This book offers insights into the demands made on

staff in service encounters in tourism, events and hospitality roles. Using data from research completed in these industries, it hinges upon storied incidents offered by workers about which the reader can reflect and apply theoretical knowledge. A key feature of this volume is that it focuses on staff perspectives and perceptions of service encounters and delivery rather than on customer or management perspectives. This will provide students, lecturers, management and customers with fresh and clear understandings of the

demands made on staff, but also the perspectives from which the demands are seen. The chapters clarify to students how to apply academic knowledge within customer service contexts and include learning objectives, questions and summaries.

After the IPS2 conferences in Cranfield and Linköping in 2009 and 2010 the 3rd CIRP International Conference on Industrial Product Service Systems (IPS2) 2011 takes place in Braunschweig, Germany. IPS2 itself is defined as “ an integrated industrial product and service offering that delivers value in use ” . The customers expect comprehensive solutions, which are adapted to their individual needs. IPS2 offers the possibility to stand out from competition and for long-term customer loyalty. Particularly in times of

economic crisis it becomes apparent which producing companies understand to satisfy the needs and requirements of their customers. Especially in this relatively new domain IPS2 it will be important to keep track of the whole context and to seek cooperation with other research fields and disciplines. The 3rd CIRP International Conference on Industrial Product Service Systems (IPS2) 2011 serves as a platform for such collaborations and the discussion of new scientific ideas.
