Ferraris of all time; they ranged from the 1965 250 LM sports coupe Speciale to the immortal 1968 Daytona through to the 1975 308 GTB and GTS and the 1984 288 GTO, as well as the P5 and P6 of 1968. While continuing his Ferrari essay during his Pininfarina career, Fioravanti also guided the creation of numerous other projects, among them the Dino road car, the 1980 Pinin four-door prototype and went on to the 1984 Testarossa and the 1987 F40. He worked for the Fiat Group from 1988 until 1991, during which time he took on the roles of deputy director general of Ferrari, later became responsible for advanced design CRF and then head of the Fiat Styling Centre. In 1987, he founded Fioravanti srl, an architectural studio, and in 1991 he extended his services to industry, in particular the design of means of transport. Images of an epoch, designs from his own personal archive never previously seen and, above all, a passionate first person account. Those are the key elements of this outstanding book which, through the creations of Leonardo Fioravanti, covers over 50 years of the history of automobile style and culture.

Having left motor racing in the early 1950s - at least officially - Alfa Romeo returned to the sport once again at the start of the following decade due to the commitment and enthusiasm of Autodelta. This Alfa offshoot distinguished itself by preparing and racing about 30 of the manufacturer's different cars that really did make history. Among them, the Giulia TZ holds a place at the head of the crowd. It had a 1.5-litre, 113 hp engine from the Giulia SS, front and rear suspension of modern conception, disc brakes and an especially bold body shaped by Zagato on a modern tubular chassis. Those were the strong points of this car, which scored results of absolute prestige in its brief career at Sebring, in the Targa Florio, the 24 Hours of Le Mans and the Tour de France. Vito Witting da Prato, already the author of a meticulously written book on the Alfa Romeo SZ, covers the winning, human, technical and sporting factors of this unforgettable car in a monumental work. A book which, to the precise text and painstaking historical reconstruction, has been added illustrations of previously unpublished pictures and technical designs by Autodelta.

JavaScript is an easy-to-use, flexible, dynamic, prototype-based programming language predominantly used over the web. Although the initial focus of the language was to assist in the generation of dynamic web content, it soon found its way into numerous other applications. This book aims to cover the fundamentals of the language by providing a strong start for people who wish to start their journey to the JavaScript programming language. It provides the mandatory theoretical background, which is much needed for implementation of the exhaustive hands-on exercises and includes over 4000 lines of code for grasping a maximum understanding of the material.

FEATURES A strong theoretical background and understanding of the fundamentals of the JavaScript language Hands-on and demo exercises at the end of every chapter Exercises, theory-based questions, MCQs and true/false questions for helping readers to evaluate their understanding from time to time A dedicated chapter providing extended case studies for using the language This book is targeted at undergraduate as well as postgraduate students who want to learn about front-end programming or who wish to learn a lightweight, easy-to-use programming language for working on their projects. For programmers having experience in other languages, it will serve as a quick summary to get a hold of a new language.

Documenting the devastating effects of global warming and climate change, Warm Waters is a multi-year photographic documentary across the Pacific and Arctic Oceans, from Northern Alaska to the remote outposts of New Zealand. The journey started in 2013 in Papua New Guinea, where photographer Vlad Sokhin documented illegal logging and deforestation. In 2014, Sokhin covered the rise of sea levels, coastal erosion and the effects of

El Niño in Papua New Guinea, Kiribati, Nauru, the Marshall Islands and Niue. In 2015, 2016 and 2018, he extensively covered the aftermath of tropical cyclones across Pacific island nations and delved deeper into documenting struggles of the affected communities, their resilience and adaptation to the realities of global warming. In 2019, he documented severe drought in Timor-Leste, caused by the weather anomalies. Warm Waters also looks at other environmental issues our planet is facing, such as climate migrants and their resettlement, permafrost melting, coral bleaching, and the need for renewable energy. The book shows the evidence of fight, adaptation, and hope of remote island and coastal communities. It takes you right into the lives of Inupiat and Yupik people in Alaska, and to the towns and villages that are being destroyed by the sea and coastal erosion on the Russian Kamchatka Peninsula. You will see how scientists work in the field, studying the effects of climate change, and how the people, affected by extreme weather conditions, are trying to survive and rebuild their lives after catastrophic events have ruined their land and homes. Warm Waters not only shows tragedy however; it shows the beauty of our planet, communities living in harmony with nature, and people that are tirelessly working to protect their fragile shores from the biggest environmental threat ever they have ever faced.

Set in Queensland during World War II, this breath-taking historical novel is inspired by a true wartime story that has remained a well-kept secret for over seventy years. **KHAKI TRANSFORMATION** It seems to have happened overnight, Val thought . How extraordinary. We ' ve become a khaki town. It ' s March 1942. Singapore has fallen. Darwin has been bombed. Australia is on the brink of being invaded by the Imperial Japanese Forces. And Val Callahan, publican of The Brown ' s Bar in Townsville, could not be happier as she contemplates the fortune she ' s making from lonely, thirsty soldiers. **TOWNSVILLE'S TURMOIL** Overnight the small Queensland city is transformed into the transport hub for 70,000 American and Australian soldiers destined for combat in the South Pacific. Barbed wire and gun emplacements cover the beaches. Historic buildings are commandeered. And the dance halls are in full swing with jazz, jitterbug and jive. **CONFLICT**

AND INVESTIGATION The Australian troops begrudge the confident, well-fed 'Yanks' who have taken over their town and their women. There's a growing conflict, too, within the American ranks, because black GIs are enjoying the absence of segregation. And the white GIs don't like it. As racial violence explodes through the ranks of the military, a young United States Congressman, Lyndon Baines Johnson, is sent to Townsville by his president to investigate. 'Keep a goddamned lid on it, Lyndon,' he is told, 'lest it explode in our faces ...' _____ 'Mistress of the ripping yarn.' SUN-HERALD '500 pages of perfect reading.' Microsystems are an important factor that contribute to an automobile model's success. To meet the customer's desire for safety, convenience and vehicle economy, and to satisfy environmental standards, microsystems play a critical factor. Microsystems applications (MST) have already resulted in improved performance and better value for money. But the advances implemented reveal only the beginning of a revolution in the vehicle sector, which aims at a complete transition from the mechanically driven automobile system to a mechanically based but ICT-driven system. The selected contributions from AMAA 2003 treat safety (both preventive and protective), powertrain (online measurement and control of engine and transmission subsystems), comfort and HMI (systems to enhance the comfort of passengers and human machine interface issues), and networked Vehicle (all aspects of intra car systems and ambient communication networks).

* Special slipcased edition, limited to 314 copies The Porsche 911's little brother...In 1969 a very special sports car was born. The 914 rose from a marriage of convenience of Volkswagen and Porsche, because both companies wanted a small, modern and affordable sports car in their product range, but for little cost. Thus it was decided to combine the skills of both manufacturers. The result was a light mid-engine sports car with a lively road performance and even 50 years after its launch, it pleases the eye with a fresh design. Back then it was often ridiculed as a 'housewife Porsche' or 'Volks-Porsche', but now, the 914 has come out of the shadow of its big brother the 911 and has a huge fan base; today it lives on in the Boxster and Cayman models. This volume includes: the result of thorough research in the Porsche and VW archives; rich photography; all technical data; development, production, model history and racing appearances.
