A disgruntled British veterinary technician has access to a large repository of animal diseases at Britain's main veterinary laboratory. To exact revenge for his mistreatment, he steals samples of highly infectious agents for animal diseases and sells them to al Qaeda. Ayman al Zawahiri, the head of al Qaeda, decides to use the agents to mount a bioterrorism attack on the US. He first does a trial run with the causative agent for mad cow disease to check whether it would work. The agent is sprinkled on restaurant food and causes four cases of a horrific disease, Creutzfeldt-Jakob disease (CJD) which is also caused by the mad cow disease agent. Al Zawahiri then decides to use all the infectious material he bought to attack US farm animal production. Winston Sage, a retired epidemiologist who had previously helped the FBI interdict a terrorist attempt to poison US food supplies, is invited to help investigate the four cases of CJD. While the investigation is flubbed and going nowhere, the terrorists introduce foot and mouth disease, Rinderpest, swine flu and Newcastle disease into US herds and flocks via placing the infectious agents into feed supplies. These are highly contagious and deadly diseases of livestock. The terrorists also spread a fungal disease of wheat by aerial spraying of fields with fungal agents. Devastating economic damage is inflicted on US agriculture, to the tune of billions of dollars of losses. As a result, no one will buy US meat or wheat. It also leads to demonstrations and riots by alarmed citizens. Sage is left furious about the incompetence of the CIA and FBI and the ruthlessness of al Qaeda. He is invited to a meeting with the US President and recommends a complete overhaul of intelligence activities, with which the President agrees..

Modeled after Wisconsin's own unemployment compensation plan in the 1930s, federal unemployment insurance has long been considered one of the most important public policy achievements of the New Deal. Always paying benefits according to legislative and administrative guidelines and never requiring a taxpayer bailout, the program has nonetheless undergone strains induced by structural changes in both the economy and the prevailing political milieu. An outgrowth of a conference to celebrate the program's fiftieth anniversary, the papers collected in this volume describe the history of the program, analyze the strains it has undergone and that it faces in the 1990s, delineate the source of current debates over unemployment compensation, and offer suggestions for the future of the program.

How to Be a Writer "The Place is Too Small for Us"

The last of the single men of Pistol Ridge - A woman doctor trying to find home - A town that welcomes both. Laura Malburn is fresh out of medical college when she is offered a job taking over her uncle's office. She heads to Pistol Ridge, a place out west where doctors of the female gender are tolerated. Pierson Radcliff, or better known as Preacher, is the last single man in the small group of heroes in Pistol Ridge. He thinks he has a reputation to uphold as a charmer, but when a new doctor arrives, everything changes. When things go awry, as it tends to do in Pistol Ridge, will these two hearts beat as one, or will evil prevail? Will the folks of Pistol Ridge be able to stand up once again to keep their town clean? Pistol Ridge is a small remote mining town near Nevada City, Montana Territory, where a dirty sheriff had held the town hostage by ordering his thugs to steal a percentage of their earnings to keep law and order. But, the women, holding a secret society, went looking for a hero. They found him and cleaned up the town with the help of seven men who fought in the war to help their former commander. Now, seven men are looking for somewhere to hang their hats. Will Pistol Ridge be the place to find reprieve for their weary souls? This is Pierson Radcliff's story - also known as Preacher

Engineers in multiple disciplines—environmental, chemical, civil, and mechanical—contribute to our understanding of air pollution control. To that end, Noel de Nevers has incorporated these multiple perspectives into an engaging and accessible overview of the subject. While based on the fundamentals of chemical engineering, the book is accessible to any reader with only one year of college chemistry. In addition to detailed discussions of individual air pollutants and the theory and practice of air pollution control devices, de Nevers devotes seven chapters to topics that influence device selection and design, such as atmospheric models and U.S. air pollution law. The Third Edition's many in-text examples and end-of-chapter problems provide a more complex treatment of the concepts presented. Significant updates include more discussion on the problem of greenhouse gas emissions and a thorough look at the Volkswagen diesel-emission scandal.

From the heart of The Velvet a writing community built around the fervent love of neo-noir fiction comes an original anthology. Stacked with brilliant emerging writers alongside some of the strongest established voices in contemporary literature, WARMED AND BOUND crosses literary boundaries on all sides, to deliver an altogether unique reading experience. Through seemingly opposed conventions, beautiful prose makes a hard impression on the short story form. From a scary love story to a nostalgic thriller, a hardboiled pursuit of salvation to the black humor that is existentialism, WARMED AND BOUND is rogue humility and lovesick noir, where humanity is a dirty puzzle. It's Velvet Noir. Welcome. "The title of this volume is, of course, taken from 2 Kgs 6:1, where the prophetic group about Elisha point out that their accommodation is too cramped. It seemed an apt comment on the capacity of any proposed volume to house and adequate representation of the work that has recently been done on Israelite prophecy. To this I now have to add the all-too-ironic confession that the so-called pre-classical prophets (including Elisha and his colleagues) could not be accommodated in the present volume. Let no one complain about being misled by the subtitle when the title is so honest ... there are thirty-six items of varying length, and they divide almost equally between journal articles and excerpts from volumes (some of these of composite authorship). Naturally, they represent one individual's selection from within his personal reading, and this itself accounts for only a fraction of the vast scholarly output on the prophets, whether since 1875 or since 1975 ... It will be apparent at several places in the volume that I take with great seriousness the study of Near Eastern (non-Israelite) prophecy as background to the Israelite phenomenon, so that the first short section ("The Near Eastern Background") was unavoidable."--Editor's preface.

More than ever, Christians are bombarded with tough faith questions from their pluralistic friends and neighbors. Many of these emerge as "anti-truth claims" and slogans we are all familiar with:

- Why not just look out for yourself?
- Do what you want--just as long as you don't hurt anyone
- Miracles violate the laws of nature
- Aren't people born gay?

Paul Copan has been answering questions like these for many years. In *When God Goes to Starbucks*, he offers readers solid and caring Christian responses to these and many other concerns that are being discussed in Starbucks, shopping malls, youth groups, and schools. Each chapter provides succinct answers and points for countering the cultural questions believers are faced with today.
