Kaplan's, 5-Steps, Crash Course and the others are great resources for reviewing at the end, but Tamm's Textbook Tools accompanies students all year long. This AP World History companion is filled with vocab and assignments that follow the Bentley text throughout the year, chapter-by-

chapter. It can be used for regular weekly assignments or review. It can be used on short notice if there is a sub, or be done as homework. All you need is the textbook. Teachers can copy at will, or the book can be used as a student consumable. As publishers started putting the majority of their content online, it opened a niche for traditional paper assignments, a void filled by this series. The textbook itself can be written in ink or electrons, but students still need to write and keep notes for themselves, and portfolios still matter. These activities challenge students to apply the concepts and give examples, diagramming each chapter as it comes. Traditions & Encounters: A Brief Global History McGraw-Hill Humanities/Social Sciences/Languages

Winner of the 2015 Pulitzer Prize for History

Encounters at the Heart of the World concerns the Mandan Indians, iconic Plains people whose teeming, busy towns on the upper Missouri River were for centuries at the center of the North American universe. We know of them mostly because Lewis and Clark spent the winter of 1804-1805 with them, but why don't we know more? Who were they really? In this extraordinary book, Elizabeth A. Fenn retrieves their history by piecing together important new discoveries in archaeology, anthropology, geology, climatology, epidemiology, and

nutritional science. Her boldly original interpretation of these diverse research findings offers us a new perspective on early American history, a new interpretation of the American past. By 1500, more than twelve thousand Mandans were established on the northern Plains, and their commercial prowess, agricultural skills, and reputation for hospitality became famous. Recent archaeological discoveries show how these Native American people thrived, and then how they collapsed. The damage wrought by imported diseases like smallpox and the havoc caused by the arrival of horses and steamboats were tragic for the Mandans, yet, as Fenn makes clear, their sense of themselves as a people with distinctive traditions endured. A riveting account of Mandan history, landscapes, and people, Fenn's narrative is enriched and enlivened not only by

science and research but by her own encounters at the heart of the world.

Authorized King James Version Princeton University Press

The first book-length presentation on the social origins of the prewar SS leadership, this volume offers a complete picture of the men who, between 1925 and 1939, joined the vanguard of National Socialism and rose to the rank of SS-Führer. Herbert Ziegler reveals that the Black Order was composed of people from all walks of life. Young Gymnasium and university graduates rubbed elbows with former gardeners, mechanics, and office clerks, while "old fighters" of the pre-1933 Nazi movement climbed the ladder of SS ranks alongside those who did not find their enthusiasm

for Hitler's new order until after the Nazi seizure of power. Within the confines of Heinrich Himmler's new knighthood was created a people's community in microcosm, furnishing many a recruit a vehicle for upward social mobility. Moving beyond earlier explanations of who provided the support for National Socialism, Ziegler describes practices within the SS that were akin to a democracy of personnel selection and that resulted, by 1939, in a leadership corps characterized by social heterogeneity rather than homogeneity. Taking advantage of the detailed information contained in the thousands of SS personnel files located at the Berlin Document Center, and using the tools of statistical analysis, he also probes the connections between social reality and the ideological credos and promises of the Third Reich. Originally published in 1990. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press.

These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

Beyond 1492 McGraw-Hill Higher Education China and Russia are rising economic and political powers that share thousands of miles of border. Despite their proximity, their interactions with each other - and with their third neighbour Mongolia - are rarely discussed. Although the three countries share a boundary, their traditions, languages and worldviews are remarkably different. Frontier Encounters presents a wide range of views on how the borders between these unique countries are enacted, produced, and crossed. It sheds light on global uncertainties: China's search for energy resources and the employment of its huge population, Russia's fear of Chinese migration, and the precarious

independence of Mongolia as its neighbours negotiate to extract its plentiful resources. Bringing together anthropologists, sociologists and economists, this timely collection of essays offers new perspectives on an area that is currently of enormous economic, strategic and geo-political relevance.

In this provocative and timely collection of essays--five published for the first time--one of the most important ethnohistorians writing today, James Axtell, explores the key role of imagination both in our perception of strangers and in the writing of history. Coinciding with the 500th anniversary of Columbus's "discovery" of America, this collection covers a wide range of topics dealing with American history. Three essays view the invasion of North America from the perspective of the Indians, whose land it was. The very first meetings, he finds, were nearly always peaceful. Other essays describe native encounters with

colonial traders--creating "the first consumer revolution"--and Jesuit missionaries in Canada and Mexico. Despite the tragedy of many of the encounters, Axtell also finds that there was much humor in Indian-European negotiations over peace, sex, and war. In the final section he conducts searching analyses of how college textbooks treat the initial century of American history, how America's human face changed from all brown in 1492 to predominantly white and black by 1792, and how we handled moral questions during the Quincentenary. He concludes with an extensive review of the Quincentenary scholarship--books, films, TV, and museum exhibits--and suggestions for how we can assimilate what we have learned. **The Fifth Sacred Thing McGraw-Hill Education**

An epic tale of freedom and slavery, love and war, and the potential futures of humankind tells of a twenty-first century California clan

caught between two clashing worlds, one based on tolerance, the other on repression.

Declaration of the Four Sacred Things The earth is a living, conscious being. In company with cultures of many different times and places, we name these things as sacred: air, fire, water, and earth. Whether we see them as the breath, energy, blood, and body of the Mother, or as the blessed gifts of a Creator, or as symbols of the interconnected systems that sustain life, we know that nothing can live without them. To call these things sacred is to say that they have a value beyond their usefulness for human ends, that they themselves became the standards by which our acts, our economics, our laws, and our purposes must be judged. no one has the right to appropriate them or profit from them at the expense of others. Any government that fails to protect them forfeits its legitimacy. All

people, all living things, are part of the earth life, and so are sacred. No one of us stands higher or lower than any other. Only justice can assure balance: only ecological balance can sustain freedom. Only in freedom can that fifth sacred thing we call spirit flourish in its full diversity. To honor the sacred is to create conditions in which nourishment, sustenance, habitat, knowledge, freedom, and beauty can thrive. To honor the sacred is to make love possible. To this we dedicate our curiosity, our will, our courage, our silences, and our voices. To this we dedicate our lives. Praise for The Fifth Sacred Thing “ This is wisdom wrapped in drama. ” —Tom Hayden, California state senator “ Starhawk makes the jump to fiction quite smoothly with this memorable first novel. ” —Locus “ Totally captivating . . . a vision of the paradigm shift that is essential for

our very survival as a species on this planet. ” —Elinor Gadon, author of *The Once and Future Goddess* “ This strong debut fits well against feminist futuristic, utopic, and dystopic works by the likes of Charlotte Perkins Gilman, Ursula LeGuin, and Margaret Atwood. ” —Library Journal
