Education activist William Ayers invites new and prospective teachers to consider the deepest dimensions of a life in teaching. Should I become a teacher? How can I get to know my students? What commitments come with me into the classroom? How do I develop my unique teaching signature? In his new book, about *Becoming A Teacher*, Ayers muses on 10 such questions (and a little more) to shape and structure an indispensable guide that features hands-on advice and concrete examples of classroom practice, including curriculum-making, building relationships with students and parents, fostering an effective learning environment, and teaching toward freedom. This brilliant and concise text offers a conception of teaching as both practical art and essentially ethical practice. "In your hands is the gift to help and empower students, which is the greatest gift you could ever give as a teacher." —Kevin Powell, author, *The Education of Kevin Powell: A Boy's Journey into Manhood*

“Chock-full of entertaining anecdotes, great teaching and learning moments, and hard questions that help inform the highly consequential decision to become a teacher.” —Angela Valenzuela, University of Texas at Austin “I’m excited to add a new guide to my ‘must-read’ list for teachers-to-be. This is a delight of a little book.” —Eve L. Ewing, University of Chicago “Wow, do I wish I could have read this book, not only when I was just starting to teach, but every year since.” —Kevin Kumashiro, consultant

A Wondrous Journey Routledge

Gathering concepts and techniques borrowed from outstanding college professors, *The Joy of Teaching* provides helpful guidance for new instructors developing and teaching their first college courses. Award-winning professor Peter Filene proposes that teaching should not be like a baseball game in which the instructor pitches ideas to students to see whether they hit or strike out. Ideally, he says, teaching should resemble a game of Frisbee in which the teacher invites students to catch ideas and pass them on. Rather than prescribe any single model for success, Filene lays out the advantages and disadvantages of various pedagogical strategies, inviting new teachers to make choices based on their own personalities, values, and goals. Filene tackles everything from syllabus writing and lecture planning to class discussions, grading, and teacher-student interactions outside the classroom. The book’s down-to-earth, accessible style makes it appropriate for new teachers in all fields. Instructors in the humanities, the social sciences, and the natural sciences will all welcome its invaluable tips for successful teaching and learning.

Making the Journey Hillcrest Publishing Group

Educator and therapist Clifford Mayes offers an original and powerful vision of teaching and learning as a heroic journey, central to the growth of the student as an integrated being. This journey is filled with such universal human archetypes as the Wise Elder, the Trickster, the Great Mother, and the Great Father. Informed by the psychoanalytical studies of Freud, Jung, and neo-Freudian theorists, Mayes emphasizes the need for a healthy balance in the classroom between the technical and the poetical, the analytical and the intuitive.

Teaching and learning are part of the great journey of individuation, and every student must be given the chance to heed the call and fulfill the archetypal role of the Hero in the true adventure of transformative education. Eschewing the corporate mentality guiding today’s curriculum, Mayes advocates a pedagogy predicated upon the myth of the Hero’s (Heroine’s) quest, which guides both teachers and students through a series of trials, labors, transformations, and ultimate awakenings. . . . The quest is ultimately about asking and answering the great questions together—questions that transcend the merely secular and speak to the overarching issue of “What am I called to do with my life?” Such questions, he persuasively argues, should be at the core of education. -- from the Foreword by Mark R. Grandstaff, University of Maryland, College Park

Remember Crown

The system won’t do it for us. But we have each other. In *The Imperfect and Unfinished Math Teacher: A Journey to Reclaim Our Professional Growth*, master storyteller Chase Orton offers a vulnerable and courageous grassroots guide that leads K-12 math teachers through a journey to cultivate a more equitable, inclusive, and cohesive culture of professionalism for themselves...what he calls professional flourishing. The book builds from two bold premises. First, that as educators, we are all naturally imperfect and unfinished, and growth should be our constant goal. Second, that the last 40 years of top-down PD efforts in mathematics have rarely supplied teachers with what they need to equitably grow their practice and foster classrooms that are likewise empowered, inclusive, and cohesive. With gentle humanity, this book inspires teachers to break down silos, observe each others’ classrooms, interrogate their own biases, and put students at the center of everything they do in the math classroom. This book: Weaves raw and authentic stories—both personal and those from other educators—into a relatable and validating narrative Offers interactive opportunities to self-reflect, build relationships, seek new vantage on our teaching by observing others’ classrooms and students, and share and listen to other’s stories and experiences Asks teachers to give and accept grace as they work collaboratively to better themselves and the system from within, so that they can truly serve each of their students authentically and equitably Implementing the beliefs and actions in this book will position teachers to become more active partners in each other’s professional growth so that they can navigate the obstacles in their professional landscape with renewed focus and a greater sense of individual and collective efficacy. It equips teachers—and by extension, their students—to chart their own course and author their own equitable and joyful mathematical and professional stories.
