This book argues, from a normative perspective, for the incorporation of an egalitarian sensitivity into tort law, and more generally, into private law. It shows how an egalitarian sensitivity can reformulate tort doctrine, with an emphasis on the tort of negligence. Rather than a comprehensive descriptive account of existing tort law, this book pro-actively searches for new approaches and conceptual tools to meet the challenges faced by egalitarians. The understanding of tort law offered in this book will bring about better practical results in specific cases. It supports the progressive troops in the ongoing philosophical and social battles that take place in the field of tort law and also adds another voice - rich, nuanced and sensitive - to the chorus that is tort theory. *Tort Law: A Modern Perspective* is an advanced yet accessible introduction to tort law for lawyers, law students, and others. Reflecting the way tort law is taught today, it

explains the cases and legal doctrines commonly found in casebooks using modern ideas about public policy, economics, and philosophy. With an emphasis on policy rationales, *Tort Law* encourages readers to think critically about the justifications for legal doctrines. Although the topic of torts is specific, the conceptual approach should pay dividends to those who are interested broadly in regulatory policy and the role of law. Incorporating three decades of advancements in tort scholarship, *Tort Law* is the textbook for modern torts classrooms.

*Cases and Materials on Water Law*, steeped in water history, honors its distinguished author lineage by maintaining the book's longstanding tradition of focused instruction on property rights in water, covering appropriative and riparian principles, groundwater, interstate allocation, and federal-state relations. The Tenth Edition integrates these principles into today's regulatory framework, addressing the need for sustainable management and increased protection of the environment and public rights. The new edition is reorganized to prioritize student learning, with fewer and more

focused notes and several new principal cases.

*Distorting the Law* West Publishing Company  
The publication of *Scholars of Tort Law* marks the beginning of a long overdue rebalancing of private law scholarship. Instead of concentrating on judicial decisions and academic commentary only for what that commentary says about judicial decisions, the book explores the contributions of scholars of tort law in their own right. The work of a selection of leading scholars of tort law from across the common law world, ranging from Thomas Cooley (1824 – 1898) to Patrick Atiyah (1931 – 2018), is addressed by eminent current scholars in the field. The focus of the contributions is on the nature of the work produced by each of the scholars in question, important influences on their work, and the influence which that work in turn had on thinking about tort law. The process of subjecting tort law scholarship to sustained analysis provides new insights into the intellectual development of tort law and reveals the important role played by scholars in that development. By focusing on the work of influential tort scholars, the book serves to emphasise the importance of legal scholarship to the development of the common law more generally.

Contracts Aspen Publishers In the age of American mass incarceration, a complex legal regime governs prison conditions and presents a host of controversial questions at the intersection of

constitutional liberty, statutory interpretation, administrative regulation, and public policy. This is a completely overhauled, re-titled, and much-expanded version of the leading casebook about incarceration. It addresses both pretrial and post-conviction incarceration, presenting Supreme Court and leading lower court case law, statutes, litigation materials, professional standards, academic commentary, and prisoner writing. Topics include conditions of confinement, civil liberties, particular prisoner populations and relevant legal issues (race and national origin discrimination, the particular issues/law governing treatment of incarcerated women, LGBTQ people, and people with disabilities). Litigated remedies (injunctive litigation, damages, the Prison Litigation Reform Act, and criminal prosecution of prison staff), are also covered in detail, as is non-litigation oversight. The casebook is supplemented by an open-access website that offers additional resources and sources for further reading.
