Predicting Semiconductor Business Trends After Moore's Law

Bloomington, Ellettsville, Gosport, Lake Monroe, Nashville, Patricksburg, Poland, Smithville, Spencer, Stanford, Cloverdale, Ninevah, Trafalgar ... White pages coverage only for Morgantown.

E-doc

The semiconductor industry exhibited life cycles that were longer than the disk drive industry but had the same free market characteristics. Over time this unfettered competition followed trends in a worldwide market that could be quantified and used to predict the future. Over the past forty years or more, I've collected data and made presentations showing how the actual economics and technology of the semiconductor industry can be used to predict its future direction and magnitude. This book is built upon excerpts of presentations made during the last thirty years that analyze the business and technology of the semiconductor industry. In most cases, the figures in the book are copies of the original slides as they were presented during one or more of those presentations. In general, they show how predictable the semiconductor industry has been. They should also provide insight into the future of the industry.

Illinois Services Directory

This multi-volume set is a primary source for basic company and industry information. Names, addresses, SIC code, and geographic location of over 135,000 U.S. companies are included.
