In this clever reworking of the classic folk song "Over in the Meadow," readers meet villagers who spent their day spinning, cleaning, cooking, dancing, and more. The text counts up from one baby dragon to ten court jesters, and kids will enjoy counting along with each of the characters as they go about their daily work. At the end of the day, all the villagers look out their windows for a special surprise from their dragon neighbors.

Readers will pore over illustrations filled with the same unexpected, warm humor of Boni Ashburn and Kelly Murphy 's first book, Hush, Little Dragon.

dissident playwright elected President after the dramatic Czechoslovakian Velvet Revolution — one of the most respected political figures of our time. As writer and statesman, Václav Havel played an essential part in the profound changes that occurred in Central Europe in the last decades of the twentieth century. In this most intimate memoir, he writes about his transition from outspoken dissident and political prisoner to a player on the international stage in 1989 as newly

elected president of Czechoslovakia after the ousting of the Soviet Union, and, in 1993, as president of the newly formed Czech Republic. Havel gives full rein to his impassioned stance against the devastation wrought by communism, but the scope of his concern in this engrossing memoir extends far beyond the circumstances he faced in his own country. The book is full of anecdotes of his interactions with world figures: offering a peace pipe to Mikhail Gorbachev, meditating with the

Dali Lama, confessing to Pope John Paul II and partying with Bill and Hilary Clinton. Havel shares his thoughts on the future of the European Union and the role of national identity in today's world. He explains why he has come to change his mind about the war in Iraq, and he discusses the political and personal reverberations he faces because of his initial support of the invasion. He writes with equal intelligence and candour about subjects as diverse as the

arrogance of western power politics, the death of his first wife and his own battle with lung cancer. Woven through are internal memos he wrote during his presidency that take us behind the scenes of the Prague Castle – the government's seat of power – showing the internal workings of the office and revealing Havel's mission to act as his country's conscience, and even, at times, its chief social convenor. Written with characteristic eloquence, wit and well-honed irony combined with an

unfailing sense of wonder at the course his life has taken, To the Castle and Back is a revelation of one of the most important political figures of our time.

The real-life inspiration and setting for the Emmy Award-winning *Downton Abbey*, Lady Almina and the Real *Downton Abbey* tells the story behind Highclere Castle

and the life of one of its most famous inhabitants, Lady Almina, the 5th Countess of Carnarvon. Drawing on a rich store of materials from the archives of Highclere Castle, including diaries, letters, and photographs, the current Lady Carnarvon has written a transporting story of this fabled home on the brink of war. Much like her Masterpiece Classic counterpart, Lady Cora Crawley, Lady Almina was the daughter of a wealthy industrialist, Alfred de Rothschild, who married his daughter off at a young age, her dowry serving as the crucial link in

the Earl of Carnarvon's ancestral home. Throwing open the doors of Highclere Castle to tend to the wounded of World War I, Lady Almina distinguished herself as a brave and remarkable woman. This rich tale contrasts the splendor of Edwardian life in a great house against the backdrop of the First World War and offers an inspiring and revealing picture of the woman at the center of the history of Highclere Castle.

A magnificent and audacious attraction that hosts some of the finest winemaking in the Napa Valley, Castello di Amorosa is one of California's most successful wineries How the winery came to be is an inspiring entrepreneurial tale of one man's daring vision and his determination to see it realized

no matter what. That man is Dario Sattui, founder of the V. Sattui Winery in St. Helena. For as long as he can remember, Dario has cultivated a passion for medieval European architecture. Inspired by stories of the old country from his Italian great-grandfather and other relatives, he made it a hobby to study old castles, lodges, and monasteries almost religiously during the dozens of visits he made to Europe -- particularly Tuscany and Umbria --

throughout the years. In 1993, when he semi-retired from V. Sattui, he began to explore this fascination in a new way, vowing to bring a slice of Italy to Napa by building a modest, authentic medieval monastery on his dream property in Calistoga, where he intended to live and grow grapes for V. Sattui. Over the next 15 years, this plan took on a life of its own and evolved into a massive new winery project with a 136,000-square-foot authentic medieval castle known as Castello di Amorosa at its center. Full of

hundreds of lush photos of the magnificent castle and grounds, Castello di Amorosa: A Labor of Love tells the improbable story of the castle's construction and includes an exclusive tour of the castle that only its creator could deliver. Bound to delight readers interested in Napa history, winemaking, and medieval architecture, Castello di Amorosa will undoubtedly thrill the castle's legion of fans around the world.
