Scores of talented and dedicated people serve the forensic science community, performing vitally important work. However, they are often constrained by lack of adequate resources, sound policies, and national support. It is clear that change and advancements, both systematic and scientific, are needed in a number of forensic science disciplines to ensure the reliability of work, establish enforceable standards, and promote best practices with consistent application. Strengthening Forensic Science in the United States: A Path Forward provides a detailed plan for addressing these needs and suggests the creation of a new government

entity, the National Institute of Forensic Science, to establish and enforce standards within the forensic science community. The benefits of improving and regulating the forensic science disciplines are clear: assisting law enforcement officials, enhancing homeland security, and reducing the risk of wrongful conviction and exoneration. Strengthening Forensic Science in the United States gives a full account of what is needed to advance the forensic science disciplines, including upgrading of systems and organizational structures, better training, widespread adoption of uniform and enforceable best practices, and mandatory certification and accreditation programs. While this book provides an essential call-to-action for congress and policy makers, it also serves as a vital tool for law enforcement agencies, criminal prosecutors and attorneys, and forensic science educators. Bringing Up Bébé meets Last Child in the Woods in this "fascinating exploration of the importance of the outdoors to childhood development" (Kirkus Reviews) from a Swedish-American mother who sets out to discover if the nature-centric parenting philosophy of her native Scandinavia holds the key to healthier, happier lives for her American children. Could the Scandinavian philosophy of "There's no such thing as bad weather, only bad clothes" hold the key to happier, healthier lives for American children? When Swedish-born Linda Åkeson McGurk moved to Indiana, she quickly learned that the nature-centric parenting philosophies of her native Scandinavia were not the norm. In Sweden, children play outdoors year-round, regardless of the weather, and letting babies nap outside in freezing temperatures is common and recommended by physicians. Preschoolers spend their days climbing trees, catching frogs, and learning to compost, and environmental education is a key part of the public-school

curriculum. In the US, McGurk found the playgrounds deserted, and preschoolers were getting drilled on academics with little time for free play in nature. And when a swimming outing at a nearby creek ended with a fine from a park officer, McGurk realized that the parenting philosophies of her native country and her adopted homeland were worlds apart. Struggling to decide what was best for her family, McGurk embarked on a six-month journey to Sweden with her two daughters to see how their lives would change in a place where spending time in nature is considered essential to a good childhood. Insightful and lively, *There's No Such Thing as Bad Weather* is a fascinating personal narrative that illustrates how Scandinavian culture could hold the key to raising healthy, resilient, and confident children in America.

The Book of Forgiving Cambridge University Press

Archbishop Desmond Tutu, Nobel Peace Prize winner, Chair of The Elders, and Chair of South Africa's Truth and Reconciliation Commission, along with his daughter, the Reverend Mpho Tutu, offer a manual on the art of forgiveness—helping us to realize that we are all capable of healing and transformation. Tutu's role as the Chair of the Truth and Reconciliation Commission taught him much about forgiveness. If you asked anyone what they thought was going to happen to South Africa after apartheid, almost universally it was predicted that the country would be devastated by a comprehensive bloodbath. Yet, instead of revenge and retribution, this new nation chose to tread the difficult path of confession, forgiveness, and reconciliation. Each of us has a deep need to forgive and to be forgiven. After much reflection on the process of forgiveness, Tutu has seen that there are four important steps to healing: Admitting the wrong and acknowledging the harm; Telling one's story and witnessing the anguish; Asking for forgiveness and granting forgiveness; and renewing or releasing the relationship. Forgiveness is hard work. Sometimes it even feels like an impossible task. But it is only through walking this fourfold path that Tutu says we can free ourselves of the endless and unyielding cycle of pain and retribution. The Book of Forgiving is both a touchstone and a tool, offering Tutu's wise advice and showing the way to experience forgiveness.

Ultimately, forgiving is the only means we have to heal ourselves and our aching world.
