HISTORICAL FICTION BOOK OF THE MONTH - THE TIMES One night in autumn 1944, a gunshot echoes through the alleyways of a small town in occupied Poland. An S.S. officer is shot dead by a young Polish Jew, Margarita Eizenstain. In retaliation, his commander orders the execution of thirty-seven Poles - one for every year of the dead man's life. First hidden by a German couple, Margarita must then flee the brutal advance of the Soviet army with her new-born baby. So begins a thrilling panorama of intermingled destinies and events that reverberate from that single act of defiance. KINGDOM OF TWILIGHT follows the lives of Jewish refugees and a German family resettled from Bukovina, as well as a former S.S. officer, chronicling the geographical and psychological dislocation generated by war. A quest for identity and truth takes them from Displaced Persons camps to L übeck, Berlin, Tel Aviv and New York, as they try to make sense of a changed world, and of their place in it. Most people know that there are 70 million Baby Boomers in America today....but what is less known is that there are approximately 100 million people in America between the ages of 16 and 30. This generation has just entered, or will soon be entering the work force. And they have no idea how to invest, save, or handle their money. Young people today come out of school having had little or no formal education on the basics of money management. Many have large debts from student loans looming over their heads. And many feel confused and powerless when their pricey educations don't translate into high paying jobs. They feel that their \$30,000-\$40,000 salary is too meager to bother with investing, and they constantly fear that there will be "too much month left at the end of their money." Douglas R. Andrew has shown the parents of this generation a different pathway to financial freedom. Now Doug and his sons, Emron and Aaron - both of whom are in their mid-20s - show the under-30 crowd how they can break from traditional 401k investment plans and instead can find a better way by investing in real estate, budgeting effectively, avoiding unnecessary taxes and using life insurance to create tax-free income. With the principles outlined in Millionaire by Thirty, recent graduates will be earning enough interest on their savings to meet their basic living expenses by the time they're 30. And by the time they're 35, their investments will be earning more money than they are, guaranteeing them a happy, wealthy future.
