"A sweet, sexy read, featuring a couple that feels both true-to-life and aspirational." Kirkus Review, Starred Review American
Angie Donovan has never wanted much. When you grow up getting bounced from foster home to foster home, you learn not to become attached to anything, anyone, or any place. But it only took her two days to fall in love with Australia. With her visa clock ticking, surely she can fall in love with an Australian—and get hitched—in two months. Especially if he's as hot and funny as her next-door neighbor... Jace Walters has never wanted much—except a bathroom he didn't have to share. The last cookie all to himself. And solitude. But when you grow up in a family of seven, you can kiss those things goodbye. He's finally living alone and working on his syndicated comic strip in privacy. Sure, his American neighbor is distractingly sexy and annoyingly nosy, but she'll be gone in a few months... Except now she's determined to find her perfect match by checking out every eligible male in the town, and her choices are even more distracting. So why does it suddenly feel like he—and his obnoxious tight-knit family, and even these two wayward dogs—could be exactly what she needs?

To Mr. Tate Howard, You are quite possibly the most infuriating, annoying and grumpy man I 've ever met in my life. I know you think that you 're God 's gift to women, but I have a secret to let you in on: you 're not. You 're God 's gift to yourself. Get over your wanna-be cool surfer self and grow up. I thought it was time that someone addressed your big head and told you straight to your face that you're not all that. Just because you have an Ivy league education doesn 't mean you 're the smartest man in the world. In fact, I 'm not even sure if you would have gotten in if you didn 't have rich parents. Yes, I went there. Every woman doesn 't want to sleep with you and I 'm sure you 're not even good in bed. And I 'm someone that would know. From, Your Secret Not Admirer

Chosen by People and USA Today as a Great Summer Read Georgia Waltz has an enviable life: a plush Manhattan apartment, a Hamptons beach house, two bright twenty-something daughters, and a seemingly perfect marriage. But when Ben dies suddenly, she discovers that her perfect lawyer-husband has left them nearly penniless. As Georgia scrambles to support the family, she and her daughters plumb for the grit required to reinvent their lives, and Georgia even finds that new love is possible in the land of Spanx. Inspiring, funny, and deeply satisfying, The Widow Waltz is a compulsively readable tale of forgiveness, healing, and the bonds between mothers and daughters.

This book is for anyone who works with boilers as a utilities manager, power plant manager, control systems engineer, maintenance technician or operator. The information deals primarily with water tube boilers with Induced Draft (ID) and Forced Draft (FD) fan(s) or boilers with only a FD fan. However, it can apply to any steam generator requiring the firing of fuel. The book addresses issues to be considered when defining measurement transmitters and specification for transmitters. Final control elements are reviewed as to characteristics and sizing. Engineering details on control systems and the setup of the various control functions are covered with specific examples of boiler control including configuration and tuning. The book also contains some of the primary requirements for a Burner Management System.

It took all of thirty seconds for two shots to bring

the world of Margaret Tabaaha crashing down around her. After losing her husband in Afghanistan during the first year of Operation Enduring Freedom, her two sons were all she had left. Now they had been taken from her violently, deliberately, plunging her into a whiskey bottle and stripping away her reason for living. When Arthur Nakai receives a call from his first love, Margaret, her voice pleading for his help, it comes as he is attending a wake for one of the men he considered a brother from his days in the Marines 6th LAR Wolf Pack Battalion. Feeling a deep and responsible obligation to help her, Arthur soon finds himself involved in the multi-billion-dollar world of the oil and gas industry and coming face-to-face with an old adversary, Elias Dayton. Their paths had crossed when Arthur was a member of the Shadow Wolves, an elite tactical unit within US Customs and Border Protection. Now Dayton runs Patriot Security, a Blackwater-type firm that keeps the oil rigs, gas wells, and man camps secure from the Water Protectors, protesters pushing to stop the fracking and poisoning of Native lands. As Arthur works through the case from his end, Navajo police chief Jake Bilagody tackles it from another angle, looking into the strained relationship between the oil company and the Navajo people, all while searching for a missing Navajo man that may have become an unwilling piece on the reservation checkerboard. But when Arthur learns the identity of the boys' killer, he struggles to make sense of it. Because if the clues are right, he will be forced to make a decision that will haunt him for the rest of his life.

'Opinions are like arseholes - everybody has one' James Blunt, 6 December 2014 Once upon a time, James Blunt's most enduring legacy was a three-minute, thirty-second pop song about a girl he saw on the underground, and a nation's worth of abuse. But with the invention of Twitter, James found his real voice, and with it, the chance to reply with a simple 'up yours'. Now the King of Twitter has ascended to the heady heights of occasionally 'winning the internet'. Selected and introduced by James himself, this is a year in the life of the world's most reluctant social media sensation. Now learn for yourself how to be a complete and utter Blunt . . .

Sustainability is a key framework for analyzing biological systems—and turfgrass is no exception. It is part of a complex that encompasses turfgrass interactions with different environments and the suitability of different turfgrasses for specific environments. In addition to its biological role, turfgrass—in the form of lawns, green spaces, and playing surfaces—brings beneficial sociological effects to an increasingly urbanized society. This book presents a comprehensive overview of current knowledge and issues in the field of turfgrass research and management, including the genetics and breeding, the diseases and pests, and the ecology of turfgrasses, and will appeal to a broad spectrum of readers.
