Diffusion, or the widespread adoption of innovations, is a critical yet under-researched topic. There is a wide gap between development and successful adoption of an innovation. Therefore, a better understanding of why and how an innovation is adopted can help develop realistic management and business plans. Most books on this topic use a single-discipline approach to explain the diffusion of innovations. This book adopts a multi-disciplinary and managerial process approach to understanding and promoting the adoption of innovations, based on the latest research and practice. It will be of interest to graduates and researchers in marketing, product development and innovation courses.

At barely three weeks old, little Crispy is packed off to an orphanage near his home in South Wales. Seven years later, he's off on a long, long voyage to Clontarf Boys' Town in Western Australia, as a 'guest' of the Christian Brothers. 'Fallible men in black' is how the author describes these priestly tyrants, who worked their boys hard and beat them often, taking their pleasures where they could find them. on their doorstep. Two subjects were never spoken about: your parents and sexual abuse. Why did the authorities tell the boys that their parents were dead? By the time Crispy left Clontarf to be a shearer, the damage was irreversible. Amid scenes of his school days in Australia, snapshots of youthful exuberance and glimpses of boyish happiness, David Crisp highlights a story of abandonment and rediscovery. There are dark notes in the background of David's life. The hurt remains.

From the late 1940s to the mid-1970s, Richard Nixon was a polarizing figure in American politics, admired for his intelligence, savvy, and strategic skill, and reviled for his shady manner and cutthroat tactics. Conrad Black, whose epic biography of FDR was widely acclaimed as a masterpiece, now separates the good in Nixon—his foreign initiatives, some of his domestic policies, and his firm political hand—from the sinister, in a book likely to generate enormous attention and controversy. Black believes the hounding of Nixon from office was partly political retribution from a lifetime's worth of enemies and Nixon's misplaced loyalty to unworthy subordinates, and not clearly the consequence of crimes in which he participated. Conrad Black's own recent legal travails, though hardly comparable, have undoubtedly given him an unusual insight into the pressures faced by Nixon in his last two years as president and the

first few years of his retirement.

FROM TOURETTE'S TO TRIUMPH. FROM CANCER TO CURE. FROM THE SEGREGATED SOUTH TO COMMANDING STAGES AROUND THE WORLD, JAZZ MASTER, MICHAEL WOLFF'S JOURNEY BEGINS WITH PURE GRIT AND ENDS IN PERFECT VICTORY. Award winning jazz musician Michael Wolff's journey nearly ended six years ago at Mount Sinai Beth Israel Hospital in lower Manhattan. After being worked on by doctors and nurses for most of the night, Wolff, with the perfect timing only a world class musician would have, regained consciousness just in time to hear one of the doctors ask his wife if he had a DNR. Before she could even ask what that was, Wolff used his last ounce of energy to gasp, "Resuscitate me!" After being treated for the wrong cancer for a year and a half, it was discovered that Wolff had an ultra-rare, untreatable cancer called histiocytic sarcoma and had three months to live. Fortunately, he was someone accustomed to surviving the odds. Wolff had already survived a painful childhood overshadowed by Tourette's Syndrome, where his brilliance as a jazz pianist and passion for music saw him through. He went on the road at nineteen, not only performing with some of the great luminaries of Jazz, but also conducting over twenty-five symphony orchestras worldwide. In 1989, Wolff was chosen to be the musical director of Arsenio Hall's groundbreaking late-night talk show, which was extravagantly praised for its diversity of musical guests and brilliant house band. It was through The Arsenio Hall show that Wolff became a household name and where he met and eventually married Actor/Writer/Director Polly Draper when she was a guest on the show. (Their two sons, Nat and Alex Wolff are now highly successful actors and musicians in their own right, so the talent was passed on to the next generation.) In the meantime, Wolff has released twenty-one albums to critical and popular acclaim, written award-winning scores to movies and television series and has managed to beat an untreatable cancer. His compelling story begins with his fish out-of-water story in the segregated South, then moves to politically turbulent Berkeley, California in the early sixties and then it takes him around the world as he earns his stripes as a world class Jazz musician. On That Note is more than a memoir. It is like a Jazz score with words, taking the reader on the wild journey of Wolff's singular life. It is a life driven by a passion for music and a passion for being alive. Sometimes hilarious and sometimes harrowing, Wolff's story instantly sweeps us up with it and charms us with a unique voice. Many books claim to be "page turners." This one actually delivers.
