An insatiable need for sex and love. Periods of overeating or starving. A pattern of unstable and painful relationships. Does this sound painfully familiar? Trauma counselor Kelly McDaniel has seen these traits over and over in clients who feel trapped in cycles of harmful behaviors and are unable to stop. Many of us find ourselves stuck in unhealthy habits simply because we don't see a better way. With *Mother Hunger*, McDaniel helps women break the cycle of destructive behavior by taking a fresh look at childhood trauma and its lasting impact. In doing so, she destigmatizes the shame that comes with being under-mothered and misdiagnosed. McDaniel offers a healing path with powerful tools that include therapeutic interventions and lifestyle changes in service to healthy relationships. The constant search for mother love can be a lifelong emotional burden, but healing begins with knowing and naming what we are missing. McDaniel is the first clinician to identify *Mother Hunger*, which demystifies the search for love and provides the compass that each woman needs to end the struggle with achy, lonely emptiness, and come home to herself.

Dead Reckoning Harper Collins

The book follows the two children as they embark on an adventure, which begins with the discovery of a hidden witch's haven in a graveyard and Jordan's first encounter with the spirit world - but by know means the first for Sebastian. Then a haunted observatory on the outskirts of town yields a clue - a piece of an intriguing map leading to, what they believe to be, hidden treasure. After collecting the rest of the clues from around the town, Jordan and Sebastian search for the treasure, but instead of rubies, emeralds and gold doubloons, they find themselves lead to a doorway into another world, called the Phantom Realm.

Dead Reckoning is an historical adventure of piracy, love and revenge in the Caribbean in the Seventeenth Century. Leo is born in Spanish Panama in 1659. When he is twelve years old he witnesses the violent rape and murder of his mother by three of the Caribbean's most feared pirates: Tarr, Blake and Hornigold, and swears revenge at all costs. Gabriella is trapped in an abusive marriage to a ruthless Dutch slave trader, who is in business with the same English cut-throats. She risks all to escape with her life. Leo and Gabriella meet aboard one of the most horrific ships in the Caribbean - a slaver - and join forces against their common enemy. They face a number of challenges as they battle not only the risks of a life at sea, including storm, drowning, and being adrift in a crippled ship, but also repeated attacks by Blake and Hornigold. But their biggest threat proves to be each other. Can they reconcile their hearts in time for the fiercest battle in their quest of revenge, and survive the gallows? *Dead Reckoning* was long-listed in the 2011 Mslexia Novel Competition. "Wow, what a fantastic story. It's a swashbuckler with a sweeping narrative, full of sea battles, drama, revenge, and love" "Ms. Perkins is a sensational storyteller, knowing how to grab your attention, and hold onto you throughout" "This is an epic pirate adventure, that is wrought with romance, anguish, fighting and revenge. I was immediately drawn into the story of both Leo and Gabrielle, and fell in-love with both their horrific stories. Their lives eventually collide together and so begins a romance like no other." "So enraptured with this story and its characters that I became a little lost within its pages". "K. A. Perkins takes romance, adventure and historical fractions to create a splendid tale." "Some might say that it's a Bernard Cornwell type tale of adventure on the high seas, but it is much more than that. Rather than painting pirates as the swashbuckling adventurers that some authors do, Perkins portrays them as they truly were - violent, bloodthirsty, predators. That credibility is a large part of *Dead Reckoning's* charm" "Dead Reckoning is an excellent read and I look forward to reading the other books in Ms. Perkins' series" "Dead Reckoning is not a fast read. It is a deeply involving kind of story. One must give it full attention to get the span of the plot and appreciate the different characters. There are different plot lines that blend into the story, each one driving the story forward toward a satisfying finish." "I have not read the first book in this series but this book was a stand alone adventure which really took my interest. The writing is very stylish and the pace and characterisation are good. It is an exciting historical tale played out in the Caribbean on land and at sea. The story has obviously been researched very well and gives you a feeling of authenticity in the facts and places, the ports and the mixtures of peoples. There are life or death battles and romance throughout the book and you will be laughing and also moved to tears in parts. The two heroes, Leo and Gabriella have overcome very difficult traumatic beginnings which they manage to overcome, and grow in character as the story moves forward."

An award-winning scientist offers his unorthodox approach to childrearing: "Parentology is brilliant, jaw-droppingly funny, and full of wisdom...bound to change your thinking about parenting and its conventions" (Amy Chua, author of *Battle Hymn of the Tiger Mother*). If you're like many parents, you might ask family and friends for advice when faced with

important choices about how to raise your kids. You might turn to parenting books or simply rely on timeworn religious or cultural traditions. But when Dalton Conley, a dual-doctorate scientist and full-blown nerd, needed childrearing advice, he turned to scientific research to make the big decisions. In *Parentology*, Conley hilariously reports the results of those experiments, from bribing his kids to do math (since studies show conditional cash transfers improved educational and health outcomes for kids) to teaching them impulse control by giving them weird names (because evidence shows kids with unique names learn not to react when their peers tease them) to getting a vasectomy (because fewer kids in a family mean smarter kids). Conley encourages parents to draw on the latest data to rear children, if only because that level of engagement with kids will produce solid and happy ones. Ultimately these experiments are very loving, and the outcomes are redemptive—even when Conley’s sassy kids show him the limits of his profession. *Parentology* teaches you everything you need to know about the latest literature on parenting—with lessons that go down easy. You’ll be laughing and learning at the same time.
