Traditions & Encounters: A Brief Global History World Book

Kaplan's, 5-Steps, Crash Course and the others are great resources for reviewing at the end, but Tamm's Textbook Tools accompanies students all year long. This AP World History companion is filled with vocab and assignments that follow the Bentley text throughout the year, chapter-by-chapter. It can be used for regular weekly assignments or review. It can be used on short notice if there is a sub, or be done as homework. All you need is the textbook. Teachers can copy at will, or the book can be used as a student consumable. As publishers started putting the majority of their content online, it opened a niche for traditional paper assignments, a void filled by this series. The textbook itself can be written in ink or electrons, but students still need to write and keep notes for themselves, and portfolios still matter. These activities challenge students to apply the concepts and give examples, diagramming each chapter as it comes. Do you know how we got to here? In "Spinning World History," Eric Burnett takes you through all the major tales, traditions and turning points of world history - not just European history, but WORLD history. You'll figure out real quick that the West might have had some crowning

moments, but for the whole of human history, it's been the Persians, the Indians, the Chinese, the Muslims or some horse peoples from the steppe that have truly turned us into the clever little creatures we are today. And when most world history books fade off once the Cold War comes to a close, this sometimes cheekily-written tome just gets going. Updated to include contemporary debates over topics such as Brexit, the rise of ISIS, claims to the South China Sea, the mounting refugee crisis and the controversial presidency of Donald Trump, this second edition finishes with a distinctively comprehensive look at the 21st century challenges facing the nine major regions of today's world - Africa, Latin America, Japan, China, the Middle East, India, Russia, Europe and the United States.

The Story of How More Than One Hundred Men Have Recovered from Alcoholism McGraw Hill Professional

In this provocative and timely collection of essays--five published for the first time--one of the most important ethnohistorians writing today, James Axtell, explores the key role of imagination both in our perception of strangers and in the writing of history. Coinciding with the 500th anniversary of Columbus's "discovery" of America, this collection covers a wide range of topics dealing with American history. Three essays view the invasion of North America from the perspective of the Indians, whose land it was. The very first meetings, he finds, were nearly always peaceful. Other essays describe native encounters with colonial traders--creating "the first consumer revolution"--and Jesuit missionaries in Canada and Mexico. Despite the tragedy of many of the encounters, Axtell also finds that there was much humor in Indian-European negotiations over peace, sex, and war. In the final section he conducts searching analyses of how college textbooks treat the initial century of American history, how America's human face changed from all brown in 1492 to predominantly white and black by 1792, and how we handled moral questions during the Quincentenary. He concludes with an extensive review of the Quincentenary scholarship--books, films, TV, and museum exhibits--and suggestions for how we can assimilate what we have learned.

The vast sweeping story of Aboriginal Australia from 1788 is told in Richard Broome's typical lucid and imaginative style. This is an important work of great scholarship, passion and imagination.' - Professor Lynette Russell, Centre for Australian Indigenous Studies, Monash University In the creation of any new society, there are winners and losers. So it was with Australia as it grew from a colonial outpost to an affluent society. Richard Broome tells the history of Australia from the standpoint of the original Australians: those who lost most in the early colonial struggle for power. Surveying over two centuries of Aboriginal-European encounters, he shows how white settlers steadily supplanted the original inhabitants, from the shining coasts to inland deserts, by sheer force of numbers, disease, technology and violence. He also tells the story of Aboriginal survival through resistance and accommodation, and traces the continuing Aboriginal struggle to move from the margins of a settler society to a more central place in modern Australia. Broome's Aboriginal Australians has long been regarded as the most authoritative account of black-white relations in Australia. This fifth edition continues the story, covering the impact of the Northern Territory Intervention, the mining boom in remote Australia, the Uluru Statement, the resurgence of interest in traditional Aboriginal knowledge and culture, and the new generation of Aboriginal leaders. 'Richard Broome's historical analysis breaks the back of every theoretical argument about colonialism and establishes a clear pathway to understanding the present situation.' - Sharon Meagher, Aboriginal Education Development Officer, Women's and Children's Hospital, Adelaide

Winner of the 2015 Pulitzer Prize for History Encounters at the Heart of the World concerns the Mandan Indians, iconic Plains people whose teeming, busy towns on the upper Missouri River were for centuries at the center of the North American universe. We know of them mostly because Lewis and Clark spent the winter of 1804-1805 with them, but why don't we know more? Who were they really? In this extraordinary book, Elizabeth A. Fenn retrieves their history by piecing together important new discoveries in archaeology, anthropology, geology, climatology, epidemiology, and nutritional science. Her boldly original interpretation of these diverse research findings offers us a new perspective on early American history, a new interpretation of the American past. By 1500, more than twelve thousand Mandans were established on the northern Plains, and their commercial prowess, agricultural skills, and reputation for hospitality became famous. Recent archaeological discoveries show how these Native American people thrived, and then how they collapsed. The damage wrought by imported diseases like smallpox and the havoc caused by the arrival of horses and steamboats were tragic for the Mandans, yet, as Fenn makes clear, their sense of themselves as a people with distinctive traditions endured. A riveting account of Mandan history, landscapes, and people, Fenn's narrative is enriched and enlivened not only by science and research but by her own encounters at the heart of the world.

Nazi Germany's New Aristocracy Open Book Publishers

The first book-length presentation on the social origins of the prewar SS leadership, this volume offers a complete picture of the men who, between 1925 and 1939, joined the vanguard of National Socialism and rose to the rank of SS-F ü hrer. Herbert Ziegler reveals that the Black Order was composed of people from all walks of life. Young Gymnasium and university graduates rubbed elbows with former gardeners, mechanics, and office clerks, while "old fighters" of the pre-1933 Nazi movement climbed the ladder of SS ranks alongside those who did not find their enthusiasm for Hitler's new order until after the Nazi seizure of power. Within the confines of Heinrich Himmler's new knighthood was created a people's community in microcosm, furnishing many a recruit a vehicle for upward social mobility. Moving beyond earlier explanations of who provided the support for National Socialism, Ziegler describes practices within the SS that were akin to a democracy of personnel selection and that resulted, by 1939, in a leadership corps characterized by social heterogeneity rather than homogeneity. Taking advantage of the detailed information contained in the thousands of SS personnel files located at the Berlin Document Center, and using the tools of statistical analysis, he also probes the connections between social reality and the ideological credos and promises of the Third Reich.
