TOGAF® 9 Certified Study Guide – 3rd Edition Van Haren

Open Agile Architecture™, a standard of The Open Group, offers an approach to architect at scale with agility. It provides guidance and best practices for Enterprise Architects seeking to transition into Agile and Digital contexts. Empowering an Enterprise to Succeed with its Digital-Agile Transformation

Agile teams drive the enterprise's Digital Transformation by inventing new business models, delivering superior customer experiences, developing digital products, and architecting highly-automated operating systems. The Open Agile Architecture Standard was designed keeping the needs of all business stakeholders in mind:

- Business Leaders – to drive the enterprise's Digital and Agile change journey
- Enterprise Architects – to extend their scope of influence in an Agile at scale world
- Product Managers – to help transform customer experience, innovate products, and generate growth
- Product Owners – to accelerate their transformation from managing feature backlogs to steering value delivery
- Operations Managers – to enable them to leverage Lean and automation to generate sustainable competitive advantages
- Software Engineers – to leverage the power of digital technologies to co-

innovate with the business

The more Agile the enterprise, the faster the learning cycles, and faster learning cycles translate to shorter time-to-market resulting in more agility. By adopting an Open Agile Architecture approach, your organization can capitalize on this accelerated learning cycle, meaning your Agile and Digital capabilities continuously and simultaneously co-create one another.
