This Report deals with matters arising from a complaint against Rt Hon Denis MacShane made on 29 June 2008,

relating to expense claims made between 2005 and 2008. The Committee agreed that the conduct of Mr MacShane should be reported to the Metropolitan Police, though the police decided as a result of their inquiries to take no action. The Report states that this was the gravest case which has come to the Committee for adjudication. It sets out the Committee's views and reasoning clearly, and is accompanied by the detailed memorandum from the Parliamentary Commissioner for Standards, as well as Mr MacShane's response. The Committee concluded that Mr MacShane was in breach of the Code of Conduct in withdrawing his co-operation by declining at the conclusion of this inquiry to attend an interview and to answer a specific question about his invoices. He was also in breach of the Green Book rules for the 19 claims he made from 2004-05 to 2007-08, totalling £12,900 against his incidental expenses provision and further in breach of the rules in buying computers between 2004-05 and 2007-08 when the expenditure was not wholly, exclusively incurred on parliamentary duties.

Unstoppable is a word defined as "difficult or impossible to preclude or stop." As a human quality, it is something that we associate with people such as sports superstars, those who do whatever it takes to inspire others and lead teams to the greatest of victories. Sometimes, an idea or person can become unstoppable. Unstoppable, like Charles Lindbergh crossing the Atlantic in a solo flight when no one had thought it was possible, or track star Roger Bannister breaking the four-minute mile barrier. Not everyone can be an explorer or a great athlete, but anyone can be unstoppable in their chosen endeavors in life. If you are willing to possess an unwavering determination to succeed and a consistent willingness to learn and evolve, you can become unstoppable and triumph too. This book is about a personal struggle, one in which the author awoke from a coma after a terrible accident and faced a life of permanent paralysis. A long battle of driven determination resulted in Yanni Raz regaining his health and becoming a self-made millionaire after migrating from his native Israel to the United States. Through careers as a musician, a Starbucks barista, a salesman, a real estate whiz, a professional poker player and a hard money lender, Yanni learned reliable principles and the skills necessary for success. Unstoppable covers many topics including controlling your life, making the best decisions, creating new opportunities, properly assessing signals, expertly negotiating, and succeeding by storytelling across the media landscape. You'll learn about integrity in business, asset diversification, and many other life tips that thousands of people

learn from Yanni on a daily basis. It is time to become fearless and lead a powerful life. With Yanni's new book *Unstoppable*, you can do just that.

Since 1958 the Maritime Administration has continuously conducted instructions in use of collision avoidance radar for qualified U.S. seafaring personnel and representatives of interested Federal and State Agencies. Beginning in 1963, to facilitate the expansion of training capabilities and at the same time to provide the most modern techniques in training methods, radar simulators were installed in Maritime Administration's three region schools. It soon became apparent that to properly instruct the trainees, even with the advanced equipment, a standardize up-to-date instruction manual was needed. The first manual was later revised to serve both as a classroom textbook and as an onboard reference handbook. This newly updated manual, the fourth revision, in keeping with Maritime Administration policy, has been restructured to include improved and more effective methods of plotting techniques for use in Ocean, Great Lakes, Coastwise and Inland Waters navigation.
