An Introduction to Anthropology Univ. of Tennessee Press

This book traces the history and ecology of the Aymaras and the Quechuas: the highland peoples of the Central Andes, who formed the nucleus of the great Inca Empire which extended for two thousand miles along the Pacific coast to the fringes of the tropical interior. In twenty millennia the Indians of the Andes had had no cultural contacts with the Old World yet they had already passed independently through stages of development usually associated with the Neolithic Age and had achieved a degree of technical and artistic excellence. In four centuries of contact there has of course been appreciable acculturation and osmosis. Originally published in 1952.

Anthropology Today Good Press

This work contains two essays by a 20th-century Canadian professor of political economy at the University of Toronto, Harold A. Innis. He authored some influential works on media, communication theory, and Canadian economic history. Innis's writings on communication examine the media's role in shaping civilizations' culture and development. Content includes: The Strategy of Culture The Military Implications of the American Constitution
