Diffusion, or the widespread adoption of innovations, is a critical yet under-researched topic. There is a wide gap between development and successful adoption of an innovation. Therefore, a better understanding of why and how an innovation is adopted can help develop realistic management and business plans. Most books on this topic use a single-discipline approach to explain the diffusion of innovations. This book adopts a multi-disciplinary and managerial process approach to understanding and promoting the adoption of innovations, based on the latest research and practice. It will be of interest to graduates and researchers in marketing, product development and innovation courses.

This book presents the papers from the Internal Combustion Engines: Performance, fuel economy and emissions held in London, UK. This popular international conference from the Institution of Mechanical Engineers provides a forum for IC engine experts looking closely at developments for personal transport applications, though many of the drivers of change apply to light and heavy duty, on and off highway, transport and other sectors. These are exciting times to be working in the IC engine field. With the move towards downsizing, advances in FIE and alternative fuels, new engine architectures and the introduction of Euro 6 in 2014, there are plenty of challenges. The aim remains to reduce both CO2 emissions and the

dependence on oil-derivate fossil fuels whilst meeting the future, more stringent constraints on gaseous and particulate material emissions as set by EU, North American and Japanese regulations. How will technology developments enhance performance and shape the next generation of designs? The book introduces compression and internal combustion engines' applications, followed by chapters on the challenges faced by alternative fuels and fuel delivery. The remaining chapters explore current improvements in combustion, pollution prevention strategies and data comparisons. presents the latest requirements and challenges for personal transport applications gives an insight into the technical advances and research going on in the IC Engines field provides the latest developments in compression and spark ignition engines for light and heavy-duty applications, automotive and other markets

Warren Zevon: Desperado of Los Angeles is the first book-length, critical exploration of one of popular music's most talented and tormented antiheroes. George Plasketes provides a comprehensive chronicle of Zevon's 40-year, 20-record career and his enduring cultural significance. Beginning with Zevon's classical training and encounters as a youth with composers Robert Craft and Igor Stravinsky, Plasketes surveys Zevon's initiation into the 1960s through the Everly Brothers, the Turtles, and the film *Midnight Cowboy*. Plasketes then follows Zevon from his debut album with Asylum Records in 1976, produced by mentor Jackson Browne, through his successes and struggles from a Top Ten album to record label limbo during the 1980s, through a variety of music projects in

the 1990s, including soundtracks and scores, culminating with a striking trio of albums in the early 2000s. Despite his reckless lifestyle and personal demons, Zevon made friends and alliances with talk show host David Letterman and such literary figures as Hunter S. Thompson and Carl Hiaasen. It was only after his death in 2003 that Zevon received Grammy recognition for his work. Throughout this book, Plasketes explores the musical, cinematic, and literary influences that shaped Zevon's distinctive style and songwriting themes and continue to make Zevon's work a telling portrait of Los Angeles and American culture.

A New York Times Notable Book of 2020 How do we read William Faulkner in the twenty-first century? asks Michael Gorra, in this reconsideration of Faulkner's life and legacy. William Faulkner, one of America's most iconic writers, is an author who defies easy interpretation. Born in 1897 in Mississippi, Faulkner wrote such classic novels as *Absolom, Absolom!* and *The Sound and The Fury*, creating in Yoknapatawpha county one of the most memorable gallery of characters ever assembled in American literature. Yet, as acclaimed literary critic Michael Gorra explains, Faulkner has sustained justified criticism for his failures of racial nuance—his ventriloquism of black characters and his rendering of race relations in a largely unreconstructed South—demanding that we reevaluate the Nobel laureate's life and legacy in the twenty-first century, as we reexamine the junctures of race and literature in works that once rested firmly in the American canon. Interweaving biography, literary criticism, and rich travelogue, *The Saddest Words* argues that even despite these contradictions—and perhaps because of them—William Faulkner still needs to be read, and even more, remains central

to understanding the contradictions inherent in the American experience itself. Evoking Faulkner's biography and his literary characters, Gorra illuminates what Faulkner maintained was "the South's curse and its separate destiny," a class and racial system built on slavery that was devastated during the Civil War and was reimagined thereafter through the South's revanchism. Driven by currents of violence, a "Lost Cause" romanticism not only defined Faulkner's twentieth century but now even our own age. Through Gorra's critical lens, Faulkner's mythic Yoknapatawpha County comes alive as his imagined land finds itself entwined in America's history, the characters wrestling with the ghosts of a past that refuses to stay buried, stuck in an unending cycle between those two saddest words, "was" and "again." Upending previous critical traditions, *The Saddest Words* returns Faulkner to his sociopolitical context, revealing the civil war within him and proving that "the real war lies not only in the physical combat, but also in the war after the war, the war over its memory and meaning." Filled with vignettes of Civil War battles and generals, vivid scenes from Gorra's travels through the South—including Faulkner's Oxford, Mississippi—and commentaries on Faulkner's fiction, *The Saddest Words* is a mesmerizing work of literary thought that recontextualizes Faulkner in light of the most plangent cultural issues facing America today.

 In 1968, during Albert Lepard's fifth escape from a life sentence at Parchman Penitentiary, he kidnapped Lovejoy Boteler, then eighteen years old, from his family's farm in Grenada, Mississippi. Three decades later, still beset by half-buried memories of that time, Boteler began researching his kidnapper's nefarious, sordid life to discover how and why this terrifying abduction occurred. *Crooked Snake: The Life and Crimes of Albert Lepard* is the true story of Lepard, sentenced to life in Parchman for the murder of seventy-four-year-old Mary Young in 1959. During the course of his sentence, Lepard escaped from prison six times in fourteen years. In *Crooked Snake*, Boteler pieces together the story of this cold-blooded murderer's life using both historical records and personal interviews—over seventy in all—with ex-convicts who gravitated to and ran with Lepard, the family members who fed and sheltered the fugitive during his escapes, the law officers who hunted him, and the regular folks who were victimized in his terrible wake. Throughout *Crooked Snake*, Boteler reveals his kidnapper's hardscrabble childhood and tracks his whereabouts before his incarceration and during his jailbreaks. Lepard's escapes take him to Florida, Michigan, Kansas, California, and Mexico. *Crooked Snake* captures a slice of history and a landscape that is fast disappearing. These vignettes describe Mississippi's countryside and spirit, ranging from sharecropper family gatherings in Attala County's Seneasha Valley to the twenty-thousand-acre Parchman farm and its borderlands teeming with alligator, panther, bear, and wild boar.

In recent years, privatisation has fallen out of favour in many countries because the underlying political factors have not been well understood. This book examines Malaysia's privatisation programme, focusing on how political constraints resulted in the failure of four major privatisations: the national sewerage company (IWK), Kuala Lumpur Light Rail Transit (LRT), national airline (MAS), and national car company (Proton). It considers why developing countries such as Malaysia might want to embark on privatisation, the factors that lead to policy failure, and what is needed to make it work. It shows clearly that political motives driving privatisation often dominate purely economic considerations, and thus it is necessary to analyse privatisation within the specific country context. It argues that failure in the Malaysian case was due to political considerations that compromised institutional design and regulatory enforcement, leading to problems associated with corruption. It concludes that privatisation does not necessarily improve incentives for efficiency or enhance the finance available for capital investment, and that successful privatisation depends on the state's institutional and political capacity to design and manage an appropriate set of subsidies. Overall, this book is a comprehensive examination of privatisation in Malaysia, providing important insights for understanding the political economy of this process in other developing countries.
