The (Unofficial) Google Nexus 5 SmartPhone Book

**** NOTE **** While this edition is good value, there is a newer edition: The (Unofficial) Google Nexus 5 SmartPhone Book - Second Edition, The Google-designed and LG-manufactured Nexus 5 is the first smartphone to run the Android 4.4 "KitKat" operating system. If you've just bought a Nexus 5 smartphone, or you're thinking about buying one, you should read this book. The ethos of the book is very much "What the Nexus 5 can do for you!", and it's an unofficial book because we have not colluded with the manufacturers (Google or LG) during the writing of the book...so we can say pretty much whatever we want. And if we say we like it, it's because we really do. But we're no "fan-boys", and we don't mind giving a warts 'n' all coverage where it's warranted. So whether you're so-far undecided, or have already purchased your Nexus 5...buy this book!
