A car Magazine

brought to you by Stance Auto Magazine created from the car street scene, cars and story's from the owners, Interviews with people in the car street scene, find out whats going on and whats hot in the car street scene from around the world, see what people are driving and how they are modifying their cars, what car groups and clubs are hot and active, find out how they make their cars look so good and have so much power. Max Power might be gone but the cars live on, check them out here, Fast Ford and the other car Magazines only show you brand new cars and reviews, who wants them? you don't you want to see street cars, old cars, classics, ricer's, itasha cars and the people behind them. If you have a hot car, why not join us in our group and we could be featuring your car and writing your story, find out more in our Magazine

How to Build Max-Performance 4.6-Liter Ford Engines Red Globe Press

When the war ended on August 15, 1945, I was a naval engineering

cadet at the Kure Navy Yard near Hiroshima, Japan. A week later, I was demobilized and returned to my home in Tokyo, fortunate not to find it ravaged by firebombing. At the beginning of September, a large contingent of the American occupation forces led by General Douglas MacArthur moved its base from Yokohama to Tokyo. Near my home I watched a procession of American military motor vehicles snaking along Highway 1. This truly awe-inspiring cavalcade included jeeps, two-and-a-half-ton trucks, and enormous trailers mounted with tanks and artillery. At the time, I was a 21-year-old student in the Machinery Section of Engineering at the Tokyo Imperial University. Watching that magnificent parade of military vehicles, I was more than impressed by the gap in industrial strength between Japan and the U. S. That realization led me to devote my whole life to the development of the Japanese auto industry. I wrote a small article concerning this incident in Nikkei Sangyo Shimbun (one of the leading business newspapers in Japan) on May 2, 1983. The English translation of this story was carried in the July 3, 1983 edition of the Topeka Capital-Journal and the September 13, 1983 issue of the Asian Wall Street Journal. The Topeka Capital-Journal headline read, "MacArthur's Jeeps Were the Toyota Catalyst."

A renowned Jaguar expert offers a comprehensive historical review of

the highly collectable XJS series of coupes, cabriolets and convertibles with particular emphasis on quality evaluation, maintenance and upgrades. Jaguar XJS takes the reader through the 20-year history of a model series which, after a lukewarm reception in 1975 by Jaguar enthusiasts who expected a replacement for the famed E-Type, matured through many evolutions into some of the most stylish cars ever to wear the Jaguar

badge, earning along the way an enviable reputation on the international motor racing scene.

The Mazda Miata is one of the most popular sports cars on the road today. In production for more than 20 years, the Miata's popularity has grown, and the number of aftermarket components available to the Miata enthusiast has grown, too. This immense selection of parts has made it difficult for many would-be modifiers to choose

the proper combination that will help them reach the goals they have set for their two-seaters. Author and Miata expert Keith Tanner has been modifying, repairing, building, and racing Miatas for years, and he will guide you through how to best modify your car to suit your needs, starting with an explanation on how everything works and how the various parts will interact. You'll not only learn what upgrades will help you reach your goals,

but also how to adjust or modify what you have to make your car work at its best. From autocross to cross-country touring, the Miata can do it all. Keith Tanner tells you how to make it happen!

American Performance V-8 Specs Elsevier This is the story of a sixty-five year old woman who was living the good life in retirement with her husband of seven years. They spent every day crabbing, fishing, boating, clamming, beach-combing and the like when she found herself in the ranks of widowhood. She declared she got a sign when she asked God, "Now what do I do with the rest of my life?" Many times in recent years she thought about seeing the old cottage of her youth in Wisconsin. On her daily walk one day along the Russian River, she heard a voice from somewhere that said "go." Just the one word was enough to get her thoughts in motion to do just that. She could never read a map, but that never entered her head. She reasoned she knew how to get to Reno, Nevada from where she lived, and from there she could go northeast and find Elkhorn, Wisconsin and the cottage. So, gathering all the amenities she needed for camping (a sleeping bag, tent, a bag of brown rice, a bag of coffee, a one burner stove and her .38), she was determined to go. Vehicle and Engine Technology Cartech

This textbook presents a unified description and explanation of the fundamentals of the essential components of the motor vehicle, making extensive use of illustrations alongside the written material. The second edition brings into focus advancements in technology which include mechanical refinements, electrical applications and electronically

controlled systems. Annotation copyrighted by Book News, Inc., Portland, OR
