Godsmack's founder and front man Sully Erna has been immersed in the world of rock ever since he got his first drum set. Given his achievements, that early start might suggestthat his career was a straight shot to the top. The truth is, Erna took so many detours during the years between his first instrument and Godsmack's first contract that, more than once, he nearly forgot his destination. In The Paths We Choose, he relates the turbulent story of his life before the platinum albums and packed arenas. Sully's story shows us that whatever hardship we may face, ultimately, our choices determine our destiny. Walter Prescott Webb (1888 – 1963), a towering figure in Texas and western history and letters, published an abundance of books—but for decades the autobiography he ’ d written late in life sat largely undisturbed among his papers. Webb ’ s remarkable story appears here in print for the first time, edited and annotated by Michael Collins, an authority on Texas history. This firsthand account offers readers a window on the life, the work, and the world of one of the most interesting thinkers in the history, and historiography, of Texas. Webb ’ s narrative carries us from the drought-scarred rim of West Texas known as the Cross Timbers, to the hardscrabble farm life that formed him, to the bright lights of Austin and the University of Texas, where he truly came of age. Fascinating for the picture it summons of the Texas of his youth and the intellectual landscape of his career, Webb ’ s autobiography also offers intriguing insights into the way his epic work, The Great Plains, evolved. He also

describes the struggle behind his groundbreaking history of that storied frontier fighting force the Texas Rangers. Along the way, Webb reflects on the nature of historical research, the role that Texas and the West have played in American history, the importance of education, and the place of universities in our national culture. More than a rare encounter with a true American character ’ s life and thought, A Texan ’ s Story is also a uniquely enlightening look into the understanding, writing, and teaching of western American history in its formative years.

Interview Questions In C Programming A Texan's Story

This book explores the transition that took place in a landed estate in the barony of Killian, east Galway, in the years 1820-70. It examines how the landlord, John Netterville Gerard, reacted to the social and economic changes which took place before, during, and after the Famine. The marriage of John Gerrard to Marcella Netterville in 1822 heralded a different approach to the management of the estate. His efforts to convert the estate from a tillage-based rental property to a grazing operation rendered large numbers of tenants surplus to requirements. His sole method of dealing with these surplus tenants was eviction and destruction of dwellings. The widespread publicity generated by the Gerrard evictions at Ballinlass in 1846 is examined in some detail, as it offers the tenants' perspective of the clearances and also the public defense which the landlord felt compelled to offer. The fate of the estate, in the aftermath of the deaths of John and Marcella Gerrard, and its subsequent division among three distant relatives, is also studied. There was no Reichstag fire. No storming of the Bastille. No mutiny on the Aurora. Instead, the mediocre have seized power without firing a single shot. They rose to power on the tide of an economy where workers produce assembly-line meals without knowing how to cook at home, give customers instructions over the phone that they themselves don't understand, or sell books and newspapers that they never read. Canadian intellectual juggernaut Alain Deneault has taken on all kinds of evildoers: mining companies, tax-dodgers, and corporate criminals. Now he takes on the most menacing threat of all: the mediocre.
