Follow scientists and technicians of the Hawaiian Volcano Observatory as

they scramble to take the pulse of Big Island volcanoes in attempts to forewarn Investors Chronicle

the public of impending eruption; progress is made, but complete understanding of these powerful forces of nature remains frustratingly elusive. Investor's Digest

Watch bad guys and harmless hippies as they cultivate illegal gardens of marijuana on the slopes of Kilauea Volcano, directly in the path of searing lava flows; some growers pay the ultimate price for their addiction to pot and its ill-gotten financial rewards. But above all, listen to Pele, the Hawaiian volcano goddess, as she manipulates success and failure, even life and death, of human intruders on her volcano home. When Pele Stirs paints a realistic picture of life on the Big Island, and will help the reader understand why Christian missionaries have failed to eliminate the worship of Pele, in spite of their efforts to do so for nearly two centuries.

Investors Chronicle and Stock Exchange Gazette

Now in its fourth edition, this textbook remains the indispensable text to guide readers through automotive or mechanical engineering, both at university and beyond. Thoroughly updated, clear, comprehensive and well-illustrated, with a wealth of worked examples and problems, its combination of theory and applied practice aids in the understanding of internal combustion engines, from thermodynamics and combustion to fluid mechanics and materials science. This textbook is aimed at third year undergraduate or postgraduate students on mechanical or automotive engineering degrees. New to this Edition: - Fully updated for changes in technology in this fast-moving area - New material on direct injection spark engines, supercharging and renewable fuels - Solutions manual online for lecturers
