The #1 New York Times bestselling memoir of U.S. Navy Seal Chris Kyle, and the source for Clint Eastwood's blockbuster, Academy-Award nominated movie. "An amazingly detailed account of fighting in Iraq--a humanizing, brave story that's extremely readable." — PATRICIA CORNWELL, New York Times Book Review "Jaw-

dropping...Undeniably riveting." —RICHARD ROEPER, Chicago Sun-Times From 1999 to 2009, U.S. Navy SEAL Chris Kyle recorded the most career sniper kills in United States military history. His fellow American warriors, whom he protected with deadly precision from rooftops and stealth positions during the Iraq War, called him "The Legend"; meanwhile, the enemy feared him so much they named him al-Shaitan ("the devil") and placed a bounty on his head. Kyle, who was tragically killed in 2013, writes honestly about the pain of war—including the deaths of two close SEAL teammates—and in moving first-person passages throughout, his wife, Taya, speaks openly about the strains of war on their family, as well as on Chris. Gripping and unforgettable, Kyle's masterful account of his extraordinary battlefield experiences ranks as one of the great war memoirs of all time. Business Japan Abbie Merritt The Outsiders journal unearths 10 beautifully simple stories told over 104 recycled pages of words and images. Through an amalgamation of documentary photography and intimate articles, each touching on sensitive subjects, the project reveals the affinity people have for the outdoors. In this specific edition, Her Stories challenges the modern archetype of women in outdoor media and sparks a

conversation about authenticity and role models in the natural world. The edition consists of multidisciplinary interviews and artist collaborations, told through 55 photographs and 8 illustrations. This is a journal for anyone and everyone who shares a love for journeys and adventure, told through a uniquely slow, meaningful and authentic style that is often lost in modern journalism. The purpose of this publication is to encourage more people to enjoy the outdoors, and values everybody interested in the natural world. As we look to the future, we must envision the power that we have, as environmental stewards, to reconnect with nature and care for it.

The Last Warlord tells the story of the brotherhood forged in the mountains of Afghanistan between elite American Green Berets and Dostum that is told in the movie 12 Strong: The Declassified True Story of the Horsesoldiers The Last Warlord tells the spellbinding story of the legendary Afghan warlord Abdul Rashid Dostum, a larger-than-life figure who guided US Special Forces to victory over the Taliban

after 9/11. Having gained unprecedented access to General Dostum and his family and subcommanders, as well as local chieftains, mullahs, elders, Taliban prisoners, and women's rights activists, scholar Brian Glyn Williams paints a fascinating portrait of this Northern Alliance Uzbek commander who has been shrouded in mystery and contradicting hearsay. In contrast to sensational media accounts that have mythologized the "bear of a man with a gruff laugh" who "some Uzbeks swear, has on occasion frightened people to death," Williams carefully chronicles Dostum's rise from peasant villager to Uzbek leader and skilled strategist who has fought a long and bitter war against the Taliban and Al Qaeda fanatics that have sought to repress his people. Also revealed is Dostum's surprising history as a defender of women's rights and religious moderation. In riveting detail The Last Warlord spotlights the crucial Afghan contribution to Operation Enduring Freedom: how the CIA contacted the mysterious warrior Dostum to help US Special Forces wage a covert war in the mountains of Afghanistan, how respect and

even friendship quickly grew between the Afghan and American fighting men, and how Dostum led his nomadic people charging into war the same way his ancestors had—on horseback. The result was one of the most decisive campaigns in the entire war on terror. The Last Warlord shows that, far from serving as an exotic backdrop for American heroics, it was these horse-mounted descendents of the Mongol warrior Genghis Khan that allowed the American military to overthrow the Taliban regime in a matter of weeks. .

When the war ended on

August 15, 1945, I was a naval engineering cadet at the Kure

Navy Yard near Hiroshima,

Japan. A week later, I was

demobilized and returned to

my home in Tokyo, fortunate

not to find it ravaged by

firebombing. At the beginning

of September, a large

contingent of the American

occupation forces led by

General Douglas MacArthur

moved its base from

Yokohama to Tokyo. Near my

home I watched a procession

of American military motor

vehicles snaking along

Highway 1. This truly awe-

inspiring cavalcade included

jeeps, two-and-a-half-ton

trucks, and enormous trailers

mounted with tanks and

artillery. At the time, I was a

21-year-old student in the

Machinery Section of

Engineering at the Tokyo

Imperial University. Watching

that magnificent parade of

military vehicles, I was more

than impressed by the gap in

industrial strength between

Japan and the U. S. That

realization led me to devote my

whole life to the development

of the Japanese auto industry. I

wrote a small article concerning this incident in Nikkei Sangyo Shimbun (one of the leading business newspapers in Japan) on May 2, 1983. The English translation of this story was carried in the July 3, 1983 edition of the Topeka Capital-Journal and the September 13, 1983 issue of the Asian Wall Street Journal.
