Kristi Hay suffered the loss of her second child when he was just four days old. Kristi and her husband, along with their elder son, had carefully planned for the family's new addition. Suddenly, the vision of their family of four was shattered. It was as if their "world had been turned upside down." The author relates how she and her family found healing with the help of family, friends, and support organizations, and by identifying with others, even well-known figures, who have suffered similar loss. She questioned, yet drew strength from her faith; and through the years, Kristi and her family have found ways to maintain a sense of their second son's presence in their lives. Kristi continues to work as a Labor & Delivery nurse, uniquely positioned to empathize with other families who suffer similar loss. Part of her redemption is her personal ministry of reaching out to those families to offer insights, both professional and personal.

Grief Transformed Beverly Dale Mayer

Hope for the hopeless. Real life stories of people who have had near death experiences, families that have experienced a visitation, nurses that have helped patients with transitioning and finding peace amidst sorrow and pain. I was given a strict message to write this book one Saturday morning when I was taking a walk. I was told that this book is to be written to bring hope to others who are struggling with either their own death or someone else's. I was inspired to write this for people who experience trauma or are in the throes of grief. May the savior's love and caring touch your heart and soul. Know that you are precious, worthy of love and his compassion endless! He knows your pain and died for you

Our World Turned Upside Down Paige Press

'We live in a world populated by dog lovers, where many

of us regard them as members of the family. We are fascinated by them: either anthropomorphising our pets or obsessing about the ways they differ from us. And mountains – theatres of risk, drama and heroism – provide the perfect stage for us to enact our canine fascination in all its pathos and poetry. In short, the hills bring into focus just how much we love being with dogs.' Dogs specialise in getting on with humans, and tales of faithful hounds in hostile environments form part of our cultural history. Award-winning writer Helen Mort sets out to understand the singular relationship between dogs, mountains and the people who love them. Along the way, she meets search and rescue dogs, interviews climbers and spends time on the hills with hounds. The book is also a personal memoir, telling the author's own story of falling in love with a whippet called Bell during a transformative year in the Lake District. Never Leave the Dog Behind is a compelling account of mountain adventures and misadventures, and captures the unbridled joy of heading to the hills with a four-legged friend.

A Touch of Death Baker Books

Dear Grief, I shudder to refer to you as "dear." Yet you have been with me for so long that you have become a part of me, which I suppose entitles you to this term of affection, though my heart grants it unwillingly. You are an enigmatic and elusive creature, a chameleon, changing color with habitat and season. Some say you pass with time, like grains of sand sifting through my fingers, no longer resting in the safety of my palm. Others say you are a process, as if by accomplishing twelve prescribed steps I could graduate from your possession and be free of you. But you are not a process. You do not pass, at least not in this lifetime. You dwell with me - in me - but you are not my master. You roam on a leash, tethered by the One who owns you. You haven't always been here, and one day you'll disappear, for there's only one Alpha and Omega. One beginning and one end, and you are neither. You will not win, nor overcome. You've already been subdued and defeated, for "death has been swallowed up by victory" (1 Corinthians 15:54). A day is coming when you'll be deemed redundant and your crown obsolete. On that day, O Grief, you will no longer be called "dear" . . . nor even a distant memory.

Unfortunately, grief is not a 12-step process. It may contain five or more general stages, but even these stages are rarely a linear process. Grief is far more

often a cyclical journey, like the stages of the moon. Always present, but not always visible. Since everyone endures loss in their own way, this collection of nine reflective letters to grief personified is descriptive, not prescriptive. Letters to Grief offers readers encouragement and hope to deal with loss and grief in the midst of their own unique circumstances. Readers are invited to reflect on their personal grief experience by writing in the journaling pages throughout the book.
