The Last Warlord tells the story of the brotherhood forged in the mountains of Afghanistan between elite American Green Berets and Dostum that is told in the movie 12 Strong: The Declassified True Story of the Horsesoldiers The Last Warlord tells the spellbinding story of the legendary Afghan warlord Abdul Rashid Dostum, a larger-than-life figure who guided US Special Forces to victory over the Taliban after 9/11. Having gained unprecedented access to General Dostum and his family and subcommanders, as well as local chieftains, mullahs, elders, Taliban prisoners, and women's rights activists, scholar Brian Glyn Williams paints a fascinating

portrait of this Northern Alliance Uzbek commander who has been shrouded in mystery and contradicting hearsay. In contrast to sensational media accounts that have mythologized the "bear of a man with a gruff laugh" who "some Uzbeks swear, has on occasion frightened people to death," Williams carefully chronicles Dostum's rise from peasant villager to Uzbek leader and skilled strategist who has fought a long and bitter war against the Taliban and Al Qaeda fanatics that have sought to repress his people. Also revealed is Dostum's surprising history as a defender of women's rights and religious moderation. In riveting detail The Last Warlord spotlights the crucial Afghan contribution to Operation Enduring Freedom: how the CIA contacted the mysterious warrior Dostum to help US Special Forces wage a covert war in the mountains of Afghanistan, how respect and even friendship quickly grew between the Afghan and American fighting men, and how Dostum led his nomadic people charging into war the same way his ancestors had—on horseback. The result was one of the most decisive campaigns in the entire war on terror. The Last Warlord shows that, far from serving as an exotic backdrop for American heroics, it was these horse-mounted descendents of the Mongol warrior Genghis Khan that allowed the American military to overthrow the Taliban regime in a matter of weeks. .

The #1 New York Times bestselling memoir of U.S. Navy Seal Chris Kyle, and the source for

Clint Eastwood's blockbuster, Academy-Award nominated movie. "An amazingly detailed account of fighting in Iraq--a humanizing, brave story that's extremely readable." — PATRICIA CORNWELL, New York Times Book Review "Jaw-dropping...Undeniably riveting." —RICHARD ROEPER, Chicago Sun-Times From 1999 to 2009, U.S. Navy SEAL Chris Kyle recorded the most career sniper kills in United States military history. His fellow American warriors, whom he protected with deadly precision from rooftops and stealth positions during the Iraq War, called him "The Legend"; meanwhile, the enemy feared him so much they named him al-Shaitan ("the devil") and placed a bounty on his head. Kyle, who was tragically killed in 2013, writes honestly about the pain of war—including the deaths of two close SEAL teammates—and in moving first-person passages throughout, his wife, Taya, speaks openly about the strains of war on their family, as well as on Chris. Gripping and unforgettable, Kyle's masterful account of his extraordinary battlefield experiences ranks as one of the great war memoirs of all time.

When the war ended on August 15, 1945, I was a naval engineering cadet at the Kure Navy Yard near Hiroshima, Japan. A week later, I was demobilized and returned to my home in Tokyo, fortunate not to find it ravaged by firebombing. At the beginning of September, a large contingent of the American occupation forces led by General Douglas MacArthur moved its base from Yokohama to Tokyo. Near my home I watched a procession of American military motor vehicles snaking along Highway 1. This truly awe-inspiring cavalcade included jeeps, two-and-a-half-ton trucks, and enormous trailers mounted with tanks and artillery. At the time, I was a 21-year-old student in the Machinery Section of Engineering at the Tokyo Imperial University. Watching that magnificent parade of military vehicles, I was more than impressed by the gap in industrial strength between Japan and the U. S. That realization led me to devote my whole life to the development of the Japanese auto industry. I wrote a small article concerning this incident in Nikkei Sangyo Shimbun (one of the leading business newspapers in Japan) on May 2, 1983. The English translation of this story was carried in the July 3, 1983 edition of the Topeka Capital-Journal and the September 13, 1983 issue of the Asian Wall Street Journal. The Topeka Capital-Journal headline read, "MacArthur's Jeeps Were the Toyota Catalyst.
